DOCUMENT HISTORY

Date	Document Version	Description of Change	Author
4/25/2012	1.0.0	Develop initial draft of document	eRA Documentation Team
1/31/2014	7.0.0	Updated for AHRQ and multiyear funded awards	eRA Communications
4/25/2014	7.1.0	Corrected text and screen prints	eRA Communications
7/18/2014	8.0.0	Updated PA PRAM feature; inclusion forms	eRA Communications
10/17/2014	9.0.0	Updated for Inclusion Enrollment; NCT selection on multi-projects; Agency Requested PRAM changes	eRA Communications
2/5/2015	9.2.0	Added Recall for PRAM; Additional Indirect Cost budget form	eRA Communications
3/11/2015	9.3.0	Minor text edits	eRA Communications
4/17/2015	9.4.0	AHRQ updates	eRA Communications
7/17/2015	9.5.0	Modified instructions for question B.4	eRA Communications
11/3/2015	9.6.0	Modified instructions in Chapter 7; replaced policy links throughout	eRA Communications
1/25/2016	9.7.0	Modified instructions for Section 6.2, questions B.2 and B.6; Section 7.4, question B.2	eRA Communications
11/22/2016	9.7.1	Updates to Figures 86,87 Update Section 6.3, C.2, C.3, and C.5.a, regarding the new selection menus on the left and updated language regarding selections.	eRA Communications

NIH RPPR Instruction Guide

02/14/2017	9.7.2	Added information regarding the new Section I – Program Outcomes which is used with Final and Interim RPPR	eRA Communications & Documentation
03/02/2017	9.7.3	Updated screenshots for Sections A-H and added I. Outcomes. Updated hyperlink for sample outcomes for Section I. Outcomes Updated hyperlink for F.3.d – Select Agents	eRA Communications & Documentation
05/22/2017	9.7.4	Updated text in sections B.2, C.1, and C.5. Updated screen shot for question C.1 (Figure 85)	eRA Communications & Documentation
11/5/2018	9.7.5	Added note on cover page regarding the updated form approval date and to use the online help until the instructional guide is brought up to date.	eRA Communications & Documentation
05/13/2022	9.7.6	<ul style="list-style-type: none"> • Minor text edits • Updated 1.2 Agency for Healthcare Research and Quality (AHRQ) purpose statement • Added 1.3 Department of Veterans Affairs (VA) purpose statement • Added reminder do not include Personal Identifiable Information (PII) or Protected Health Information (PHI) in the RPPR • Inclusion/Human Subjects updates • Participants section D.1 Updated screenshot • Updated instructions in sections D.2.b and D.2.c to align with updated Other Support format instructions • Updated instructions for section G.4 Human Subjects • Updated instructions for G.1 Special NOA and NOFO Reporting Requirements for Fellowship RPPR • Updated instructions for G.1 Special NOA and NOFO Reporting Requirements for Training RPPR • Updated instructions for B.4 for Training and Education RPPRs 	eRA Communications & Documentation

NIH RPPR Instruction Guide

06/23/2022	9.7.7	<ul style="list-style-type: none"> • Minor text edits • Updated directions for Editing Inclusion Enrollment Data (section 5.3.4) • Added references to new element Unique Entity Identifier (UEI) throughout document • Added section 5.2 Access RPPR from Closeout • Added section 5.12 Final Progress Report Additional Materials (FRAM) • Added section 5.13 Interim Report Additional Materials (IRAM) • Updated instructions for SBIR/STTR RPPRs • Updated text in 5.11 and 6.9 • Updated 6.8 Section H Budget form instructions • Updated screenshots and instructions to reflect the new “look and feel” of eRA screens. 	OPERA, eRA Communications & Documentation
October 2024		<ul style="list-style-type: none"> • Minor text edits and terminology updates to align with 2 CFR 200. • Updated 6.3 Section C Products instructions to incorporate progress reporting requirements for the Data Management and Sharing Plan; parallel updates made throughout Section 7 for specific RPPR types. • Updated 6.7 Section G Special Reporting Requirements and 7.3 SBIR/STTR RPPRs instructions for SBIR/STTR awards required to address any changes to the Required Disclosures of Foreign Affiliations or Relationships to Foreign Countries. • Minor text updates to reflect that AHRQ uses eRA Closeout processes as of October 1, 2024, which includes using the RPPR module for Final RPPR. • Updated screenshots of system to align with refreshed look and feel of modules. Updated procedure text to match new screen elements. 	OPERA, eRA Communications & Documentation

NIH RPPR Instruction Guide

May 2025		<ul style="list-style-type: none"> • Updated instructions in B.3 to align with agency and departmental priorities. • Updated instructions in D.1 regarding personnel ‘Supplement Support.’ • Minor text edits throughout. 	OPERA, eRA Product Owner Branch
January 2026		<ul style="list-style-type: none"> • Updated instructions to incorporate Common Form Biosketch and Current and Pending (Other) Support adoption (Section D) • Updated instructions regarding Malign Foreign Talent Recruitment certification requirements (Section G.1). • Minor text edits and hyperlink updates throughout. 	OPERA, eRA Product Owner Branch

1 Purpose

The purpose of this document is to provide those preparing the Research Performance Progress Report (RPPR) with an explanation of the RPPR module in the eRA Commons and the information required in the report. This document also provides the steps for accessing and completing the report in eRA Commons, as well as navigating, validating, routing, and submitting the RPPR to the awarding agency.

1.1 NIH

The RPPR is required for all annual non-competing (Type 5) NIH awards and final progress reports (Final-RPPR), including SBIR/STTR awards. NIH requires the submission of an “Interim-RPPR” if the recipient organization has submitted a renewal application (Type 2) on or before the due date by which a Final-RPPR would be required for the current competitive segment. Annual, interim, and final progress reports submitted in any format other than the RPPR will not be processed by the NIH and will require resubmission through the RPPR. Refer to notices [NOT-OD-17-022](#), [NOT-OD-17-037](#), [NOT-OD-17-085](#), [NOT-OD-13-035](#), [NOT-OD-14-026](#) and [NOT-OD-14-092](#) and [NOT-OD-15-014](#) for more information.

1.2 Agency for Healthcare Research and Quality (AHRQ)

All Agency for Healthcare Research and Quality (AHRQ) recipients are required to use the eRA Commons RPPR module. The RPPR includes numerous references to the *NIH Grants Policy Statement 8.1.2 requirement* that significant changes in objectives and scope require prior approval of the agency; for AHRQ recipients the analogous requirement is in the [HHS Grants Policy Statement](#) under “Prior Approvals.”

AHRQ recipients also use the eRA Commons Closeout procedures and screens. AHRQ will complete the Final Research Performance Progress Report (FRPPR) closeout action, accessible from the Status module under the **Requires Closeout** action.

1.3 Department of Veterans Affairs (VA)

Progress reports (RPPRs) are required to continue support of a VA-ORD award for each budget year within a competitive segment. Interim reports are due when the project period is over and the award is not in Closeout (i.e., a renewal application is pending or has been selected for funding). If the pending renewal application is not funded, the Interim report becomes the Final report. Final reports are required for any funded award that has ended and will not be extended through renewal. Note: For VA awards the outcomes are not published. Guidance on completing report content specific to VA-ORD requirements, as well as navigating, validating, routing and submitting the report to VA-ORD for review and approval can be found at: <https://www.research.va.gov/resources/RPPR.cfm>. *It is important to review the VA-ORD instructions as there are sections where specific VA-ORD information is requested that differs from that noted within the NIH progress report template:*

<https://grants.nih.gov/grants/guide/notice-files/NOT-OD-17-022.html>

<https://grants.nih.gov/grants/guide/notice-files/NOT-OD-17-037.html>

2 Background and Paperwork Burden

The NIH Research Performance Progress Report (RPPR) implements the uniform reporting format for interim research progress reporting developed under the auspices of the National Science and Technology Council, through the Committee on Science and the Research Business Models Subcommittee, and established by the Office of Management and Budget for use by agencies that support research and research-related activities.

NIH RPPR Instruction Guide

For NIH and AHRQ, all progress reports must be submitted using the RPPR. Other PHS agencies that may eventually utilize the NIH RPPR are the Food and Drug Administration, and Centers for Disease Control and Prevention.

Non-NIH agencies may have requirements that differ from those for NIH recipients; refer to the Notice of Award (NoA) or contact the Grants Management Specialist named in the NoA.

Progress reports are required to continue support of a PHS grant for each budget year within a competitive segment. NIH has implemented the [Final and Interim-RPPR](#) for final progress reporting at the end of each competitive segment.

AHRQ award recipients can find instructions for submitting the Final Progress Report or Final Research Performance Progress Report in online help; see [Closeout for AHRQ Awards](#). Also see [Grant Closeout Requirements](#) on the AHRQ website.

Public reporting burden for this collection of information is estimated to 15 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. **An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.** Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Office, 6705 Rockledge Drive MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0002). Do not send progress reports to this address.

3 RPPR Due Dates

Signing officials of recipient organizations can find progress reports that are due by following the steps in *How to Find Annual Awards with Progress Reports Due?* in the online help topic: [Finding Recent NoAs, Awards with RPPRs Due, or Awards Pending Closeout](#).

In addition, automatic e-mail notifications are sent to the PD/PI prior to due date.

3.1 NIH

- SNAP: If an award is issued under the SNAP (Streamlined Noncompeting Award Process) provisions, the progress report is due the 15th of the month preceding the month in which the budget period ends (e.g., if the budget period ends 11/30, the due date is 10/15). If the 15th falls on a weekend or Federal holiday, the due date is automatically extended to the next business day. Recipients should consult the NoA to determine when SNAP procedures apply.
- Non-SNAP: If an award is not issued under the SNAP provisions, the progress report is due the first of the month preceding the month in which the budget period ends (e.g., if the budget period ends 11/30, the due date is 10/1).
- Fellowships: For Fellowships, the progress report is due two months before the beginning date of the next budget period. Occasionally, the Notice of Award (NoA) will indicate a different due date which will supersede these dates.
- MYF: Progress Reports for MYF awards are due annually on or before the anniversary of the budget/project period start date of the award. The reporting period for a MYF progress report is the calendar year preceding the anniversary date of the award.
- Final RPPR: Final progress reports are due within 120 days of the end of the period of performance.
- Interim RPPR: Interim progress reports are due within 120 days of the end of the period of

performance. Interim progress reports are only required when a renewal application (Type 2) has been submitted to the NIH for consideration on or before the due date by which a F-RPPR would be due for a competitive segment. If the Type 2 is not funded, the Interim-RPPR will serve as the Final-RPPR for the project. If the Type 2 is funded, the Interim-RPPR will serve as the annual RPPR for the final year of the previous competitive segment.

3.2 Agency for Healthcare Research and Quality (AHRQ)

All AHRQ RPPRs are due 3 months before the anniversary of the award. For example, for an FY2024 award issued with a start date of 2/1/2024, the annual progress report (RPPR) for the award to be issued in FY2025 is due 11/1/2024 (i.e., three months before the FY2025 budget period start date of 2/1/2025). If the due date falls on a weekend or federal holiday, the due date is automatically extended to the next business day.

Please note that AHRQ does **not** participate in the SNAP (Streamlined Noncompeting Award Process) initiative. AHRQ recipients are to submit detailed budgets for the parent organization and for each consortium involved in the project.

4 Data Entry, PDF Attachments, and Style

4.1 Data or Text Box, and PDF Size Limits

Most text entry boxes have an 8,000 character limit (~3 pages); this limit is standardized across federal agencies implementing the RPPR and entry of more than 8,000 characters is prevented by the system. In an effort to reduce recipient burden and encourage concise responses, NIH has stated the recommended length of the response for some questions and, for agency-specific questions, has limited text box responses to less than 8,000 characters. AHRQ recipients should follow NIH recommended lengths for text entries.

Warning: Text exceeding 8,000 characters is cut to 8,000 when using the *cut and paste* feature.

PDF file uploads (attachments) do not have page limits but may not be more than 6 megabytes (6MB). PDF attachments are utilized when there may be a need for a recipient to provide considerable detail (e.g., change in human subject protocols that requires a new or revised Protection of Human Subjects section as described in the [NIH How to Apply - Application Guide](#)). Even when developing PDF responses, recipients are encouraged to be concise and avoid unnecessary detail.

IMPORTANT: Do Not Include Personal Identifiable Information (PII) Or Protected Health Information (PHI) In the RPPR

Sensitive PII (e.g., Social Security Number, personal financial information, Alien Registration Number) and PHI (e.g., personal medical conditions) require strict handling due to the increased risk to an individual if the data is compromised. Documents containing sensitive PII or PHI **must not** be included in the RPPR.

NIH GRANTS ONLY: Additional information on this topic can be found in this [FAQ](#) or by contacting your [IC Privacy Coordinator](#).

4.2 PDF Attachments

Recipients should generate text attachments using any word processing software and then convert those files to PDF before attaching the files to the appropriate section in the progress report. Unless otherwise stated in the instructions, PDF files uploaded to RPPR are required to be flattened PDFs; see [more information on flattened PDFs](#). Recipients should note that Common Forms (Biosketch and Current & Pending (Other) Support Forms) in most cases should NOT be flattened, to retain signature validations

The PDF format is used to preserve document formatting. All PDF attachments must be submitted as individual files. Although some software packages allow bundling of multiple PDFs into a single file, eRA systems cannot support “Bundling” or “Portfolio” features at this time. Use of these features may result in delays in agency acceptance of the progress report. Paginated PDF files are also discouraged since they can interfere with system pagination of the entire RPPR document upon submission to the agency. File names will be used and displayed in the assembled PDF submitted to the agency.

Save all files with descriptive file names of 50 characters or less and be sure to only use standard characters in file names: A through Z, a through z, 0 through 9, and underscore (_). Do not use any special characters (example: &, -, *, %, /, and #) or spacing in the file name, and for word separation use an underscore (e.g., My_Attached_File.pdf).

Use an Arial, Helvetica, Palatino Linotype, or Georgia typeface, a black font color, and a font size of 11 points or larger. (A Symbol font may be used to insert Greek letters or special characters; the font size requirement still applies.) Type density, including characters and spaces, must be no more than 15 characters per inch. Type may be no more than six lines per inch.

Use standard paper size (8 ½" x 11). Use at least one-half inch margins (top, bottom, left, and right) for all pages. No information should appear in the margins, including the PD/PI’s name and page numbers.

4.3 Style

Use English and avoid jargon. Abbreviations and language that may not be known to the broader scientific community should be avoided unless clearly defined. Internet Web site addresses (URLs) should not be used unless otherwise specified in the RPPR instructions.

5 Navigation

The RPPR is completed using the eRA Commons system. The report in Commons consists of separate screens for each of the sections listed below:

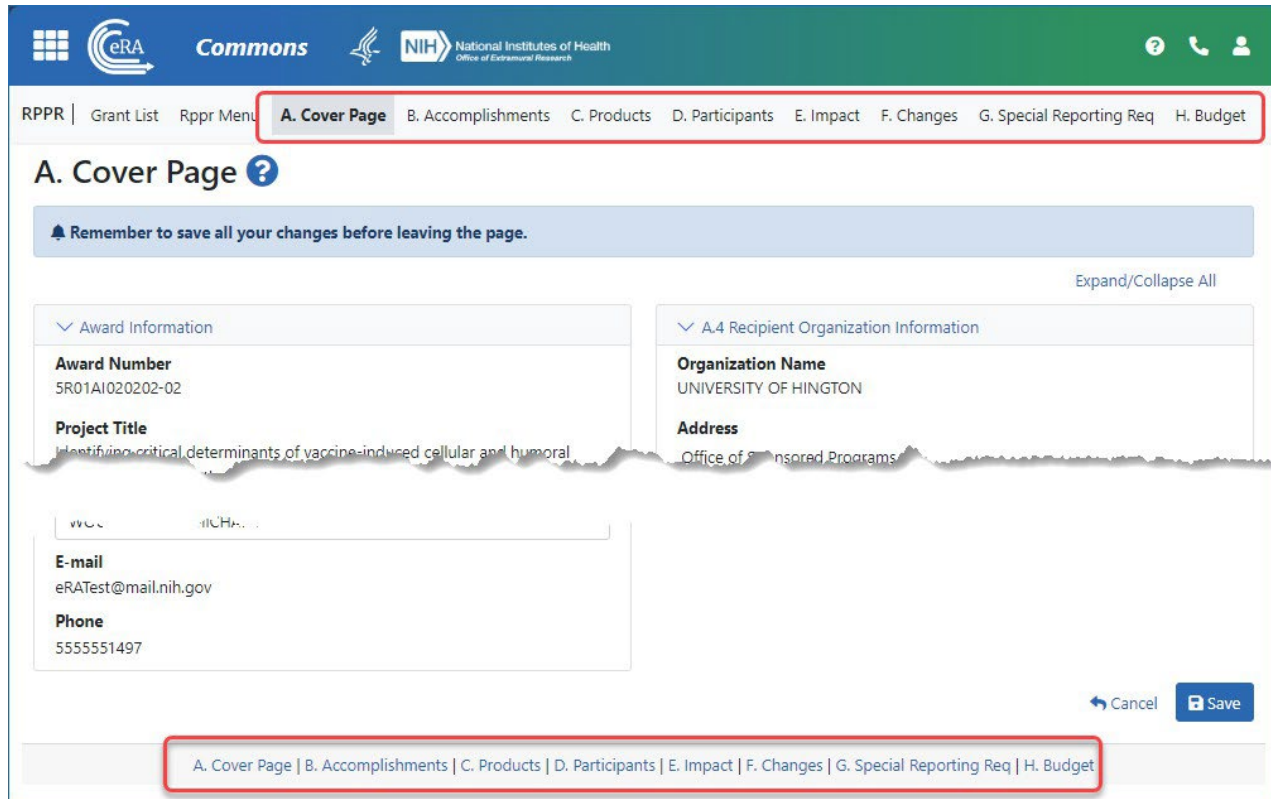

- **A Cover Page**
- **B Accomplishments**
- **C Products**
- **D Participants**
- **E Impact**
- **F Changes**
- **G Special Reporting Requirements**
- **H Budget**
- **I Outcomes**

To open an RPPR for editing, users go to the RPPR module, click an **Award Number** on the *Manage RPPR* screen, click the three-dot ellipsis icon next to **Award Number** on the **RPPR Menu** screen, and select **Edit RPPR**. Users may work on various sections in any order; however, it is important to click the **Save** button in the navigation bar before leaving a screen in order to retain data entered on that screen. Upon submission to the awarding agency, the system will generate a PDF of the progress report, which may be viewed from the *RPPR Menu* screen using the **View** button.

NIH RPPR Instruction Guide

Once submitted, the final RPPR, in PDF format, is accessible in Commons via the *Status Information* screen. Refer to the section titled Viewing the Completed RPPR in Commons for detailed steps.

Note that a link to a site outside the RPPR (e.g., U.S. Select Agency Registry in F.3.d, or the NIH human embryonic stem cell Registry in G.6) opens a site in a new browser window. You must close that window to return to the RPPR. Do not close the browser or use the browser's back button.

The screenshot shows the NIH RPPR interface. At the top, there is a navigation bar with the eRA Commons logo and the NIH Office of Extramural Research logo. Below this, a horizontal menu contains the following items: RPPR, Grant List, Rppr Menu, A. Cover Page (highlighted with a red box), B. Accomplishments, C. Products, D. Participants, E. Impact, F. Changes, G. Special Reporting Req, and H. Budget. The main content area is titled "A. Cover Page" and includes a warning: "Remember to save all your changes before leaving the page." Below this, there are two main sections: "Award Information" and "A.4 Recipient Organization Information". The "Award Information" section contains fields for "Award Number" (5R01AI020202-02) and "Project Title" (Identifying critical determinants of vaccine-induced cellular and humoral). The "A.4 Recipient Organization Information" section contains fields for "Organization Name" (UNIVERSITY OF HINGTON) and "Address" (Office of Sponsored Programs). At the bottom of the form, there are fields for "E-mail" (eRATest@mail.nih.gov) and "Phone" (5555551497). A "Save" button is visible in the bottom right corner. At the bottom of the page, a secondary navigation bar contains the same menu items as the top bar, with "A. Cover Page" highlighted.

Figure 1 Figure 1 RPPR Navigation Links from Cover Page

5.1 Initiate the RPPR

Only the PD/PI or the PD/PI delegate may initiate an RPPR. When there are multiple PIs (MPI), only the Contact PI or the PD/PI delegate of the Contact PI may initiate the report. To initiate, the user can choose from one of two ways to access the RPPR functionality:

1. Access RPPR from **Status**:

- a. Select **Status** from the eRA Commons Main menu or click the Status button on the eRA Commons Home screen.
- b. Click the **List of Applications/Awards** header on the *Status* screen.

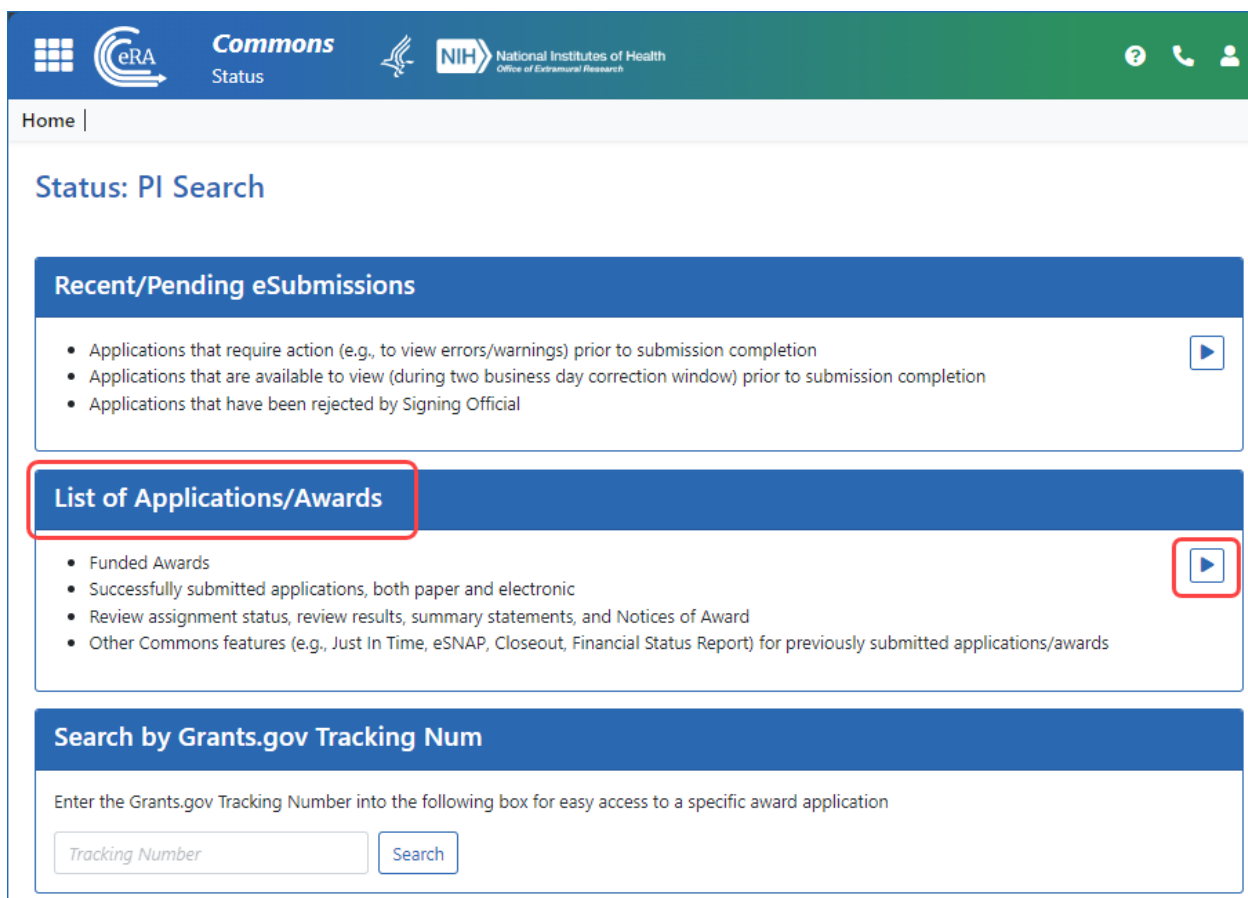

Figure 2 Status Screen for PIs, showing *List of Applications/Awards*

- c. From the *Status Result – List of Applications/Awards* screen, locate the award and click the **RPPR** button in the **Available Actions** column for the specific award. The **RPPR** button for the current reporting period is available once the Notice of Award for the prior year has been issued. This link remains available until the RPPR for the current reporting year has been submitted.

For multi-year funded awards, the link will display as **RPPR Year <X>**, the <X> representing the reporting year. The link for a multi-year funded award is available two months prior to the RPPR due date for the current reporting period and remains available until the RPPR is submitted. Note that AHRQ has not yet implemented the RPPR for multi-year funded awards.

NOTE: While **RPPR Year <X>** links for multiple years may appear at the same time in *Status*, you are prevented from initiating a reporting year’s progress report until the progress report(s) of the previous year(s) has been submitted.

Figure 4 Multi-Year Award RPPR Link

–OR–

1. Access RPPR from the **RPPR** module:
 - a. Select **RPPR** from the eRA Commons Main menu.

The *Manage RPPR* screen displays. *Manage RPPR* is used to view the progress reports to which the user has access and allows the user to select a progress report in order to perform various actions. PD/PIs or users delegated PD/PI progress report authority use the *Manage RPPR* screen to view their own progress reports. SOs and AOs use the screen to search for grants from their organization and/or for awards routed to them for review.

- b. Select the specific grant by clicking the linked **Award Number** on the *Manage RPPR* screen.

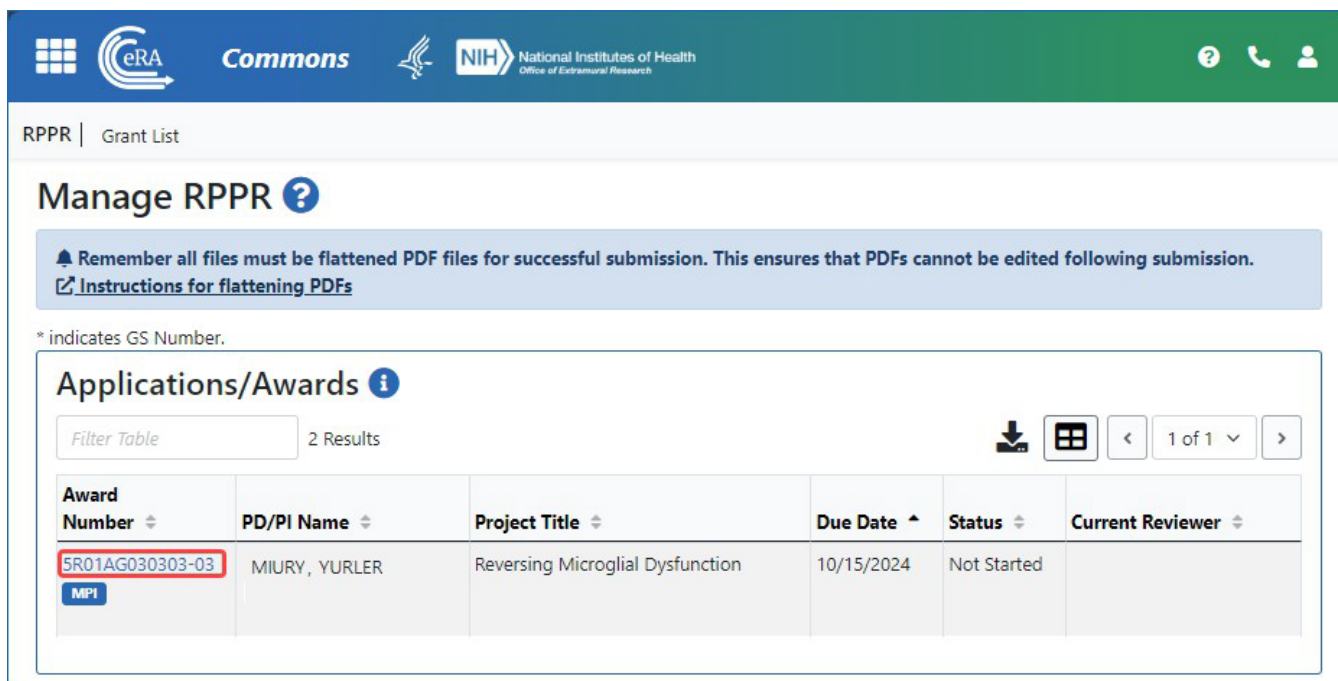

Figure 5 Manage RPPR List of Applications/Awards

If an RPPR exists already, Commons displays the report for editing.

The *RPPR Menu* screen displays. The options for the uninitiated report are **Initiate** and **Cancel**. Once an RPPR is in progress, other options are enabled. These options are discussed later, following the steps for initiation.

NOTE: For multi-year funded awards, the following message displays when attempting to initiate an RPPR if the previous year's report has not been submitted:

The Multi-Year RPPR for the previous year must be submitted prior to initiating this Multi-Year RPPR.

The *RPPR Menu* screen includes the following fields:

Award Number

This is the complete number of the grant

PD/PI Name

The PD/PI of the grant award for which the progress report is being prepared. In the case of MPIs, a list

NIH RPPR Instruction Guide

of PD/PI names displays with the Contact PD/PI indicated by the word *Contact*.

Project Title

The project title of the grant

Due Date

NIH

The due date of the progress report for awards issued under the SNAP (Streamlined Noncompeting Award Process) provisions is the 15th of the month preceding the month in which the budget period ends (e.g., if the budget period ends 11/30, the due date is 10/15). If the award is not issued under SNAP provisions, the progress report is due the first of the month preceding the month in which the budget period ends (e.g., if the budget period ends 11/30, the due date is 10/1). If the due date falls on a weekend or federal holiday, the due date is automatically extended to the next business day. Progress reports for Fellowships are due two months before the beginning date of the next budget period. Occasionally the Notice of Award (NoA) will indicate a different due date which will supersede these dates. Recipients should consult the NoA to determine when SNAP procedures apply.

AHRQ

All AHRQ RPPRs are due 3 months before the anniversary of the award. For example, for an FY2024 award issued with a start date of 2/1/2024, the annual progress report (RPPR) for the award to be issued in FY2025 is due 11/1/2024 (i.e., three months before the FY2025 budget period start date of 2/1/2025). If the due date falls on a weekend or federal holiday, the due date is automatically extended to the next business day.

Current Reviewer

The name of the current reviewer or organization (e.g., PD/PI name, NIH). This value is blank before the RPPR is initiated.

Status

The current state of the progress report. Possible values are as follows: *Not Started*, *PD/PI Work in Progress*, *Reviewer Work in Progress*, and *Submitted to Agency*.

Initiate button: Begins the RPPR process. Available for grants with a status of *Not Started*. Access is granted to PD/PIs and PD/PI delegates. An RPPR can be initiated even if **required** information in the *Personal Profile* and *Institution Profile* sections is missing. If any of this information is incorrect or missing, a prompt will appear to correct/complete the information after initiating the report. Processing may continue on the RPPR without making the corrections; however, the RPPR will not pass validations for submission to the agency until the errors are corrected.

NOTE: A PD/PI with *Progress Report* authority cannot submit a non-SNAP or F RPPR.

Cancel button: Closes the *RPPR Menu* screen and returns the user to the previous screen.

2. Click the **Initiate** button to begin the RPPR.

Award Number	Program Director(PD)/Principal Investigator(PI)	Due Date	Current Reviewer	Status
SR01AG080808-03	MIURY, YURLER	12/15/2024		Not Started
Institution UNIVERSITY OF HINGTON		Project Title Reversing Microglial Dysfunction		

Figure 6 RPPR Menu for Initiating the Report

Once initiated, Commons creates the report in a *PD/PI Work in Progress* status and sets the current reviewer. A message displays as follows:

The RPPR has been successfully initiated.

NOTE: If initiation fails due to business rules validations, error or warning messages display on the screen.

Once initiated, begin editing by clicking the three-dot ellipsis icon next to **Award Number** and selecting **Edit RPPR**. The RPPR is accessed for editing via the *RPPR Menu* screen. The editing feature for single-project RPPRs is different from those of multiproject RPPRs. The steps for accessing each type of RPPR are outlined in the sections that follow. Refer to [Accessing the RPPR From Closeout](#), [Accessing a Single-Project RPPR for Editing](#) or [Accessing a Multi-Project and Single-Project with Complicated Structure RPPR for Editing](#) as appropriate.

After a RPPR is initiated, several actions appear under the three-dot ellipses icon next to **Award Number** on the *Manage RPPR* screen. Available actions vary depending on the status of the RPPR and/or the limitations of the current user's role. The possible available actions include the following:

- **Edit RPPR:** Click the three-dot ellipsis icon next to **Award Number** and select **Edit RPPR** to open the RPPR for edits. Available for progress reports with a status of *Work in Progress (WIP)*. Access is granted to PD/PIs or PD/PI delegates when the PD/PI is the current reviewer, AOs when the AO is the current reviewer, and SOs when the SO is the current reviewer. The **Edit RPPR** option allows the user to view and edit RPPR information.
- **View RPPR as PDF:** Click the three-dot ellipsis icon next to **Award Number** and select **View RPPR as PDF** to open the RPPR report in PDF format, as it will be seen by the agency. Available for progress reports with a status of *Work in Progress (WIP)* or *Submitted to Agency*. Access is granted to PD/PIs, PD/PI delegates, and reviewers. Until the RPPR is submitted to agency, the PDF report shows a status of Draft and a blank submission date.
- **Check for Errors:** Click the three-dot ellipsis icon next to **Award Number** and select **Check for Errors** to check the RPPR for any errors or warnings. Available for progress reports with a status of *Work in Progress (WIP)*. Access is granted to any user with access to the grant. The RPPR can be validated at any time while in the status of *WIP* and can be validated multiple times.

- **View Routing History:** Click the three-dot ellipsis icon next to **Award Number** and select **View Routing History** to open a page that displays a routing history table. Available for progress reports with a status of *Work in Progress (WIP)* or *Submitted to Agency*. Access is granted to PD/PIs, PD/PI delegates, and reviewers.
- **Route to Next Reviewer:** Click the three-dot ellipsis icon next to **Award Number** and select **Route to Next Reviewer** to route the RPPR to the next reviewer for further review or corrections. Available for progress reports with a status of *Work in Progress (WIP)*. Access is granted to the current reviewer. A PD/PI delegate cannot route an RPPR to the next reviewer.
- **Recall:** Click the three-dot ellipsis icon next to **Award Number** and select **Recall** to recall RPPRs that have been forwarded to another reviewer and resets the user as the current reviewer. Available for reports with a status of *Work in Progress (WIP)*. Access is granted to the last reviewer (who recalls the report from the current reviewer). Signing Officials and PD/PIs can recall an RPPR even if they are not the last reviewer whenever it has a status of *Reviewer Work in Progress*. This is useful in situations when a RPPR has been routed to the wrong person or to someone who is unavailable.
- **Submit:** Click the three-dot ellipsis icon next to **Award Number** and select **Submit** to submit the RPPR to the Agency. Available for reports with a status of *Work in Progress (WIP)*. Access is granted to the SO when the SO is the current reviewer and to the PD/PI when the PD/PI has been delegated *Progress Report* authority.

5.2 Accessing the RPPR From Closeout

You can access the RPPR from Closeout. The following procedure is from the point of view of a Principal Investigator (PD/PI).

To access the RPPR from Closeout:

1. Go to the Status module and click the **Requires Closeout** button in the Available Actions column for an award.

NIH RPPR Instruction Guide

3. On the *Final RPPR Menu* screen that appears, click the **Initiate** button to start the RPPR.

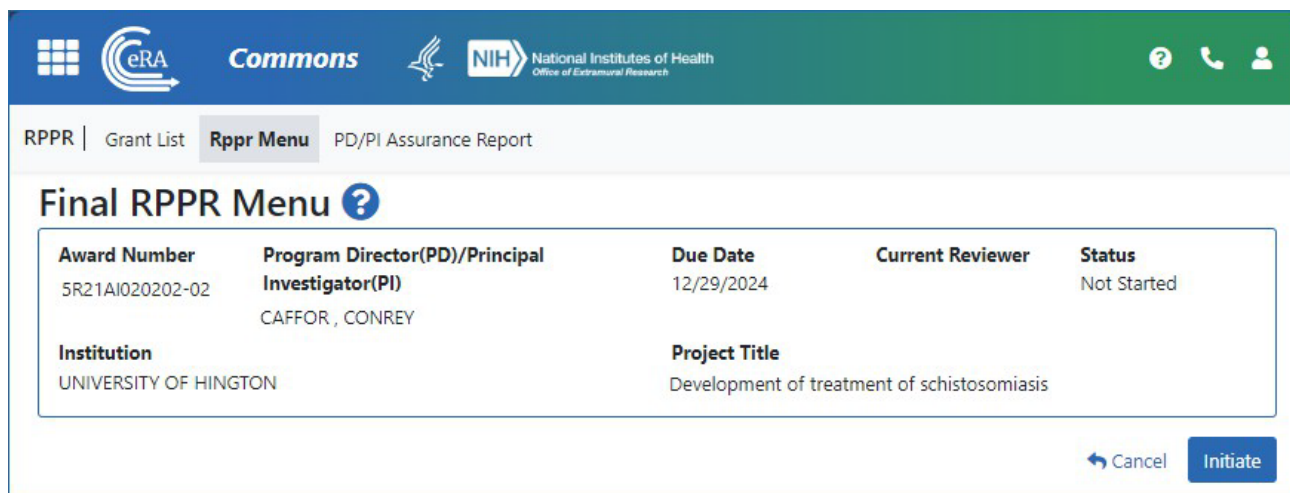

Figure 9 Final RPPR Menu

Once initiated, Commons creates the report in a *PD/PI Work in Progress* status and sets you as the current reviewer. A message displays as follows:

The RPPR has been successfully initiated.

5.2.1 Starting Your Final Research Performance Progress Report

As of January 1, 2017, a *Final Research Performance Progress Report* (Final RPPR) is required for any grant that has ended and any grant that is not to be extended through award of a new competitive segment. The report is due within 120 days of the end of the project period. This report should be prepared in accordance with instructions provided by the awarding component. See [NIH Implementation of Final Research Performance Progress Reports \(Final RPPR\)](#) — Guide Notice NOT-OD-17-022

Effective February 9, 2017, if the recipient organization has submitted a renewal application on or before the date by which a Final Research Performance Progress Report (Final RPPR) would be required for the current competitive segment, then submission of an "Interim RPPR" via eRA Commons is required. The Interim RPPR will be used for the submission of a Competing Renewal application (Type 2). See [NIH Implementation of the Interim RPPR while a Renewal Application is Under Consideration](#) — Guide Notice NOT-OD-17-037.

Both the Interim RPPR and the Final RPPR are currently identical in process and information required. The difference between the two is when and where they are made available to initiate and submit. The Interim RPPR link will be made available to the Signing Official (SO) in the Status screen when a grant is eligible for submission of a Competing Renewal application.

The Final RPPR is only available as part of the Closeout process and the Process Final RPPR link only appears on the Closeout Status screen.

The format of the Interim RPPR and the Final RPPR are the same as the annual RPPR, making it easier for recipients to navigate through both the Interim and the Final RPPR, based on familiarity with the format of the annual RPPR.

Differences between Interim/Final RPPR and the annual RPPR are few:

- In the Interim/Final RPPR, only Section D.1 is required in the Participants section
- Sections F: Changes and Section H: Budget are not part of the Interim/Final RPPR
- Section I: Outcomes. Section I is required for both the Interim/Final RPPR. Outcomes does not appear in the system for the annual RPPR

Note about Interim RPPR and Final RPPR

The Interim RPPR is used when you are submitting a Competing Renewal application (Type 2). If you opt NOT to apply for a Competing Renewal, complete the Final RPPR as you normally would within 120 days of the project end date. If you are going to complete a Competing Renewal application (or have already submitted such an application), you will submit an Interim RPPR. This must be submitted within 120 days of the project end date.

If you are awarded the renewal, the Interim RPPR will be treated as your annual RPPR and no other progress reporting will be needed for that segment of the study. If the application is NOT awarded, then the Interim RPPR will be accepted as the Final RPPR.

To start your Final RPPR:

1. Select the **Requires Closeout** link for the grant from Status search results.

The Closeout Status screen displays. **Final RPPR** is listed in the Closeout Submission Requirement column. The Action column should include a button for **Process Final RPPR**.

2. From Closeout Status, click the **Process Final RPPR** button.
3. Clicking the **Process Final RPPR** link opens the Final RPPR Menu screen:
4. Click the **Initiate** button to create the Final RPPR.

The Final RPPR Menu will then change, providing the user with the option to Edit the Final RPPR:

5. Selecting **Edit RPPR** from the three-dot ellipsis menu opens the navigation to the various sections of the Final RPPR:
6. Complete each section as required.
7. Be sure to click **SAVE** when moving between sections or unsaved data may be lost.
8. When done, click **Cancel** to return Final RPPR Menu screen.
9. In the Final RPPR Menu screen, there are several actions in the three-dot ellipsis menu next to the Award Number that you can use to complete the Final RPPR: For more information on these options, see [RPPR online help](#).

5.3 Edit the RPPR

Once an RPPR is initiated, its status becomes *PD/PI Work in Progress*, and it becomes available for editing. The PD/PI or delegate uses the **Edit RPPR** option in the three-dot ellipsis menu for viewing and completing the report. Additionally, this option is available to the SO or AO when that user is the current reviewer of the report.

NOTE: For RPPRs with multiple PD/Pis (MPI awards), only the Contact PD/PI has access to the **Edit RPPR** option unless the Contact PD/PI has granted progress report authority to other PD/Pis. Without this authority, MPIs can only view the RPPR PDF and its routing history.

There are two means of accessing the progress report for editing. These are similar methods used for initiating the report and are as follows:

5.3.1 Access RPPR From Status

1. Select **Status** from the eRA Commons Main menu.

2. Click the **List of Applications/Awards** heading on the *Status* screen.

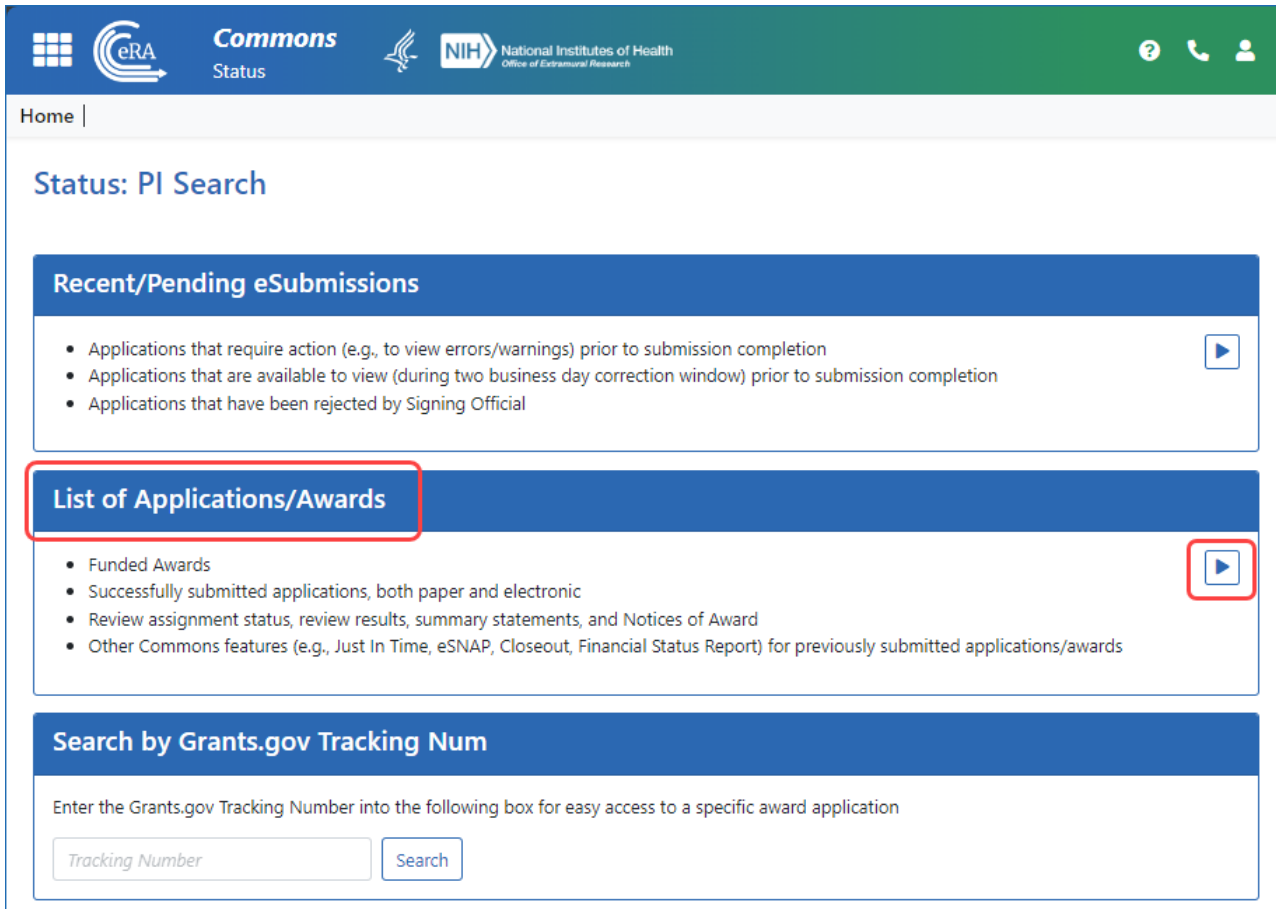

Figure 10 PI view of Status Screen, showing List of Applications/Awards heading

NIH RPPR Instruction Guide

- From the *Status Result – List of Applications/Awards* screen, locate the grant and click the **RPPR, Interim RPPR, or Final RPPR** button in the **Available Actions** column for the specific award. For multi-year funded awards, the button will display as **RPPR Year <X>**, the <X> representing the reporting year.

Figure 12 Multi-Year Funded Award RPPR Button

5.3.2 Access RPPR From the RPPR Module in eRA Commons

1. Select **RPPR** from the Commons Main menu.
2. Select the specific grant by clicking the link in the **Award Number** column on the *Manage RPPR* screen. SOs/AOs must perform a query first.

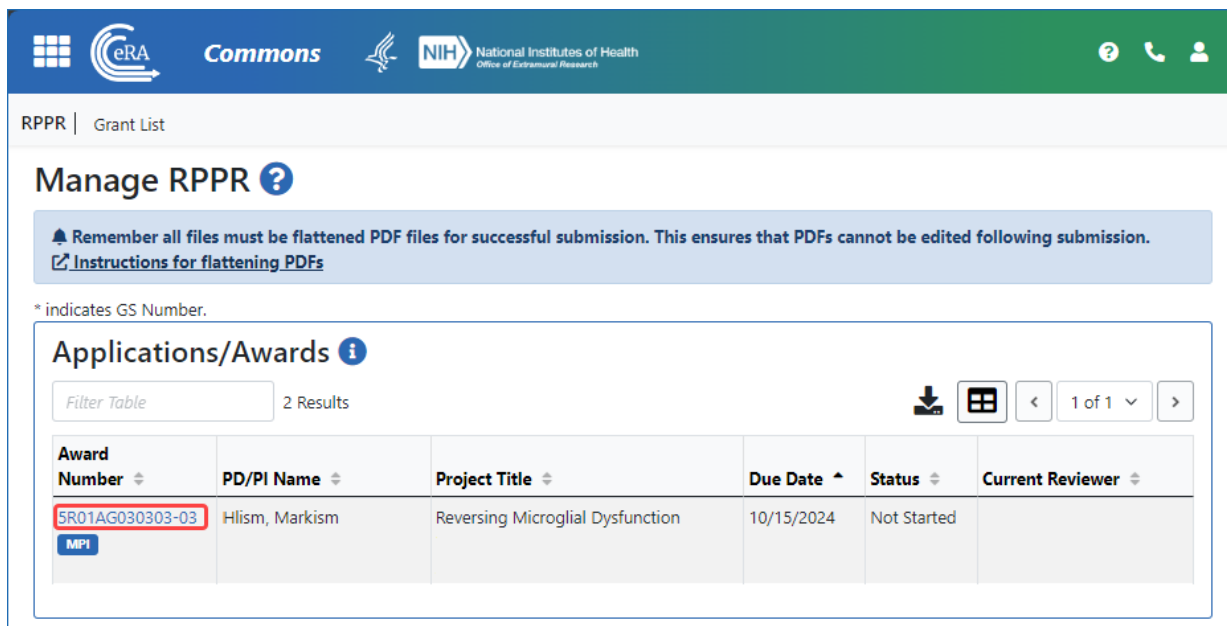

Figure 13 Manage RPPR List of Applications/Awards

The appropriate *RPPR Menu* screen – either for single-project or multi-project RPPRs – displays with editing options. To see the actions available on the RPPR, including the **Edit RPPR** option, click the three-dot ellipsis icon next to **Award Number** and a menu appears.

5.3.3 Accessing a Single-Project RPPR for Editing

For single-project awards, the *RPPR Menu* screen displays with a three-dot ellipsis menu next to **Award Number**. Only those options which are currently possible appear; for instance, if you are editing the RPPR, the **Route..** action appears, but not the **Recall**, whereas if you just routed the RPPR, the **Recall** action appears, but not the **Route..** action. The following options are available either under the three-dot ellipsis menu or as a button:

Edit RPPR

Check for Errors

View RPPR as PDF

View Routing History

Route to Next Reviewer

Cancel button

NOTE: Once an RPPR has been routed for review, the **Recall** action appears in the three-dot ellipsis menu, while the Submit option disappears. These functions are covered in subsequent chapters.

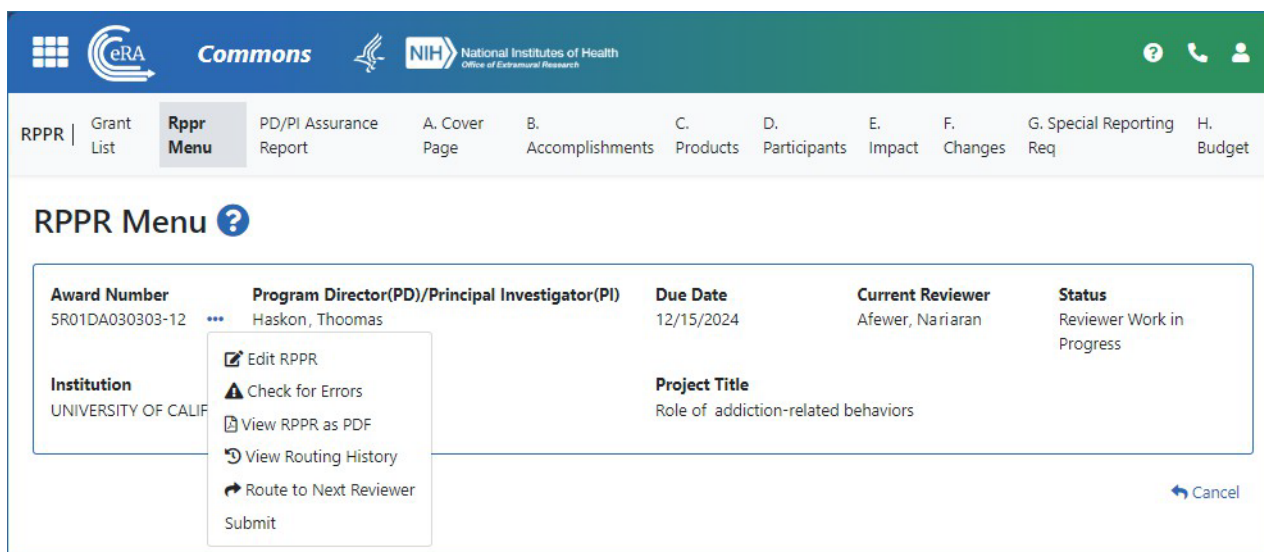

Figure 14 SO view of RPPR actions under the three-dot ellipsis menu (including Submit action, available to SOs only)

Select **Edit RPPR** from the three-dot ellipsis menu to open the RPPR for editing.

Refer to the section of this document titled [Editing the RPPR Forms](#) for more information on editing the forms.

5.3.4 Accessing a Multi-Project and Single-Project with Complicated Structure RPPR for Editing

A *multi-project RPPR* is a progress report submitted for a funded program (activity code) which has multiple, interrelated components sharing a common focus or objective.

A *component* (for the purposes of applications and progress reports) is a distinct, reviewable part of the multi-project application or progress report for which there is a business need to gather detailed information identified in the notice of funding opportunity (NOFO).

Components typically include general information (component organization, project periods, project title, etc.), performance sites, personnel, and budget. The NOFO defines the construction and naming convention for the application; the funded application defines the construction and naming convention for the progress report.

For multi-project awards, the *RPPR Menu* screen displays the following available options under the three-dot ellipsis icon on the top section of the screen:

View RPPR as PDF

View Routing History

Route to Next Reviewer

Cancel button

NOTE: Once an RPPR has been routed for review, the **Recall** and **Submit** buttons are enabled. These functions are covered in subsequent chapters.

The screenshot shows the NIH RPPR Menu interface. At the top, there are navigation tabs: RPPR, Grant List, Rppr Menu (selected), A. Cover Page, B. Accomplishments, C. Products, D. Participants, E. Impact, F. Changes, G. Special Reporting Req, and H. Budget. Below the tabs is the 'RPPR Menu' header with a question mark icon. Underneath is the 'Overall' section, which contains a summary card for an RPPR. The summary card includes fields for Award Number (5P50AR060606-11), Program Director/Principal Investigator (CHAMFREY, JERLAIN), Due Date (07/01/2024), Current Reviewer (CHAMFREY, JERLAIN), Status (PD/PI Work in Progress), Institution (UNIVERSITY OF WASH), and Project Title (Muscular Dystrophy). A three-dot menu icon is located next to the Award Number, and a red box highlights the dropdown menu options: Edit RPPR, Check for Errors, View RPPR as PDF, View Routing History, and Route to Next Reviewer. Below the summary card is a 'Has Components?' section with a 'Yes' radio button selected and a '+ Add Component' button. A table below this section shows 5 results for components. A red box highlights the three-dot menu icon next to the first component row, and another red box highlights the dropdown menu options for that component: Edit RPPR, Delete, and Check for Errors.

ID	Date	Type	Title
Admin-Core-001	6/27/2024	Admin	ADMIN CORE
Core-001		Core	Training Core
Core-002		Core	Shared Resources Core-Viral Vector Core
Project-001		Project	Overcoming limitations for AAV gene therapy
Project-002	6/27/2024	Project	Facio dystrophy clinical trial foundations

Figure 15 RPPR Menu Options for Multi-Project RPPRs

Overall

Below the **Overall RPPR** is a table showing components. For multi-component awards, the **Yes** radio button on the **Has Components?** field is selected.

The *RPPR Menu* for a multi-project RPPR without components does not include the component table and the **No** radio button is selected for **Has Components?**

To edit the RPPR for the Overall, click the three-dot ellipsis menu for the overall award in the top section of the screen below) and select **Edit RPPR**.

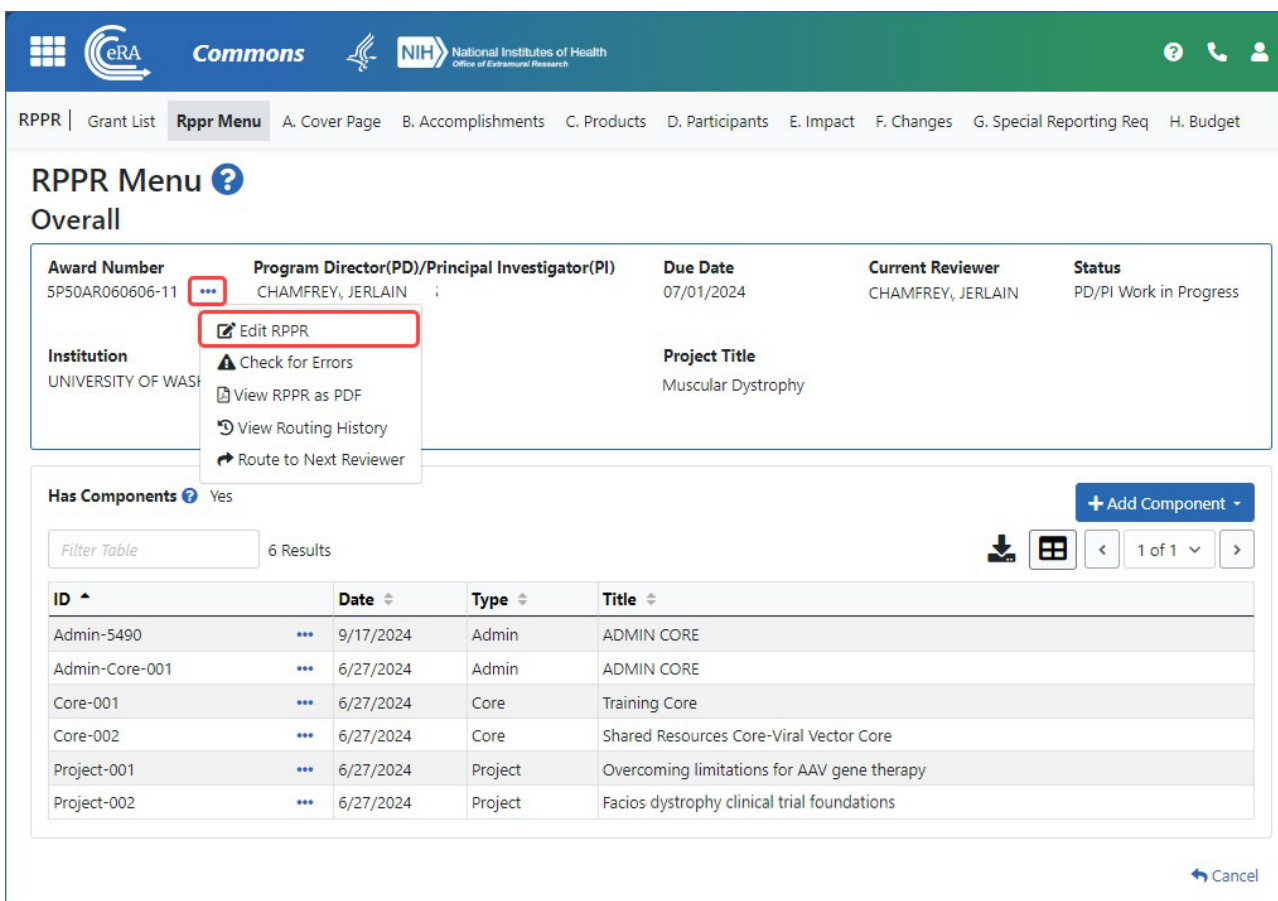

Figure 16 Edit Option for Overall

Individual Components

If the award has individual components (e.g., a multi-project award), *each* component must be reported in the RPPR. To add components, select the **Yes** radio button next to the question **Has components?** Selecting **Yes** displays the **Add Component** button for the individual components.

NOTE: Any individual components previously added will already be displayed in a table beneath this feature. In this scenario, the “**Has Components?**” option is set to **Yes** and disabled. This includes components which were part of a previously submitted progress report for the grant.

To add an individual component:

1. Click the **Add Component** button and select **New Component** from the button dropdown. The *Add New Component* popup appears.

Figure 17 Add New Component Popup

2. Enter the **Component Project Title** and select a **Component Project Type** from the dropdown.
3. Click the **Add Component** button in the popup.
Added individual components display in a table beneath the Overall, showing the **ID, Date, Type, Title**, and available actions under the three-dot ellipsis icon.
4. To edit a component's RPPR, click its three-dot ellipsis menu, and select **Edit RPPR**.

Refer to the section of this document titled [Editing the RPPR Forms](#) for more information on editing the RPPR forms.

Individual components can be removed from the RPPR by clicking that component's three-dot ellipsis menu and selecting **Delete**; the component is deleted immediately. *The delete option is not available for Overall.*

IMPORTANT: If you choose to delete a component, all data related to this component – including all budget data – will be lost. This data cannot be recovered once it has been deleted.

5.3.5 Editing the RPPR Forms

After selecting the appropriate editing option, the RPPR section *A. Cover Page* displays. The *Cover Page* includes information about the award, PD/PI, signing and administrative officials, organization, and project/reporting/budget periods. Some of this information is auto-populated. For more information on the *Cover Page*, refer to the section of this document titled [Section A – Cover Page](#) located in the [Instructions for RPPR Sections A–I](#).

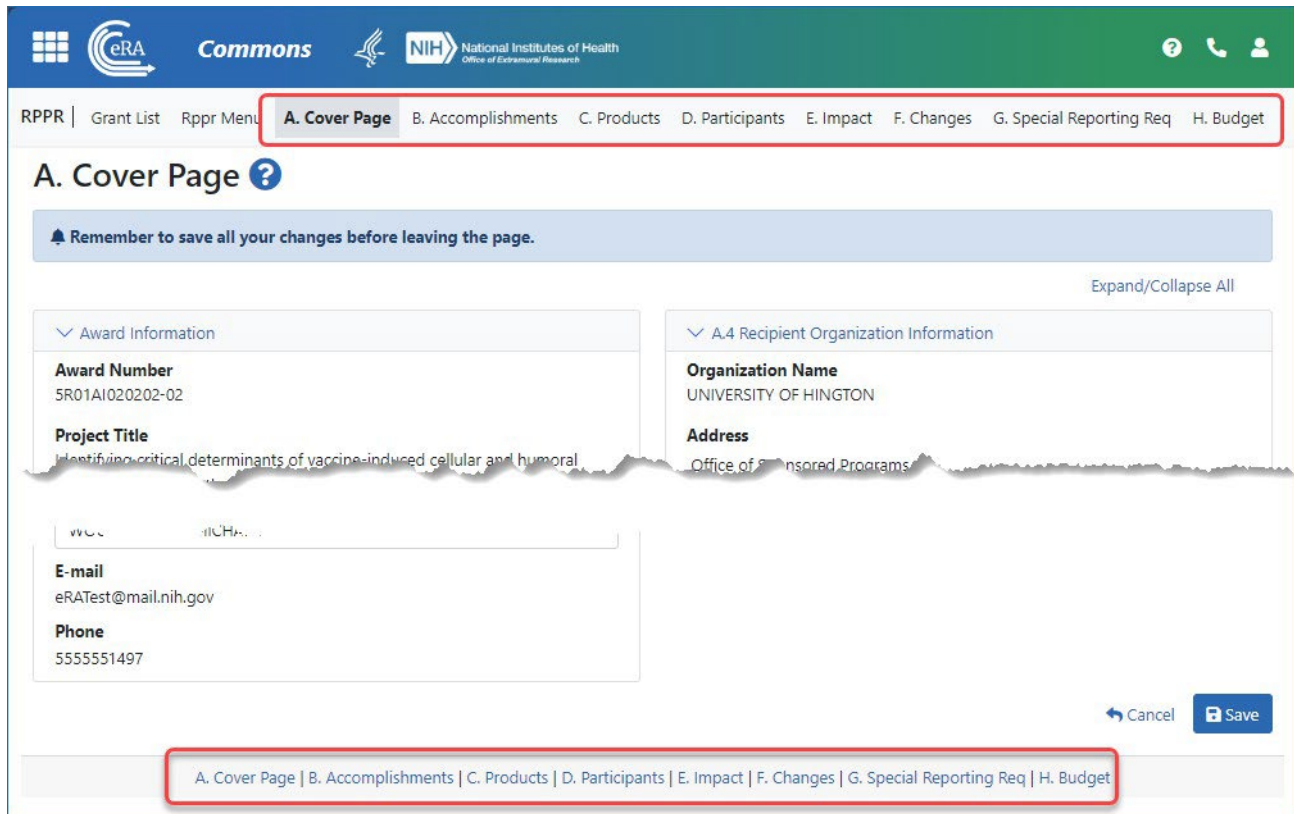

1. Update the information as necessary and select the **Save** button.

The *Cover Page* includes tabs at the top and links at the bottom of the page for navigating to the other sections (e.g., **Accomplishments, Participants**), which may be completed in any order.

Before navigating to and from any of these sections, it is always necessary to select the **Save**

NIH RPPR Instruction Guide

button to save all changes on the current page. Navigating away from any page on the RPPR without selecting **Save** results in the loss of any information entered prior to the last save.

The screenshot displays the NIH RPPR interface. At the top, there is a navigation bar with the NIH logo and the text 'National Institutes of Health Office of Extramural Research'. Below this, a secondary navigation bar contains links for 'RPPR', 'Grant List', 'Rppr Menu', and a series of section links: 'A. Cover Page', 'B. Accomplishments', 'C. Products', 'D. Participants', 'E. Impact', 'F. Changes', 'G. Special Reporting Req', and 'H. Budget'. The 'A. Cover Page' link is highlighted with a red box. The main content area is titled 'A. Cover Page' and includes a warning: 'Remember to save all your changes before leaving the page.' Below this, there are two main sections: 'Award Information' and 'A.4 Recipient Organization Information'. The 'Award Information' section contains fields for 'Award Number' (SR01AI020202-02) and 'Project Title' (Identifying critical determinants of vaccine-induced cellular and humoral). The 'A.4 Recipient Organization Information' section contains fields for 'Organization Name' (UNIVERSITY OF HINGTON) and 'Address' (Office of Sponsored Programs). At the bottom of the form, there are fields for 'E-mail' (eRAtest@mail.nih.gov) and 'Phone' (5555551497). A 'Cancel' button and a 'Save' button are located at the bottom right. A second red box highlights the navigation links at the bottom of the page: 'A. Cover Page | B. Accomplishments | C. Products | D. Participants | E. Impact | F. Changes | G. Special Reporting Req | H. Budget'.

Figure 18 RPPR Cover Page and Section Navigation Links

2. Sections can be completed in any order. To navigate and populate the other sections of the RPPR, select the appropriate link from the top or bottom of the page.

The same navigational links appear on each section of the RPPR. For information on the specific fields in each section refer to Chapter 6 [Instructions for RPPR Sections A–I](#).

3. Complete the appropriate fields of the report.

Details for completing each section are discussed later in this document. Many of the fields on these pages, however, behave in a similar manner and are discussed below.

+ Add Button

To use an Add button, click it to see a popup, then enter or select data into the appropriate fields.

NIH RPPR Instruction Guide

▼ E.4 What dollar amount of the award's budget is being spent in foreign country(ies)?

For domestic awardees provide the dollar amount obligated to first-tier subawards to foreign entities for this reporting period. For foreign awardees provide the dollar amount of the award, excluding all first-tier subawards to U.S. entities, for this reporting period. Dollars provided should reflect total costs.

If more than one foreign country, identify the distribution between the foreign countries. 🗨️

Nothing to Report (zero dollars)

Figure 19 Add Button and Edit and Delete actions available from the three-dot ellipsis menu in a table

Items can be edited or deleted from the table using the **Edit** and **Delete** actions under the three-dot ellipsis menu.

Text Box

All text boxes on the RPPR have character limits. The number of characters available is reflected beneath each text box as characters are entered.

List the major goals below

The major goal of this project is to...

7961 characters remaining.

Figure 20 Total Remaining Characters

Changing Saved Responses

While an RPPR is in Work In Progress status, answers may be changed. A warning message displays as follows:

The entered/uploaded response will be deleted. Do you wish to continue?

The user editing the information can choose to **Continue** or **Cancel** the action. Choosing **Continue** deletes the previous response, removes any attachments, and disables the relevant fields associated with the question. Choosing **Cancel** cancels the change.

1. Select the **Save** button before navigating to the next page.
2. To return to the *RPPR Menu*, select the **Cancel** button.

When an RPPR is ready for review and submission, it is routed to the next reviewer. Only a signing official (SO) can submit. Refer to the section of this document titled *Route the RPPR* for steps on routing to the next reviewer.

Table Tools

You might notice various icons above tables in RPPR. Several built-in table tools let you work with data in tables. For an explanation of all table tools, see Standard Tools for Tables in the online help topic, [Basics and Navigation for eRA Modules](#).

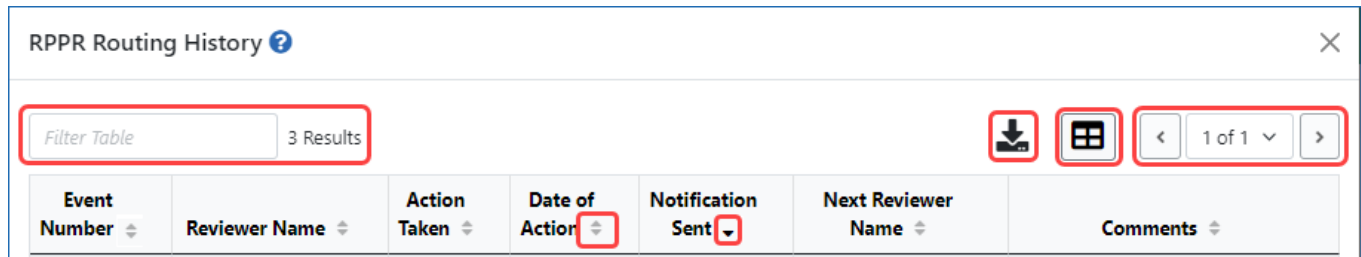

Figure 21 Standard Table Tools

Filter

Figure 22 Filter Table Field

Entering filter text to see instant filtering of the list as you type, with the number of found results updated as you type. The text you type in filter is highlighted in the table.

Sorting Columns

Figure 23 Column Sort Options

Click column headers to sort by that column. Gray up and down triangles indicate a non-sorted column. A solid black up arrow indicates the table is sorted by that column-descending and solid black down arrow indicates the table is sorted by that column-ascending.

Download/Print Tool

Figure 24 Download Tool

Use the download tool to export table data to Excel or PDF, or to print. Data from all columns is exported/printed even if only a subset of columns are visible.

Rows-Per-Page Tool

Figure 25 Rows-per-Page Tool

NIH RPPR Instruction Guide

To help avoid scrolling, use the Rows-per-Page tool to specify how many table rows appear per page.

Search Results Navigation

Figure 26 Navigation Tools

Navigate to each page of search results using the above tool.

5.3.6 Editing Inclusion Enrollment Data

The following section is intended for NIH award recipients only and discusses inclusion data in the Human Subjects System (HSS) as accessed and processed via your RPPR. For more information on HSS, please refer to the HSS [Online Help](#) or the [HSS Training website](#).

To update inclusion enrollment data, select the **Human Subjects** link from question **G.4** of section **G. Special Reporting Requirements**. For additional information on inclusion procedures in the RPPR, please review Section G – [Special Reporting Requirements](#).

IMPORTANT: Before selecting the **Human Subjects** link, click the **Save** button on the RPPR to save all of your work in **Section G**. Failure to do so will result in a loss of data on your report.

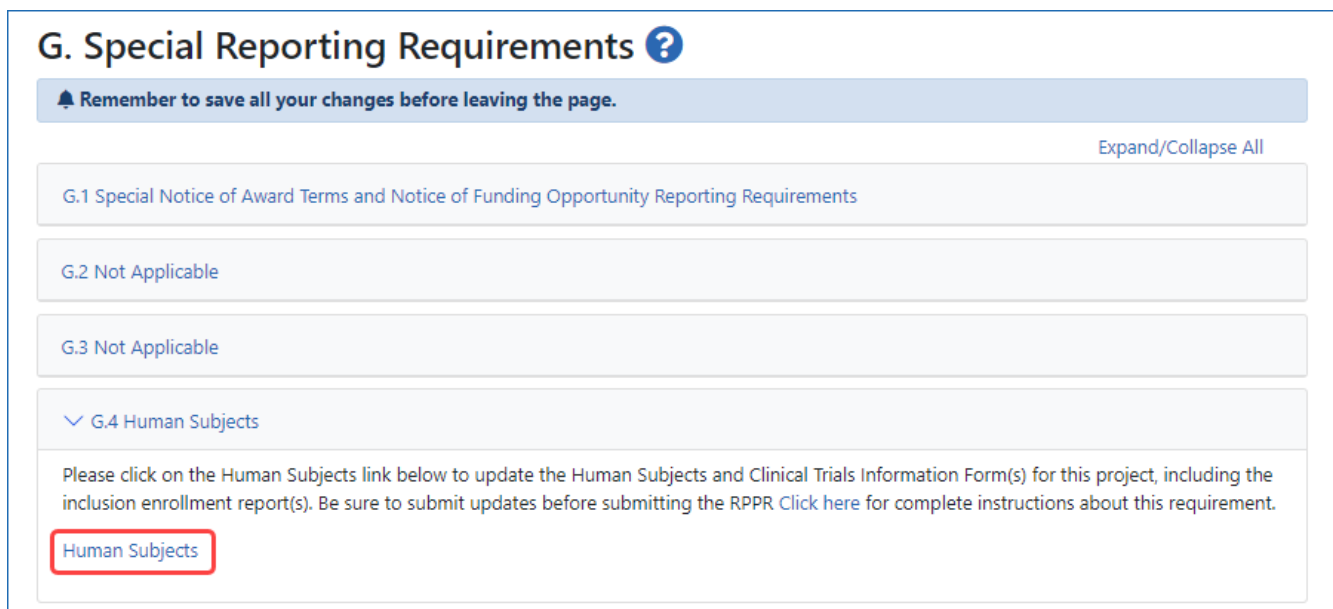

A screenshot of the 'G. Special Reporting Requirements' section in the RPPR interface. The title 'G. Special Reporting Requirements' is followed by a question mark icon. Below the title is a blue banner with a bell icon and the text 'Remember to save all your changes before leaving the page.' To the right of the banner is a link 'Expand/Collapse All'. The main content area contains four expandable sections: 'G.1 Special Notice of Award Terms and Notice of Funding Opportunity Reporting Requirements', 'G.2 Not Applicable', 'G.3 Not Applicable', and 'G.4 Human Subjects'. The 'G.4 Human Subjects' section is expanded, showing a paragraph of text: 'Please click on the Human Subjects link below to update the Human Subjects and Clinical Trials Information Form(s) for this project, including the inclusion enrollment report(s). Be sure to submit updates before submitting the RPPR. Click here for complete instructions about this requirement.' Below the text is a button labeled 'Human Subjects' which is highlighted with a red border.

Figure 27 Human Subjects Link in Question G.4

The **Human Subjects** link will take you to the *Application Information* screen. Click on the **HSCT Post Submission** tab. This will take you to the *Study Record(s)* screen that displays all the study records and delayed onset records for the grant. You may view the information within a study record, including the last inclusion enrollment report (IER) by clicking on the **View** button under the **Action** column within the list of study records.

To edit the inclusion information, click the **Edit** button at the top of the screen. You will now see an **Edit** button under the **Action** column within the list of study records. Click on this **Edit** button to make changes to the study record information, including the inclusion enrollment data.

The Inclusion Enrollment Report (IER) is within the Study Record and can be found in Section 2- Study Population Characteristics. Here, you can add a new inclusion enrollment report or edit a report that was previously created.

Figure 29 Adding/Editing an Inclusion Enrollment Report

Select the **Edit** button in the **Action** column to edit the Inclusion Enrollment Report.

The *Inclusion Enrollment Report* screen contains the following information:

Inclusion Enrollment Report Fields

- **Using an Existing Dataset or Resource**
Displays Yes/No as indicated by radio buttons
- **Enrollment Location Type**
Displays Domestic/Foreign as indicated by radio buttons
- **Enrollment Country(ies)**
Displays the country of enrollment as identified from a dropdown list
- **Enrollment Location(s)**
Displays a location entered by the user.
- **Comments**
An optional text field for entering cumulative enrollment comments. If any comments for cumulative form were entered before, this field is pre-populated when editing an existing IER.

See the [application guide instructions](#) for more information about Inclusion Enrollment report fields.

The screenshot shows a web form titled "Inclusion Enrollment Report 2 v2.0". At the top left, there are tabs for "Summary" and "HSCT Post Submission". Below the tabs is a breadcrumb trail: "Human Subjects Summary > Study Record: 2 > Inclusion Enrollment Report: 2". The main title "Inclusion Enrollment Report 2 v2.0" is followed by an "Edit" button. The form contains six numbered fields:

- 1. Inclusion Enrollment Report Title: A text input field with a placeholder "Enter up to 600 characters" and a "Characters Remaining: 600" indicator.
- 2. Using an Existing Dataset or Resource: Radio buttons for "Yes" and "No".
- 3. Enrollment Location Type: Radio buttons for "Domestic" and "Foreign".
- 4. Enrollment Country(ies): A dropdown menu currently showing "None selected".
- 5. Enrollment Location(s): A text input field with a placeholder "Enter up to 255 characters" and a "Characters Remaining: 255" indicator.
- 6. Comments: A text input field with a placeholder "Enter up to 500 characters" and a "Characters Remaining: 500" indicator.

Figure 30 Inclusion Enrollment Report Fields

The cumulative enrollment table includes racial categories along the left side the of the table and ethnic categories, divided by sex, along the top of the table. The individual enrollment count cells are editable and set to zero by default, when populating a new IER. When editing an existing form, these values are pre-populated with any other value previously entered. The total fields are calculated by HSS and sum up as rows and columns accordingly. The total values are not editable fields.

NOTE: The cumulative inclusion table includes fields for entering Unknown/Not Reported race, ethnicity, and sex data.

There are two ways to edit the existing Inclusion Enrollment Report (IER) data for Cumulative (Actual) counts:

1. You can update the cells online in the existing report itself.
2. You can download a template for entering participant-level data by clicking on the **Download Participant Level Data Template** button.

This will download a spreadsheet file in the proper CSV format to be used by the system.

- Fill the template out with data, save the changes, and then upload the spreadsheet by clicking on the **Upload Participant Level Data Attachment** button. This uploaded data will populate the cells in the report.
- You can click on the **Download Current Participant Level Data** button to download the file containing the data for your own records.
- If you need to clear the current records, use the **Remove Current Participant Level Data** button.

Update the values in the individual enrollment count cells as necessary, and select the **Save and Release**

NIH RPPR Instruction Guide

Lock button. To leave the form without saving any changes, select the **Cancel and Release Lock** button instead. Saving and canceling both return you to the *Study Record(s)* screen.

POLICY: Individual-level participant data on sex, race, ethnicity and age at enrollment is required in progress reports for competitive applications submitted for due dates on or after January 25, 2019 (See NIH Guide Notice [NOT-OD-18-116](#)). Inclusion data for subsequent RPPRs must be provided using the file upload option.

5.2.4.1 Changes to Planned Enrollment

If there are changes from the planned enrollment originally approved for funding, contact the program officer to discuss updating/revising the planned enrollment. See Section G – Special Reporting Requirements of this guide for more information.

From the *Study Record(s)* screen, select the **Edit** link in the **Action** column of the *Inclusion Enrollment Report* section to edit the *Inclusion Enrollment Report*.

The planned enrollment table includes racial categories along the left side of the table and ethnic categories, divided by sex, along the top of the table. The individual enrollment count cells are editable and set to zero by default, when populating a new IER. When editing an existing form, these values are pre-populated with any other value previously entered. The total fields are calculated by HSS and sum up as rows and columns accordingly. The total values are not editable fields.

POLICY: For additional information on racial and ethnic categories or inclusion policy, refer to [Inclusion of Women and Members of Racial and/or Ethnic Minority Groups in Clinical Research](#) and [FAQs on Inclusion – Basis of Sex and Race and/or Ethnicity](#).

Update the values in the individual enrollment count cells as necessary and select the **Save and Release Lock** button. To leave the form without saving any changes, select the **Cancel and Release Lock** button instead. Saving and cancelling both return you to the *Study Record(s)* screen.

5.2.4.2 No Inclusion Data Records Provided

When inclusion monitoring is required and no IERs exist, RPPR system will NOT allow the submission of the progress report without IER(s). For the current FY it will display an error message and require that you submit a new enrollment record.

This is true for the current FY of a multi-year award as well. For the past FYs (when the progress report is late), a standard message is displayed in lieu of the error message as follows:

NIH policy requires inclusion to be monitored, but no inclusion data record(s) (IERs) have been provided.

This standard message will appear on both the screen and the PDF version of the progress report.

Submit New Planned Inclusion Record

From the Study Records(s) screen, select the Add New Inclusion Enrollment Report to create a new IER. If no study records exist, first add a study record using instructions in the [online help](#).

Upon a successful save of a new IER, attributes (Foreign/domestic indicator/planned comments), Planned Inclusion Data (as entered), and Cumulative Inclusion Data (as zeros) are also created; the new IER is assigned a unique IER #.

5.3.7 Editing the RPPR Budget Forms

Budget Form (H.1)

To add a budget, choose an option from the drop-down list and click the **Add Budget** button. The added budget type appears in the first table. Click the budget's three-dot ellipsis menu and select **Edit** to open the form for editing. Most awards now use the SF424 R&R budget form. However, training awards may use the SF424 and/or the PHS 398 training budget. The PHS Additional Indirect Costs budget form is available as an optional form for the Overall component of a multi-project award with multiple organizations.

Please contact the Grants Management Specialist assigned to your grant if you have questions on the appropriate form to use.

NIH RPPR Instruction Guide

Budget types include:

- SF 424 Research & Related Budget form
- PHS 398 Training Budget
- PHS Additional Indirect Costs form

NOTE: Budget types can be deleted by clicking the budget's three-dot ellipsis icon and selecting **Delete**. After deleting a form, be sure to save the RPPR before navigating away from the *H.Budget* tab. The **Save** button is at bottom of the screen.

Subaward Budget Form (H.2)

To add a subaward budget, choose an option from the drop-down list and select the **Add Subaward Budget** button. A table appears listing the subaward budget you added. To edit the subaward budget, click its three-dot ellipsis icon and select **Edit**, which opens the form for editing. Click the **Save** button before exiting the form.

Subaward budget types include:

- SF 424 Research & Related Subaward Budget form
- PHS 398 Subaward Training Budget

The recipient may select up to 30 subaward budgets.

NOTE: Subaward budget types can be deleted by clicking the subaward's three-dot ellipsis icon and selecting **Delete**.

Expand/Collapse All

▼ H1. Budget Form

For training awards, grantees should select the applicable RPPR budget type (e.g., SF424 (R&R) or PHS 398 Training Budget) from the drop down menu. For a small number of NIH training awards the grantee is required to submit both the SF424 (R&R) and PHS 398 Training Budget; the RPPR will accommodate this.

If completing the SF424 (R&R), follow the instructions in the SF424 (R&R) Application Guide for NIH and Other PHS Agencies, Section I, 4.7 R&R Budget Component, sections A-K. The budget justification should be uploaded as item K, and must include detailed justification for those line items and amounts that represent a significant change from previously recommended levels (e.g., total rebudgeting greater than 25 percent of the total award amount for this budget period).

If completing the PHS 398 Training Budget, follow the instructions in the SF424 (R&R) Application Guide for NIH and Other PHS Agencies, Section I, 8.5 PHS 398 Training Budget Component, items A-F. The budget justification should be uploaded as item F, and must include detailed justification for those line items and amounts that represent a significant change from previously recommended levels (e.g., total rebudgeting greater than 25 percent of the total award amount for this budget period).

Filter Table 2 Results

Budget Type ^	Funds Requested(\$) ▾
PHS 398 Training Budget	\$0.00
SF 424 Research and Related Budget	\$0.00

▼ H2. Subaward Budget Form

For awards with subaward/consortium budgets, the grantee may select up to 30 subaward budgets. To complete a detailed budget for a subaward/consortium, follow the SF424 (R&R) Application Guide for NIH and Other PHS Agencies, Section I, 4.8 Special Instructions for Preparing Applications with a Subaward/Consortium or 8.6 PHS 398 Training Subaward Budget Attachment(s) Form.

Please select a budget type ▾ + Add Subaward Budget

Figure 34 Search Organization popup window

NIH RPPR Instruction Guide

2. Enter information in either field (**Unique Entity Identifier** or **Organization Name**) and click **Search**.

A list of matches appears.

NOTE: If no matches appear, you can click the **Add New Organization** button to type the UEI and organization name manually and click Save. Whatever you entered will then populate the **Unique Entity Identifier** or **Organization Name** fields.

3. Select the organization you are searching for and click **Save**.

Both the **Unique Entity Identifier** and **Organization Name** field are updated with the information of the organization you selected.

NOTE: If subaward budgets are completed, the system will not calculate the budget line item F.5 for the main budget (see figure below). Total consortium costs for the main budget **MUST** be computed and entered manually into budget line item F.5.

The screenshot displays a web form titled "F. Other Direct Costs". It contains ten numbered items, each with a text input field for a description and a numeric input field for the amount, preceded by a dollar sign. All numeric fields currently show "0.00". Item 5, "5. Subawards/Consortium/ Contractual Costs", is highlighted with a red rectangular box. Item 8 and 9 are labeled "Other Cost" and include a description field. Item 10 is also labeled "Other Cost". At the bottom, there is a label "Total Other Direct Costs".

Item Number	Description	Funds Requested (\$)
1.	Materials and Supplies (\$)	0.00
2.	Publication Costs	0.00
3.	Consultant Services	0.00

Figure 35 SF 424 R&R Budget Form - Question F.5

5.4 Check RPPR for Errors and Warnings

At any time before an RPPR is submitted to agency, an error check can be performed to verify that the report passes the business rules and system validations in place. Any user who has access to the RPPR may perform the error check.

5.4.1 Checking for Errors on Single-Project RPPRs

To perform an error check on the RPPR for single-project RPPRs, click the three-dot ellipsis menu next to the **Award Number** and select **Check for Errors**.

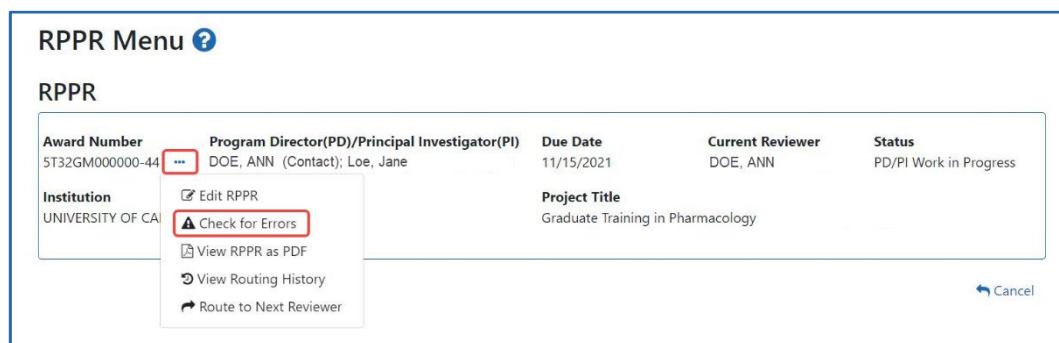

Figure 36 Check for Errors option on RPPR Menu for a Single-Project RPPR

If errors or a warning exist, the appropriate error or warning message displays for each failed occurrence. **All errors must be corrected prior to submission**; the system will prevent submission of an RPPR containing errors. However, the system will not prevent submission of an RPPR when a warning message is displayed.

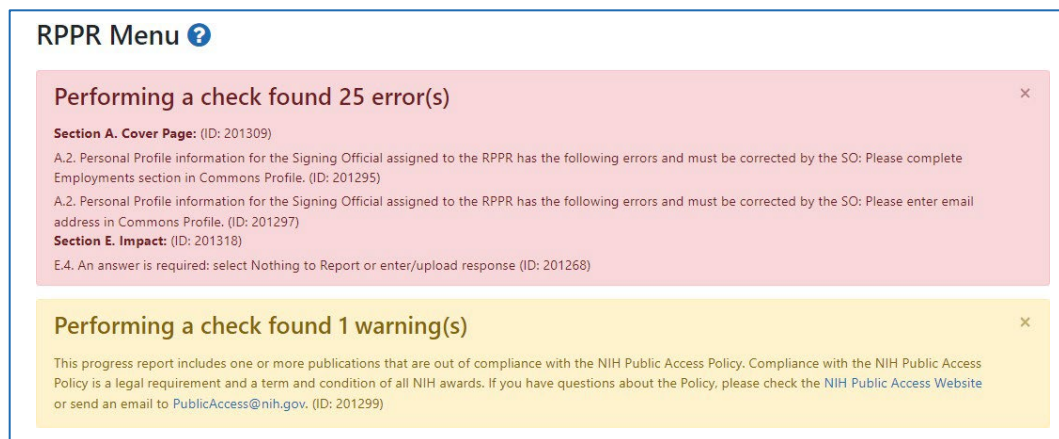

Figure 37 RPPR Error Messages (Examples)

If all validations pass, a message displays indicating: *No errors found on validation.*

5.4.2 Checking for Errors on a Multi-Project RPPR

To perform an error check on the Overall or individual component of a multi-project RPPR, select the **Check for Errors** option from the three-dot ellipsis menu on the *RPPR Menu* screen for the Overall or individual component being validated.

NOTE: Refer to section Accessing a Multi-Project and Single-Project with Complicated Structure RPPR for Editing for information on adding individual components to the RPPR.

If all validations pass, a message displays indicating: *No errors found on validation.*

5.5 Route the RPPR

Progress reports in *Work in Progress (WIP)* status can be routed to others for review or corrections by the current reviewer of the report. The routing feature is found on the *RPPR Menu* screen.

NOTE: A person who is *delegated* a role of PD/PI cannot route an RPPR to the next reviewer.

To route an RPPR to the next reviewer:

1. On the *RPPR Menu* screen, click the three-dot ellipsis icon and select **Route to Next Reviewer**.

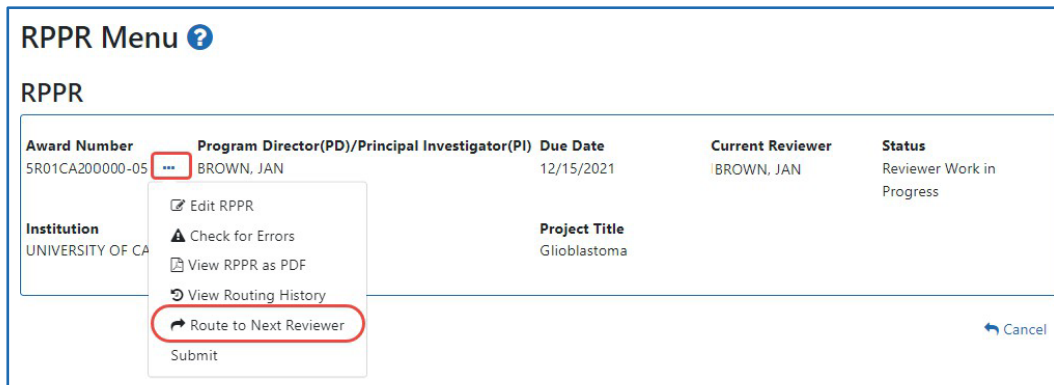

Figure 40 RPPR Menu – Route Option

NOTE: The figure above shows the *RPPR Menu* for a single-project RPPR, however, multiproject RPPRs have a similar **Route** option on their own *RPPR Menu* screen.

The *Route RPPR to Next Reviewer* screen displays. From this screen, the next reviewer can be chosen from a list of reviewers, and comments can be added.

2. Select a reviewer from the **Next Reviewer** dropdown.
3. *Optional:* Enter comments in the **Comments** field to provide information to the next reviewer.
4. *Required for PD/PI ONLY:* Click the checkbox that certifies statements are true. Signing officials do not see the “*I certify that the statements herein are true...*” checkbox.

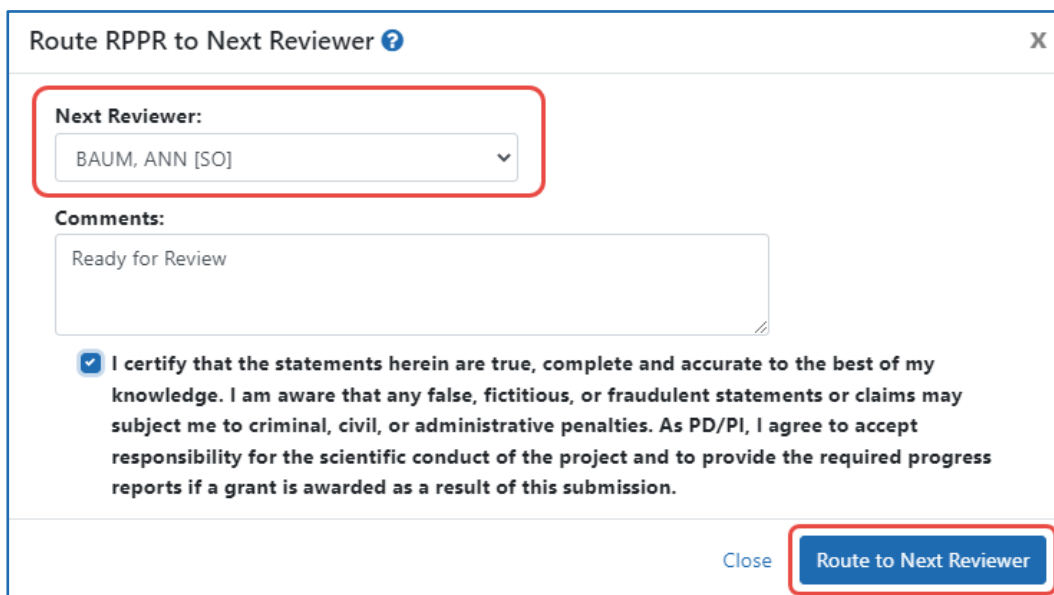

Figure 41 Route RPPR to Next Reviewer

- Click the **Route to Next Reviewer** button.

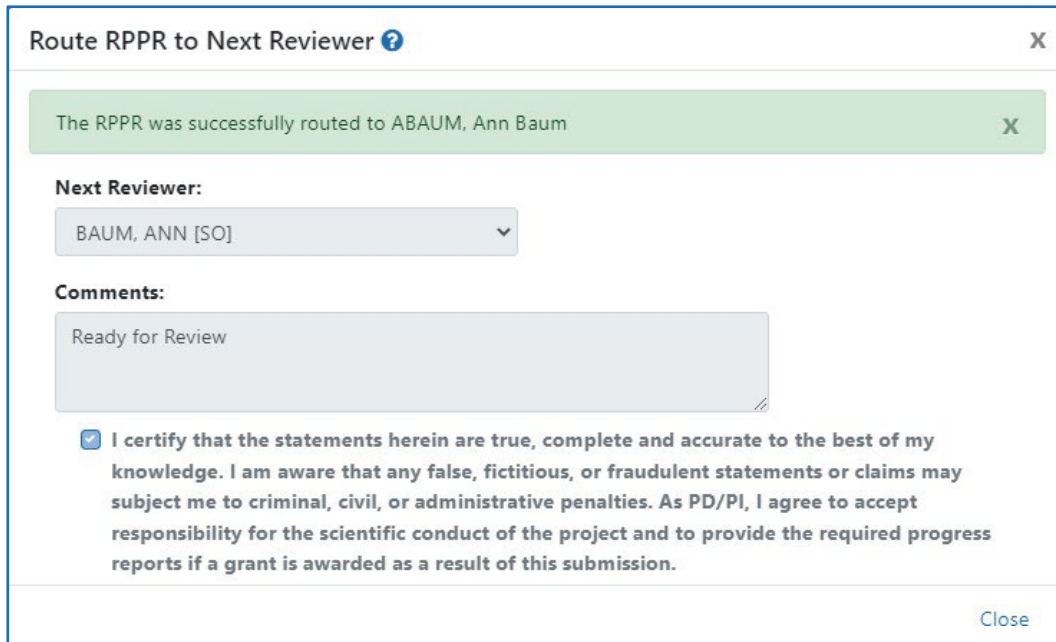

Figure 42 Route RPPR to Next Reviewer Success Message

A success message appears. Click the **Close** link in the success message and the *RPPR Menu* displays once again.

The person who routed the RPPR can no longer edit the report (the **Edit RPPR** option disappears from the three-dot ellipsis menu). The editing feature is now available only to the new reviewer. The RPPR status is updated to *Reviewer Work in Progress*.

5.6 Recall the RPPR

RPPRs that have been routed to a reviewer can be recalled by the person who performed the routing action. This is useful in situations when the report was routed to the wrong person or the reviewer is unavailable. The last reviewer of the report is able to recall it; however, Signing Officials at the Organization and the Contact PD/PI who are not the last reviewer can also recall the report when it is in a status of *Reviewer Work in Progress*.

NOTE: A person who has been *delegated* the PD/PI role does not have the ability to recall the RPPR.

To recall an RPPR, on the *RPPR Menu* screen, click the three-dot ellipsis icon and select **Recall**. The **Recall** option is only present if you routed the RPPR or if you are an SO and the RPPR is currently in status of *Reviewer Work in Progress*.

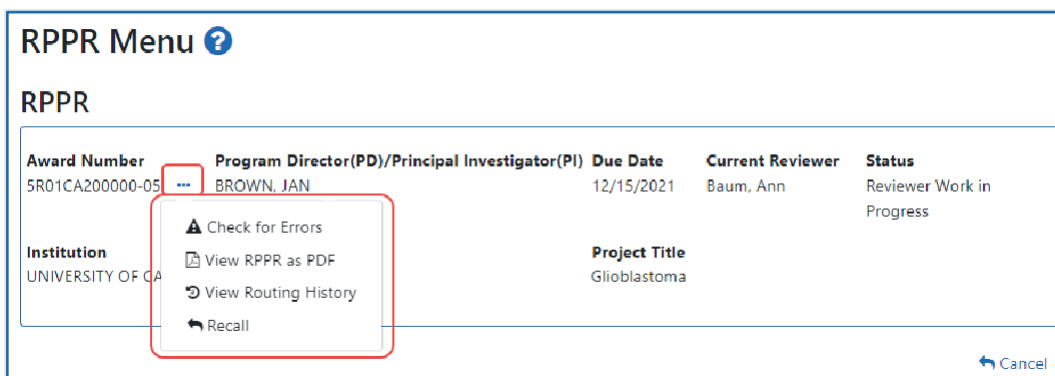

Figure 43 RPPR Menu – Recall Option

NIH RPPR Instruction Guide

A message displays indicating: *The RPPR has been successfully recalled. You have been set as the Current RPPR Reviewer.*

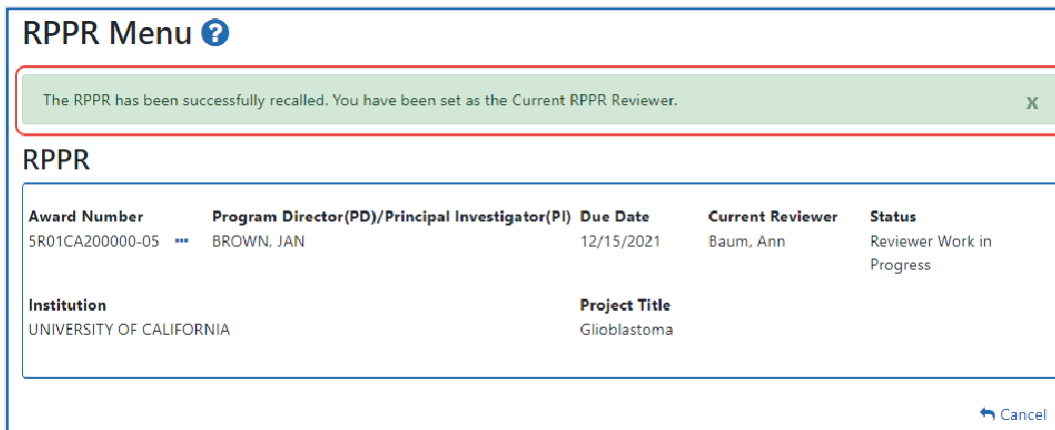

Figure 44 RPPR Successfully Recalled

The status of the RPPR is updated to *PD/PI Work in Progress* or *Reviewer Work in Progress*, the reviewer from whom the RPPR is recalled receives an email about this action, and the RPPR routing audit history is updated to reflect the action.

Additionally, the **Edit RPPR** and **Route to Next Reviewer** options appear under the three-dot ellipsis menu, providing the new reviewer with the ability to continue editing the RPPR or to route it to another reviewer.

5.7 Submit the RPPR to Agency

Recipients are **strongly** encouraged to view the RPPR prior to submission to ensure that the correct information and attachments are provided (see View the RPPR).

Completed and validated RPPRs in a status of *Work in Progress* can be submitted to the Agency for acceptance. This act is performed by the Signing Official (SO) when the SO is the current reviewer of the report. For SNAP awards only, PD/PIs may also submit the report if they have been delegated submit authority by the SO.

NOTE: A PD/PI with *Progress Report* authority cannot submit a non-SNAP or F RPPR.

To submit the RPPR to agency:

1. Click the three-dot ellipsis menu for an RPPR and select **Submit**. You can do this from the *RPPR Menu*, *Interim RPPR Menu*, or *Final RPPR Menu* screens.

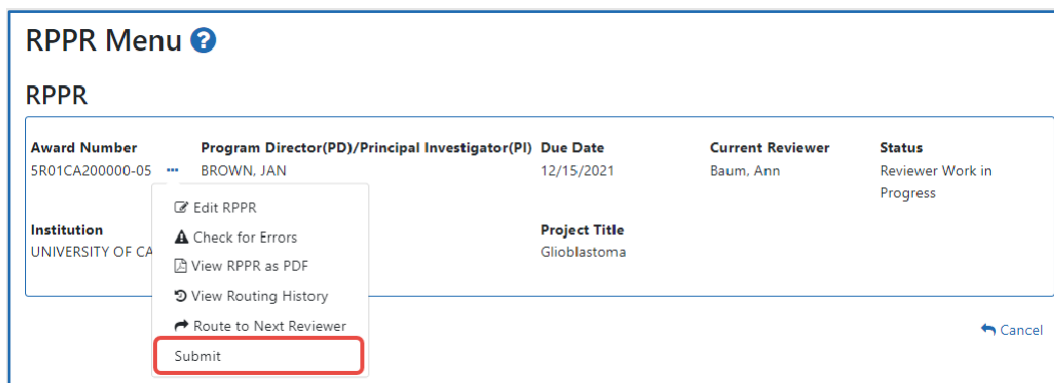

Figure 45 Submit Option on RPPR Menu

NIH RPPR Instruction Guide

The *Submit RPPR to Agency* screen displays a certification statement as follows:

In submitting this RPPR, the SO (or PD/PI with delegated authority), certifies that, for all clinical trials funded under this NIH award, the recipient and all investigators conducting NIH-funded clinical trials are in compliance with the recipient's plan addressing compliance with the NIH Policy on Dissemination of NIH-Funded Clinical Trial Information. Any clinical trial funded in whole or in part under this award has been registered in ClinicalTrials.gov or will be registered not later than 21 calendar days after enrollment of the first participant. Summary results have been submitted to ClinicalTrials.gov or will be submitted not later than one year after the completion date, even if the completion date occurs after the period of performance.

- OR -

In submitting this Progress Report, the SO (or PD/PI with delegated authority), certifies that the awardee organization is in compliance with the terms and conditions specified in the Notice of Award and Awards Policy Statement, and verifies the accuracy and validity of all administrative, fiscal, and scientific information in the progress report. The SO (or PD/PI with delegated authority) further certifies that the awardee organization will be accountable for the appropriate use of any funds awarded and for the performance of the award-supported project or activities resulting from the progress report. Deliberate withholding, falsification, or misrepresentation of information could result in administrative actions such as withdrawal of a progress report, suspension and/or termination of an award, debarment of individuals, as well as possible criminal penalties. The awardee institution may be liable for the reimbursement of funds associated with any inappropriate or fraudulent conduct of the project activity.

2. Click the **I Agree** button to sign off on the certification.

The RPPR [Interim-RPPR or Final RPPR] is validated for systemic and business rules. If there are any validation failures, they are indicated by error messages on the *RPPR Menu* screen. Errors must be corrected in order to submit the RPPR [Interim-RPPR or Final RPPR].

If warnings exist, they are displayed on the *RPPR Menu* screen. Although the RPPR can be submitted with warnings present, the warning messages should be reviewed to determine if an issue should be addressed.

3. *If Warnings Exist*: To address issues associated with warnings, click the **Cancel** button, correct the issue, and resubmit the RPPR again. To continue with submission despite the warnings, click the **OK** button.

If all validations pass, the *RPPR Menu* screen displays the following message: *The RPPR [Interim-RPPR or Final RPPR] has been successfully submitted.*

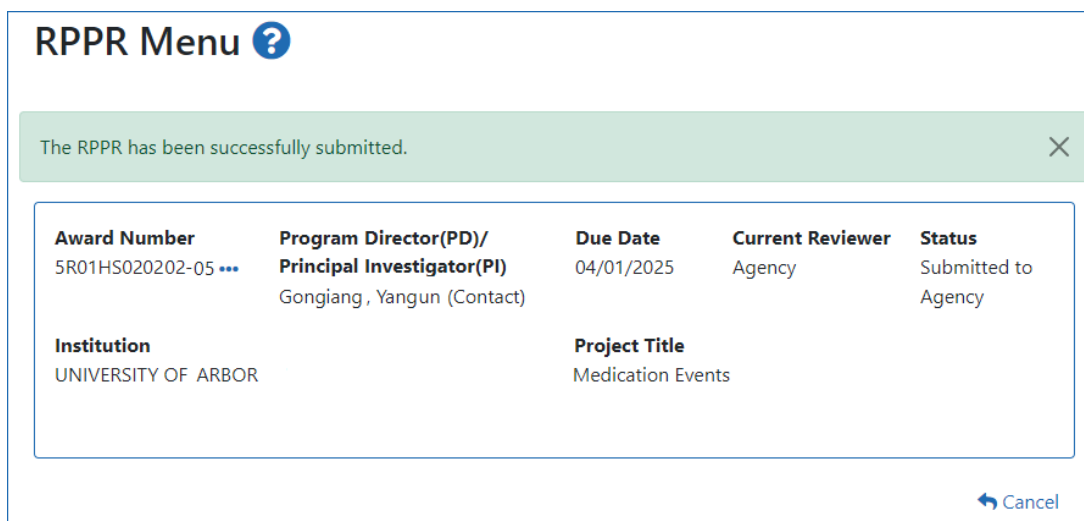

Figure 46 Successful Submission Message

The current reviewer is updated to Agency, the RPPR status is updated to *Submitted to Agency*, and the RPPR Submission date is recorded. The routing history is updated to reflect the submission to Agency.

Any citations associated with the RPPR in “C.1. Publications” are officially associated with the award in MyNCBI.

When an RPPR is submitted to the Agency, an email notification is sent to the PD/PI (Contact PI) on the award and the SO and AO assigned to the RPPR.

5.7.1 Submission Errors and Warnings for Multi-Project RPPRs

Upon submission, multi-project RPPRs are validated for systemic and business rules just as are single-project RPPRs. However, for multi-projects, the errors and warnings are displayed differently. When errors and/or warnings are found on multi-project RPPRs, the *RPPR Menu* screen displays the Overall messages followed by the messages of the other components.

All errors must be corrected to submit the RPPR.

If warnings exist, they are displayed on the *RPPR Menu* screen under the errors. Although the RPPR can be submitted with warnings present, the warning messages should be reviewed to determine if an issue should be addressed.

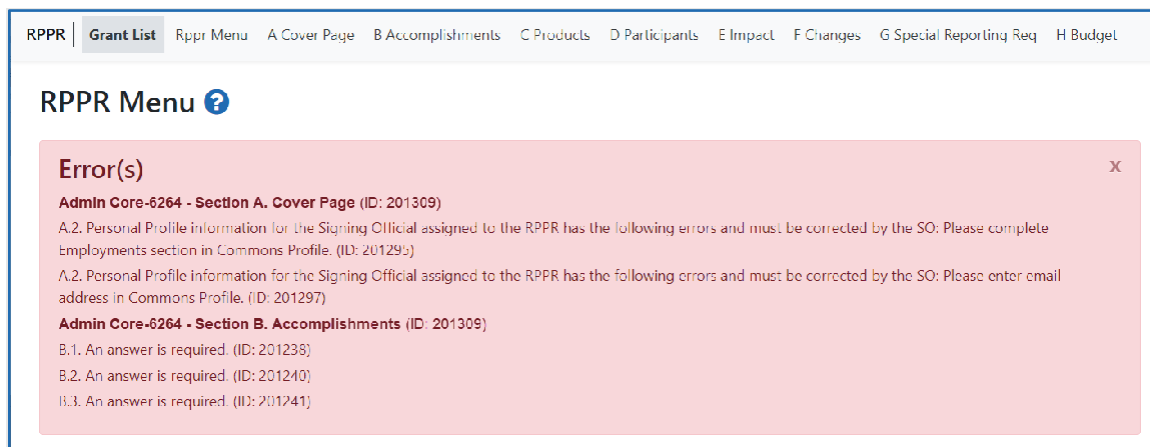

Figure 47 Sample of Multi-Project RPPR Error Messages

5.8 View the RPPR

As indicated in Submit the RPPR to Agency, recipients are **strongly** encouraged to view the RPPR prior to submission to ensure that the correct information and attachments are provided (see Submit the RPPR to Agency).

PD/PIs, PD/PI delegates, and reviewers can view a PDF version of an RPPR in *Work in Progress (WIP)* or *Submitted to Agency* status to see how it will be seen by the Agency. Until the RPPR is submitted to agency, the PDF report shows a status of *Draft* and a blank submission date.

To view the RPPR form:

1. On the *RPPR Menu* screen, click the three-dot ellipsis icon and select **View RPPR as PDF**.

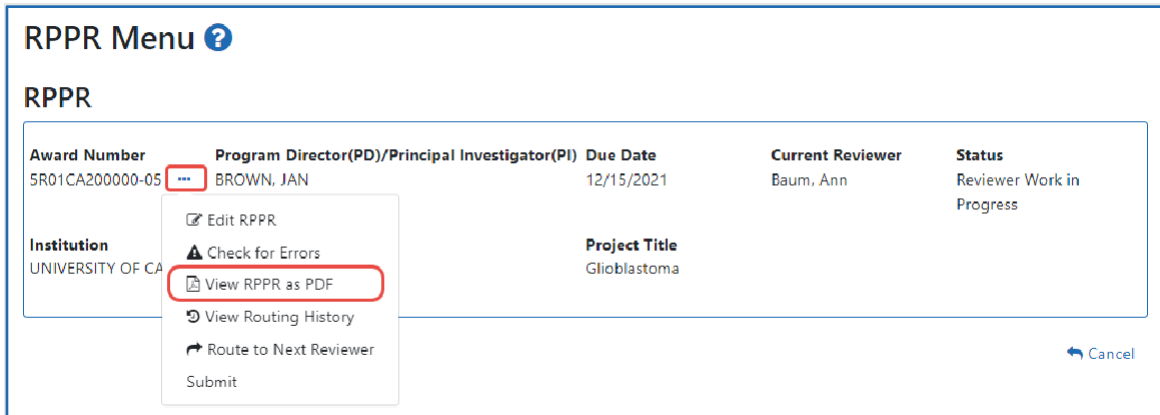

Figure 48 RPPR Menu – View the RPPR Option

5.9 View Routing History

From initiation to submission to Agency, the routing of an RPPR is captured for auditing purposes. PD/PIs, PD/PI delegates, and reviewers can view the routing history for *Work in Progress* or *Submitted to Agency* RPPRs at any time, even when they are not the current reviewer.

To view the routing history:

1. On the *RPPR Menu* screen, click the three-dot ellipsis icon and select **View Routing History**.

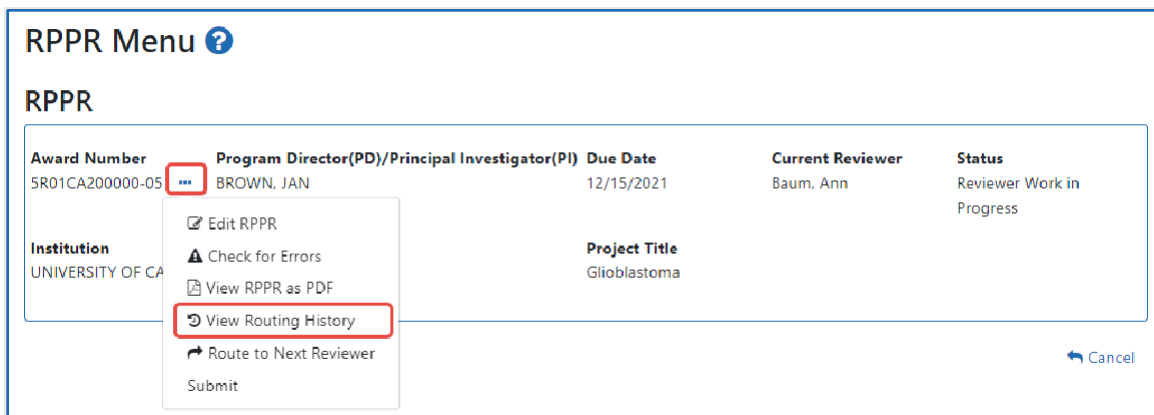

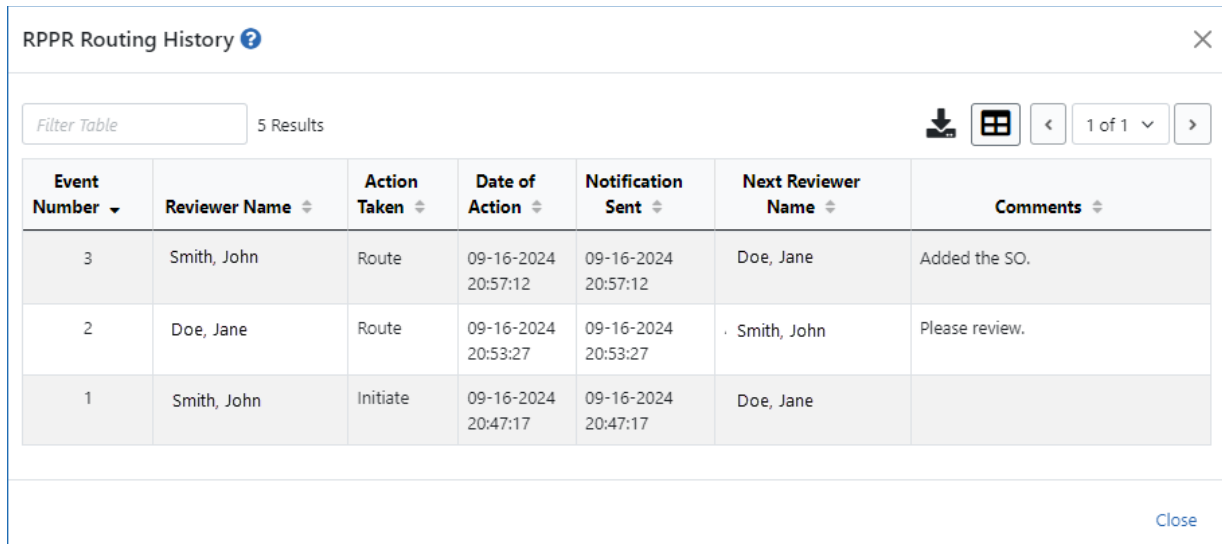

Figure 49 RPPR Menu – View Routing History Option

NIH RPPR Instruction Guide

The *RPPR Routing History* screen displays showing the **Reviewer Name**, **Action Taken**, **Notification Sent** (date and time), **Date of Action**, **Next Reviewer Name**, and **Comments** (when available).

The screenshot shows the 'RPPR Routing History' window with a table containing 5 results. The table has columns for Event Number, Reviewer Name, Action Taken, Date of Action, Notification Sent, Next Reviewer Name, and Comments. The data is as follows:

Event Number	Reviewer Name	Action Taken	Date of Action	Notification Sent	Next Reviewer Name	Comments
3	Smith, John	Route	09-16-2024 20:57:12	09-16-2024 20:57:12	Doe, Jane	Added the SO.
2	Doe, Jane	Route	09-16-2024 20:53:27	09-16-2024 20:53:27	Smith, John	Please review.
1	Smith, John	Initiate	09-16-2024 20:47:17	09-16-2024 20:47:17	Doe, Jane	

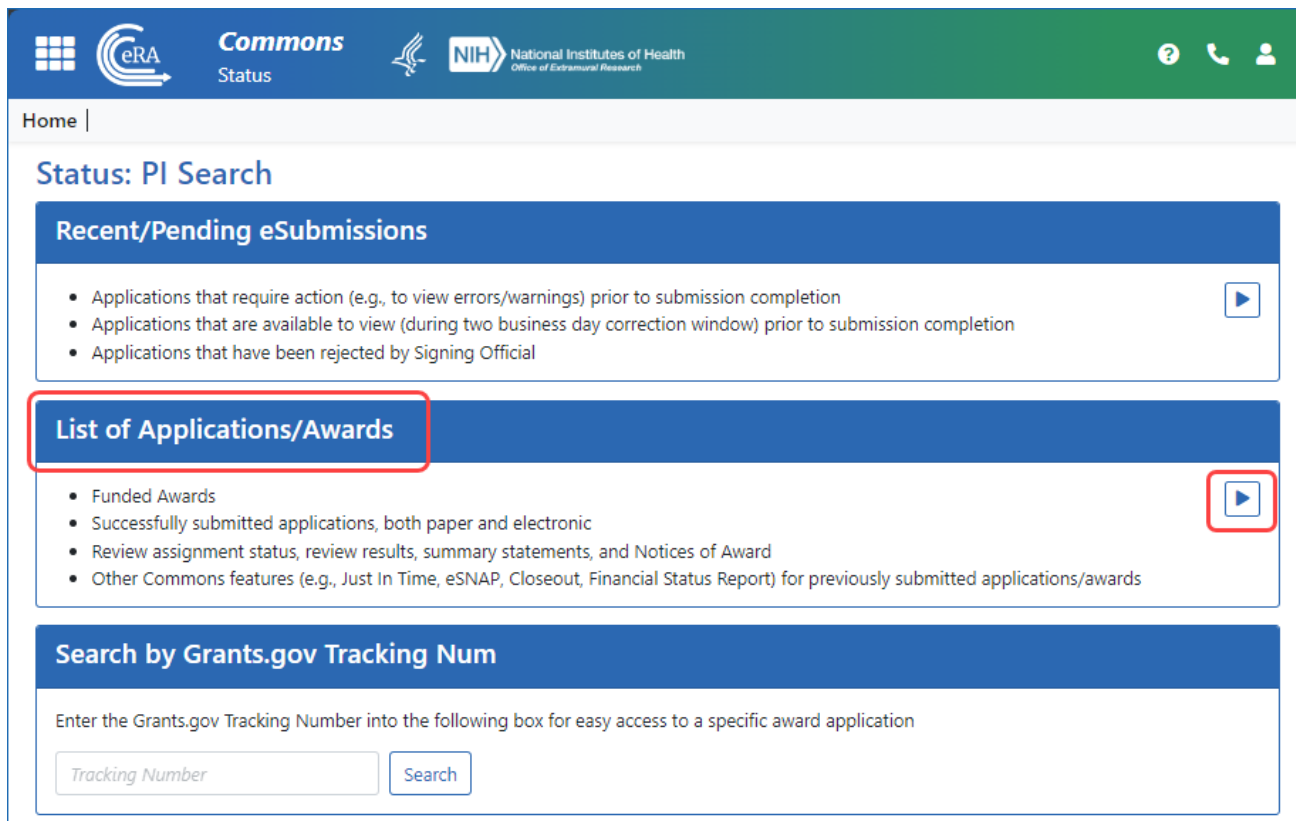

Figure 50 RPPR Routing History

2. To close the screen, click the **Close** link.

5.10 Viewing the Completed RPPR in Commons

The completed RPPR, in PDF format, is accessible in Commons from the *Status Information* screen. To view the completed RPPR, perform the following steps:

1. From Commons, select **Status** from the Main menu.
2. Select the heading for **List of Applications/Awards**.

The screenshot shows the Commons Status page. The 'List of Applications/Awards' section is highlighted with a red box. It contains a list of items and a play button icon.

- Funded Awards
- Successfully submitted applications, both paper and electronic
- Review assignment status, review results, summary statements, and Notices of Award
- Other Commons features (e.g., Just In Time, eSNAP, Closeout, Financial Status Report) for previously submitted applications/awards

Figure 51 PI view of Status, showing the List of Applications/Awards

NIH RPPR Instruction Guide

- From the *Status Result – List of Applications/Awards* screen, select the hyperlink for the specific Application ID.

The screenshot shows the NIH Commons Status page. At the top, there is a navigation bar with the Commons logo and NIH logo. Below the navigation bar, there is a "Home" link and a "Return to PI Search" link. A "Notes & Tips" section contains two bullet points: "Important: The NIH provides the JIT (Just in Time) link in the Commons for scored applications. Please await instructions from the NIH on whether to complete this information" and "Reminder: All PDF files should be flattened before uploading to ensure successful submission. See instructions on how to flatten a PDF." Below the notes, there are "Grouped View" and "Flat View" buttons. The main content area is titled "Status Result - List of Applications/Awards" with a question mark icon and a count of 196. Below this, there is a summary row for a project: "R01AG080808" (3 items), "12/01/2022 - 11/30/2027 (Project Period)", "MIURY, YURLER (PD/PI)", "Reversing Microglial Dysfunction (Title)", and "Pending" status. Below the summary row is a table with the following columns: "Application/Award ID", "Grants.gov Tracking#", "Proposal Title", "PD/PI Name", "eSubmission Status", "Current Application Status", "Status Date", and "Available Actions". The first row in the table is highlighted with a red box around the "Application/Award ID" cell, which contains the value "5R01AG080808-03". The other rows in the table are: "5R01AG080808-02" (Reversing Microglial Dysfunction, MIURY, YURLER (PI), Awarded. Non-fellowships only, 12/07/2023, RPPR), and "1R01AG080808-01" (Reversing Microglial Dysfunction, MIURY, YURLER (PI), Submission Complete, Awarded. Non-fellowships only, 11/23/2022, RPPR).

Application/Award ID	Grants.gov Tracking#	Proposal Title	PD/PI Name	eSubmission Status	Current Application Status	Status Date	Available Actions
5R01AG080808-03		Reversing Microglial Dysfunction	MIURY, YURLER (PI)		Pending	12/07/2023	RPPR
5R01AG080808-02		Reversing Microglial Dysfunction	MIURY, YURLER (PI)		Awarded. Non-fellowships only	12/07/2023	RPPR
1R01AG080808-01	GRANT13592936	Reversing Microglial Dysfunction	MIURY, YURLER (PI)	Submission Complete	Awarded. Non-fellowships only	11/23/2022	RPPR

Figure 52 Application/Award ID link

The *Status Information* screen displays with the **Other Relevant Documents** section.

- The progress reports for incrementally-funded and multi-year funded awards are displayed differently in **Other Relevant Documents**.
 - For an incrementally-funded RPPR:* Select the **e-Application** link from the **Other Relevant Documents** section of the *Status Information* screen.

NOTE: The submitted RPPR can also be accessed from the *RPPR Menu* screen. The **View RPPR as PDF** option under the three-dot menu opens the PDF version of the RPPR.

5.11 Public Access Progress Report Additional Materials (PRAM)

The Public Access Progress Report Additional Materials (PRAM) feature provides a means for the recipient to enter, review, and submit information in response to the automated notification sent when an NIH or AHRQ recipient organization submits an RPPR with non-compliant publications. The system sends the automated email to the PD/PI requesting verification that all publications are in compliance with the NIH Public Access Policy. The SO and AO assigned to the RPPR on the cover page (see Section A – Cover Page) will receive a copy (cc:) of the email. While an email response to the GMS and PO is acceptable at this time, the recipient is encouraged to respond using the Public Access PRAM feature in eRA Commons.

Using the PRAM feature, recipients can upload and submit a [My NCBI PDF](#) report demonstrating that previously non-compliant papers reported on the RPPR are now compliant. Compliant papers have a status of *Complete*, *N/A* (not applicable), *PMC Journal in Process*, or *In process at NIHMS*. Please see <http://publicaccess.nih.gov/include-pmcid-citations.htm> for additional information. If unable to provide the verification of compliance, recipients can upload and submit justification for why specific publications cannot be brought into compliance.

As with the RPPR, a PD/PI (or Contact PI in the case of multiple PIs) can enter the Public Access PRAM, but can only submit it if the PD/PI is delegated with *Submit Progress Report* authority.

Otherwise, only the SO can submit the PRAM to Agency.

The following sections cover the steps for initiating and submitting Public Access PRAM.

5.11.1 Initiate Public Access PRAM

The PD/PI (Contact PI) or PD/PI Delegate can initiate Public Access PRAM by following the steps below:

1. Access the eRA *Commons Status Result – List of Applications/Awards* screen.
2. Select the **Public Access PRAM** link from the Available **Actions** column of the appropriate grant.

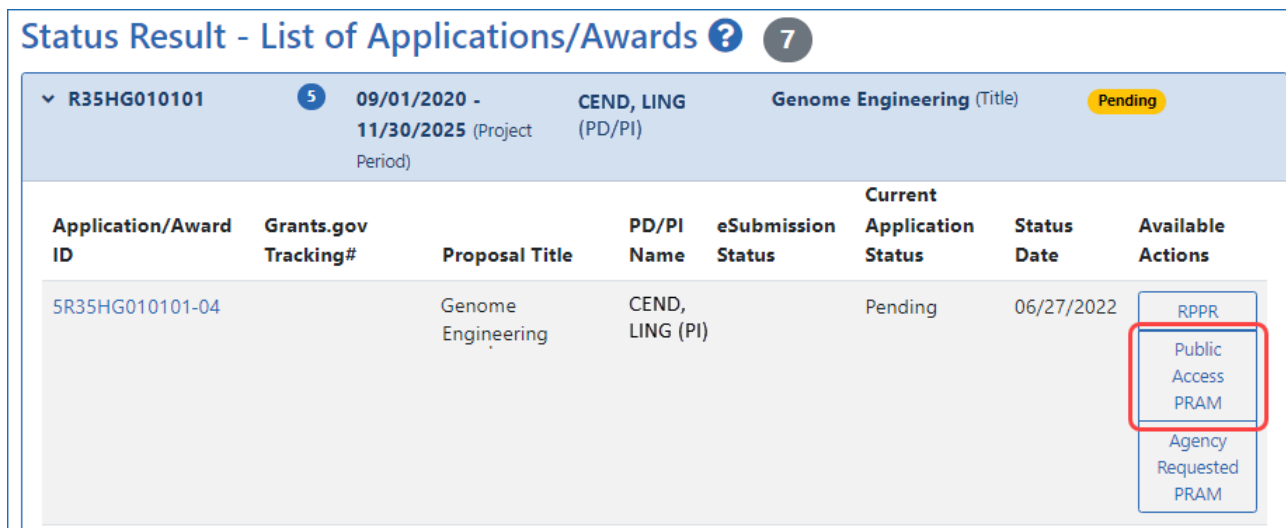

Figure 55 Public Access PRAM Link

The *Progress Report Additional Materials (PRAM)* screen displays. **Grant Information** including PD/PI Name, Project Title, Org Name (organization name), Status, and Current Reviewer displays at the top of the screen. The **Public Access Compliance** section at the bottom contains guidance for responding to the automated email requesting evidence of compliance, and also includes a “**Drop files here..**” area with a **browse** link.

3. Add the My NCBI PDF or another document providing justification by doing the following: Drag and drop the file(s) in the "**Drop Files Here...**" area, or click the **browse** link and choose file(s) from your drive. The drop files area specifies how many files and what file types are allowed. For uploaded files, you can:

- Click the Download icon  and the browser will open or download the file.
- Click the Delete icon  to remove the file.

3. Select the **Route** button at the bottom of the screen.

Figure 57 Route Public Access PRAM to Next Reviewer

The *Route PRAM to Next Reviewer* screen displays the PD/PI Assurance statement.

7. Read the assurance statement and select the **Submit** button to agree to the content and continue routing the PRAM to the next reviewer.

The screenshot shows a web interface titled "Route PRAM to Next Reviewer" with a help icon. Below the title is a blue header bar labeled "PD/PI Assurance". The main content area contains the following text: "I certify that the statements herein are true, complete and accurate to the best of my knowledge. I am aware that any false, fictitious, or fraudulent statements or claims may subject me to criminal, civil, or administrative penalties. As PD/PI, I agree to accept responsibility for the scientific conduct of the project and to provide the required progress reports if a grant is awarded as a result of this submission." At the bottom of the form are two buttons: a green "Submit" button and a white "Cancel" button with a grey border.

Figure 58 Public Access PRAM PD/PI Assurance Statement

The *Progress Report Additional Materials (PRAM)* screen displays with a message indicating that the PRAM was successfully routed to the selected reviewer. Additionally, the status is updated and shown as *Reviewer Work in Progress*. At this point, the PD/PI can only view the PRAM and may not edit it. To allow the PD/PI to edit the PRAM, the SO needs to route the PRAM back to the PD/PI using steps similar to those above.

At the time of routing, an email is sent to the PD/PI and the selected SO (or other Next Reviewer) to notify them of the event.

5.11.2 Recall Public Access PRAM

Public Access PRAM that has been routed to a reviewer can be recalled by the person who performed the routing action until the PRAM has been submitted to the Agency. This is useful in situations when the report was routed to the wrong person or the reviewer is unavailable. The last reviewer of the report is able to recall it; however, Signing Officials at the Organization and the Contact PD/PI who are not the last reviewer can also recall the report when it is in a status of *Reviewer Work in Progress*.

NOTE: A PD/PI delegate does not have the ability to recall the PRAM.

To recall Public Access PRAM, select the **Recall** button from the *Progress Report Additional Materials (PRAM)* screen.

PD/PI Assurance

In submitting these Progress Report additional materials, the SO (or PD/PI with delegated authority), certifies that the awardee organization is in compliance with the terms and conditions specified in the Notice of Award and Grants Policy Statement, and verifies the accuracy and validity of all administrative, fiscal, and scientific information in the progress report. The SO (or PD/PI with delegated authority) further certifies that the awardee organization will be accountable for the appropriate use of any funds awarded and for the performance of the grant-supported project or activities resulting from the progress report. Deliberate withholding, falsification, or misrepresentation of information could result in administrative actions such as withdrawal of a progress report, suspension and/or termination of an award, debarment of individuals, as well as possible criminal penalties. The awardee institution may be liable for the reimbursement of funds associated with any inappropriate or fraudulent conduct of the project activity.

Application Information

PD/PI Name	Org Name	
Cend, Ling	STAN UNIVERSITY	
Project Title		
Genome Engineering		
Pram Status	Current Reviewer	Due Date
Reviewer Work in Progress	Hayten, Laon	2023-10-01

Figure 62 SO Certification of Public Access PRAM

The *Progress Report Additional Materials (PRAM)* screen displays with a message indicating that the PRAM was successfully submitted. The current reviewer is updated to ‘Agency’, the PRAM status is updated to *Submitted*, and the PRAM submission date is recorded. The routing history is updated to reflect the submission to the Agency.

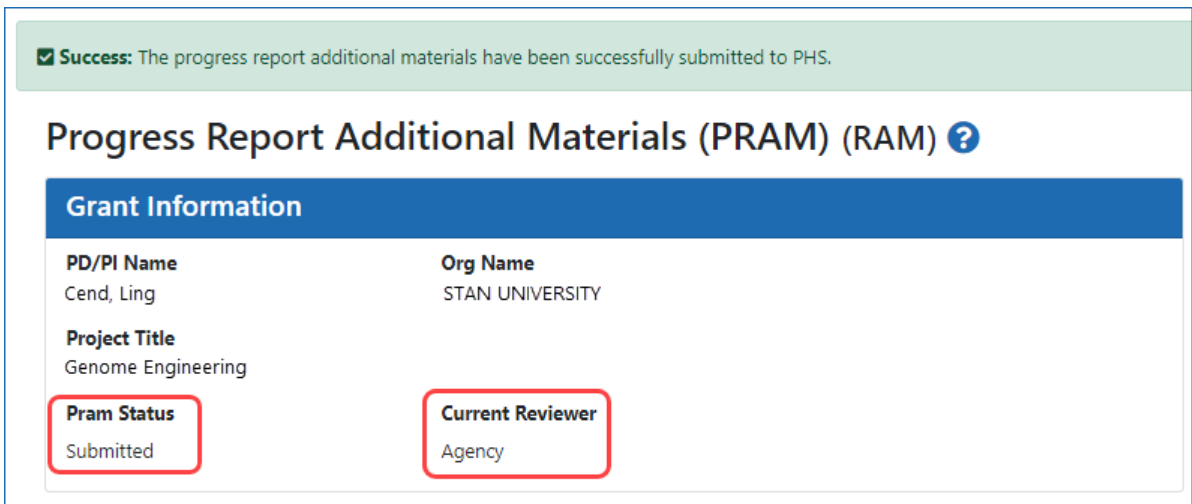

Figure 63 Public Access PRAM Submitted to Agency

When PRAM is submitted to Agency, an email notification is sent to the PD/PI (Contact PI) on the award, the submitting SO, the SO assigned to the RPPR, Interim-RPPR, or Final RPPR and AO assigned to the RPPR.

NOTE: To view the submitted PRAM, click the Public Access PRAM link on the application/award again, and click the **Preview** button on the Progress Report Additional Materials (PRAM) screen. This option opens the PRAM PDF in a separate window. The Public Access PRAM will appear as the final page of the PDF document. See below for another way to display Public Access PRAM.

5.11.4 View Public Access PRAM for Multi-Year Funded Awards

After submitting Public Access PRAM for multi-year funded awards, users with access to the award information may view the PRAM via the *Status Information* screen. *Status Information* is accessed by selecting the **Application/Award ID** link from the *Status Result – General Search* (SOs) and *Status Result – List of Applications/Awards* (PIs) screens.

Home | Return to PI Search

Notes & Tips:

- Important: The NIH provides the JIT (Just in Time) link in the Commons for scored applications. Please await instructions from the NIH on whether to complete this information
- Reminder: All PDF files should be flattened before uploading to ensure successful submission. See instructions on how to flatten a PDF.

5.12 Final Progress Report Additional Materials (FRAM)

A *Final Research Performance Progress Report* (Final RPPR) is required for any award that has ended and any award that is not to be extended through award of a new competitive segment. This report should be prepared in accordance with instructions provided by the awarding component.

The *Final Progress Report Additional Materials* (FRAM) feature provides a means for recipients to enter, review, route, and submit information in response to specific request(s) by the Program Official (PO) for additional information related to the Final RPPR.

While reviewing a submitted Final RPPR, the PO may determine that additional materials related to the submitted report are required. In this case, the PO will submit a request for this information referred to as a FRAM request. When a FRAM request is made, the PI is notified via email; Final RPPR status on *Closeout Status* is updated to *FRAM Requested*; and a **FRAM Update** link appears in the *Closeout Status* screen. The link is located as an action on the **FRAM** line for **Closeout Submission Requirement**.

This section discusses the steps for uploading, viewing, and submitting FRAM.

For Revised Project Outcomes, please review the following information.

To submit revised Project Outcomes, SOs should follow the IRAM process for outcomes for Interim RPPRs and the FRAM process for outcomes for Final RPPRs with the exception that a text box will be provided to enter/paste the new Outcomes text and **click Submit** instead of uploading files as with other RAM requests.

Home |

In submitting these Final Progress Report additional materials, the SO (or PD/PI with delegated authority), certifies that the grantee organization is in compliance with the terms and conditions specified in the Notice of Award and Grants Policy Statement, and verifies the accuracy and validity of all administrative, fiscal, and scientific information in the progress report. The SO (or PD/PI with delegated authority) further certifies that the grantee organization will be accountable for the appropriate use of any funds awarded and for the performance of the grant-supported project or activities resulting from the progress report. Deliberate withholding, falsification, or misrepresentation of information could result in administrative actions such as withdrawal of a progress report, suspension and/or termination of an award, debarment of individuals, as well as possible criminal penalties. The grantee institution may be liable for the reimbursement of funds associated with any inappropriate or fraudulent conduct of the project activity.

Notes and Tips

Please add revised outcomes to the Project Outcomes section of the Final and Interim Research Performance Progress Reports (F-RPPR and I-RPPR) using the plain language that everyone can understand.

As you are aware, with NIH's implementation of the F-RPPR and I-RPPR, a new section, Section I- Outcomes, has been added. The Outcomes section will be made publicly available through the NIH RePORTER website. The objective is to provide the public with easily understood results for NIH-funded biomedical research, thus improving the transparency about the use of federal funds. NIH will only publish project outcomes after they've been reviewed and approved by NIH staff. If a project outcome is deemed to be too scientific in its language, shares proprietary information, or includes Personally Identifiable Information (PII), a grantee will be asked by NIH staff to submit revised project outcomes using the Request for Additional Materials functionality for the Final and Interim RPPR (i.e., Final Report Additional Materials (FRAM) for Final RPPR, IRAM for Interim RPPR). Grantees will respond to these requests using an enhanced web form that supports NIH's ability to make this information public. Submitting a revised outcomes statement is accomplished by using only the Project Outcomes section on the request for an additional materials web form. This text box is NOT for general comments or communication. And revised outcome statements will not be accepted if they are uploaded as an attachment. That functionality is reserved for other types of requested information.

Revised Outcome

Please provide Revised Outcomes here. Note, text in this field will be publicly available in RePORTER.

📄 For NIH Section I.Outcomes will be made **publicly available**, thus allowing recipients to provide the general public with a concise summary of the cumulative outcomes or findings of the project at the end of a competitive segment. For NIH awards the length should not exceed half a page. In addition, for the interim or final RPPR the summary of outcomes or findings of the award must be written in the following format:

- Is written for the general public in clear, concise, and comprehensible language;
- Is suitable for dissemination to the general public, as the information may be available electronically;
- Does not include proprietary, confidential information or trade secrets

Please refer to the following link for samples of acceptable project outcomes:

Figure 66 Final Progress Report Additional Materials

NIH RPPR Instruction Guide

Project Outcomes provide information regarding the cumulative outcomes or findings of the project. Per the 1993 NIH Revitalization Act, PL 103-43, enacted June 10, 1993, and the 21st Century Cures Act, PL 114-255, enacted December 13, 2016, NIH requires entities conducting NIH-defined Phase III Clinical Trials to include results of valid analyses by sex, race, and ethnicity, in addition to submission in ClinicalTrials.gov.

Note that outcomes will be made publicly available, allowing recipients to provide the general public with a concise summary of the cumulative outcomes or findings of the project at the end of a competitive segment. The name of the PD/PI will be attached to the public posting in RePORTER.

For NIH awards the length of the Outcome statement should not exceed half a page. The Outcome statement text field is limited to 2000 characters. In addition, the summary of outcomes or findings of the award must be written in the following format:

- * Is written for the general public in clear, concise, and comprehensible language
- * Is suitable for dissemination to the general public, as the information may be available electronically
- * Does not include proprietary, confidential information or trade secrets

NIH has provided [Sample Project Outcomes](#) for your reference. See NIH notices [NOT-OD-17-022](#) and [NOT-OD-17-037](#) for additional details on this requirement.

5.12.1 Uploading Final Report Additional Materials

When FRAM is requested by the reviewing PO, an email notification will be sent to the PI (and SO) describing the additional information being requested. It is the PI who is responsible for uploading this requested FRAM via the Closeout module in Commons.

To upload FRAM:

1. Navigate to the *Closeout Status* screen.
2. Locate the **FRAM** line item under the **Closeout Submission Requirement** column.
If a PO has requested additional material related to the Final RPPR, the **Status** will show **Not Received** and the **FRAM Update** button will appear in the **Action** column of this line item. If this information is not there, the request was not made.
3. Click the **FRAM Update** button, as shown below.

The SO is now able to submit FRAM. Refer to the steps in the section titled Submitting FRAM for details on how an SO submits FRAM to the Agency.

NOTE: After the SO submits FRAM, the **FRAM Update** link on *Closeout Status* will be replaced by the **View FRAM** link and updates can no longer be made.

5.12.2 Submitting FRAM

Once a response to a FRAM request has been uploaded by the PI using the *Final Progress Report Additional Materials (FRAM)* screen, the SO can submit the material to Agency. Only those with an SO role in Commons can submit FRAM.

To submit FRAM:

1. Navigate to the *Closeout Status* screen for the specific award.
2. Locate the **FRAM** line item under the **Closeout Submission Requirement** column.
If the PI has uploaded the additional material successfully, the **Result of Action** column will show *FRAM Updated By <PI Name>*. The **FRAM Update** button will appear in the **Action** column of this line item.
3. Click the **FRAM Update** button.

Cancel [Delete] Preview Save **Submit**

Figure 71 Final Progress Report Additional Materials showing the Submit button

The Closeout Status screen will show FRAM Submitted By <SO Name> in the **Result of Action** column, and the **FRAM Update** link remains, and a new **View** link appears. FRAM cannot be edited after submission to the Agency

Additionally, email notification is sent to both the SO who submitted the FRAM and to the PI of the award. A separate notification is sent to the PO of the award. Commons will generate a PDF document containing all documents added to the FRAM request. This document can be accessed from the Status Information screen under **Other Relevant Documents**

The PO may rescind the approval of the Final RPPR submission at any time. If this event occurs, the **FRAM Update** link will be made available for submitting FRAM.

SOs can continue to add additional attachments even after submission to the Agency (before acceptance of the Final RPPR). Any subsequent documents will be added to the PDF generated by Commons.

5.13 Interim Report Additional Materials (IRAM)

The Agency may use *Interim Report Additional Materials (IRAM)* to provide a means for the recipient to enter, review, route, and submit information in response to specific request(s) by the Program Official at the IC for additional information following the submission of an Interim RPPR.

AHRQ award recipients do not receive or respond to IRAM requests.

As with the RPPR, a PD/PI (or Contact PI in the case of multiple PIs) can enter the IRAM.

However, only the SO can submit the IRAM to the agency.

IMPORTANT: For Revised Project Outcomes, please review the following information:

To submit revised Project Outcomes, SOs should follow the IRAM process for outcomes for Interim RPPRs and the FRAM process for outcomes for Final RPPRs with the exception that a text box will be provided to enter/paste the new Outcomes text and click **Submit** instead of uploading files as with other IRAM requests. See an example below.

Figure 72 Interim Progress Report Additional Materials

Project Outcomes provide information regarding the cumulative outcomes or findings of the project. Note that outcomes will be made publicly available, allowing recipients to provide the general public with a concise summary of the cumulative outcomes or findings of the project at the end of a competitive segment. The name of the PD/PI will be attached to the public posting in [RePORTER](#).

For NIH awards the length of the Outcome statement should not exceed half a page. The Outcome statement text field is limited to 2000 characters. In addition, the summary of outcomes or findings of

NIH RPPR Instruction Guide

the award must be written in the following format:

- * Is written for the general public in clear, concise, and comprehensible language
- * Is suitable for dissemination to the general public, as the information may be available electronically
- * Does not include proprietary, confidential information or trade secrets

NIH has provided [Sample Project Outcomes](#) for your reference.

See NIH notices [NOT-OD-17-022](#) and [NOT-OD-17-037](#) for additional details on this requirement.

The link for the request will be displayed in the **Available Actions** column as "IRAM". Below are both the IRAM action as seen by an SO in Status and as seen by the PI in Status:

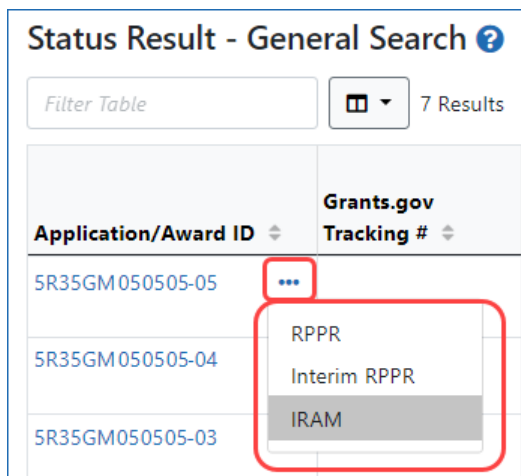

Figure 73 IRAM action as seen in Status by a signing official (SO)

Figure 74 IRAM action as seen in Status by a principal investigator (PI)

When the link is clicked, the IRAM screen will open with a “Drop files here...” area and **browse** link. You can either drag and drop files or click **browse** and choose files from your drive to be submitted in response the agency request for interim RPPR-related information.

For *Revised Outcomes*, the text box will be used to directly enter (or copy and paste) the Revised Outcomes text and then it may be submitted as per the **IMPORTANT**: information box above. The text box caption will read, "Please provide Revised Outcomes here. Note, text in this field will be publicly available in RePORTER."

The character limit for the Revised Outcome is 2,000 characters.

NIH RPPR Instruction Guide

After uploading documents and typing or pasting revised outcome text (if any), you can use the buttons at the bottom of the page to:

- **Cancel** - No changes will be made and you will be returned to the *Status Results* page
- **Preview** - This will open the submission to allow you to view the uploaded document(s) and comments that will be sent to the Agency.
- **Save** - The uploaded document(s) and revised outcome (if any) will be saved for future submission.
- **Delete** - The uploaded document(s) will be removed and different document(s) may be uploaded.
- **Submit** - Send the uploaded document(s) and revised outcome text to the Agency.

You can upload up to 10 documents and then you can use the Download icon  to

open/download/view uploaded files or use the Delete icon  to remove files. Below, see the *IRAM* screen with attached documents and text in the Revised Outcome text box.

Figure 75 Interim Progress Report Additional Materials

5.14 Agency Requested Progress Report Additional Materials (PRAM)

The Agency Requested Progress Report Additional Materials (PRAM) feature provides a means for the recipient to enter, review, route, and submit information in response to specific request(s) by the Grants Management Specialist at the IC (or AHRQ, if applicable) for additional information following the submission of an RPPR.

As with the RPPR, a PD/PI (or Contact PI in the case of multiple PIs) can enter the PRAM, but can only submit it if the PD/PI is delegated with *Submit Progress Report* authority. Otherwise, only the SO can submit the PRAM to the Agency.

The following sections cover the steps for initiating and submitting Agency Requested PRAM.

NOTE: Agency requested PRAM is not available for multi-year funded awards at this time.

5.14.1 Initiate Agency Requested PRAM

The PD/PI (Contact PI) or PD/PI Delegate can initiate Agency Requested PRAM by following the steps below:

1. Access the eRA *Commons Status Result – List of Applications/Awards* screen.
2. Select the **Agency Requested PRAM** link from the **Available Actions** column of the appropriate award.

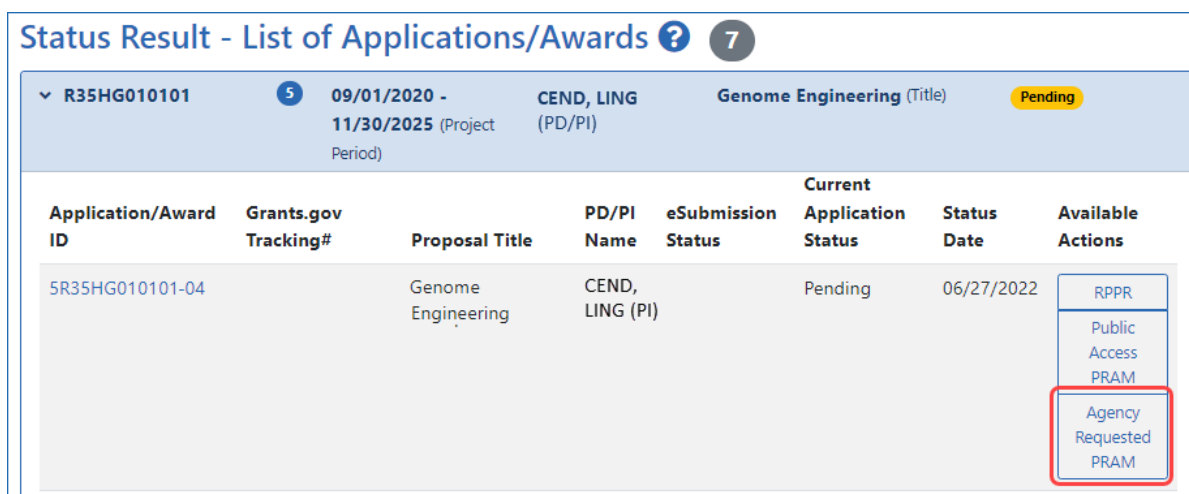

Figure 76 Agency Requested PRAM button

The *Progress Report Additional Materials (PRAM)* screen displays. **Grant Information**, including PD/PI Name, Project Title, Org Name (organization name), Status, and Current Reviewer, displays at the top of the screen. The **Additional Materials Requested by IC** section at the bottom provides a means for adding the requested materials. Up to 100 attachments can be submitted, but all attachments must be in the form of PDF files.

3. Drag and drop file(s) in the "**Drop Files Here...**" area, or click the **browse** link and choose file(s) from your drive. The drop files area specifies how many files and what file types are allowed. For uploaded files, you can:

- Click the Download icon  and the file is opened or downloaded by the browser.
- Click the Delete icon  to remove the file.

Figure 77 Agency Requested PRAM screen

The **Additional Materials Requested by IC** section updates to show a table of all uploaded files.

NOTE: The options for **Preview** and **View Routing History** may be selected at this time. Selecting the option for **Cancel** closes the screen without saving or routing the PRAM information.

4. Select the **Route** button to send the PRAM for review.

Figure 78 Routing the Agency Requested PRAM

When the **Route** button is selected, the *Route PRAM to Next Reviewer* screen displays. A list of all available reviewers exists in the drop-down for **Next Reviewer**.

5. Select a name from the **Next Reviewer** drop-down list.
6. Enter text into the **Comments** field as necessary. This is not a mandatory field.
7. Select the **Submit** button to continue.

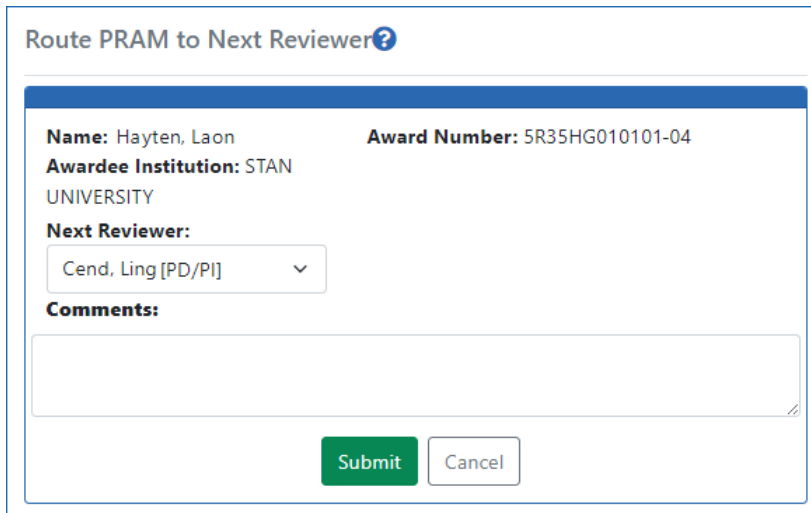

Figure 79 *Route Agency Requested PRAM to Next Reviewer*

The *Route PRAM to Next Reviewer* screen displays the PD/PI Assurance statement.

8. Read the assurance statement and click the **Submit** button to agree to the content and continue routing the PRAM to the next reviewer.

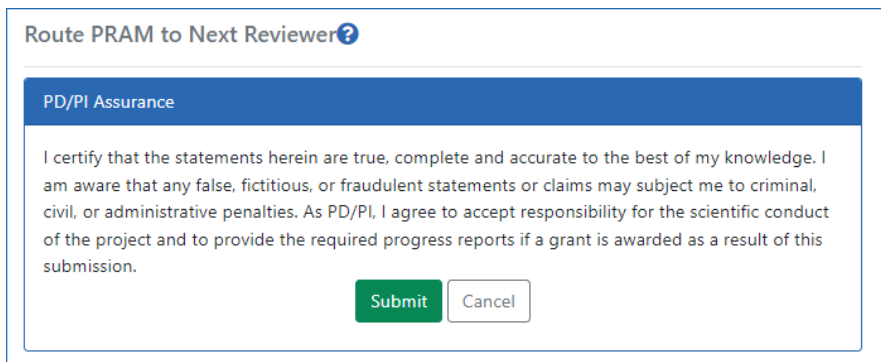

Figure 80 *Agency Requested PRAM PD/PI Assurance Statement*

The *Progress Report Additional Materials (PRAM)* screen displays with a message indicating that the PRAM was successfully routed to the selected reviewer. Additionally, the status is updated and shown as *Reviewer Work in Progress*. At this point, the PD/PI can only view the PRAM, the attachments, and the Route History; the PD/PI may not edit the PRAM. To be able to allow the PD/PI to edit the PRAM, the SO needs to route the PRAM back to the PD/PI using routing steps similar to those above.

At the time of routing, an email is sent to the PD/PI and the selected SO (or other Next Reviewer) to notify them of the event.

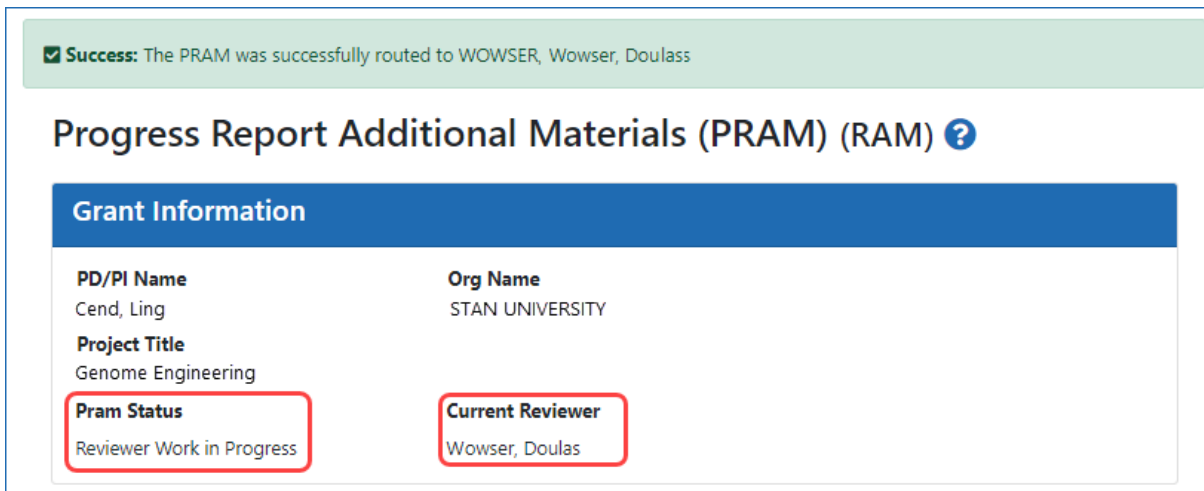

Figure 81 Successfully Routed Agency Requested PRAM

5.14.2 Recall Agency Requested PRAM

Agency Requested PRAM that has been routed to a reviewer can be recalled by the person who performed the routing action up until the submission of the current PRAM attachment(s) to the Agency. This is useful in situations when the report was routed to the wrong person or the reviewer is unavailable. The last reviewer of the report is able to recall it; however, Signing Officials at the Organization and the Contact PD/PI who are not the last reviewer can also recall the report when it is in a status of *Reviewer Work in Progress*.

NOTE: A PD/PI delegate does not have the ability to recall the PRAM.

To recall Agency Requested PRAM, select the **Recall** button from the *Progress Report Additional Materials (PRAM)* screen.

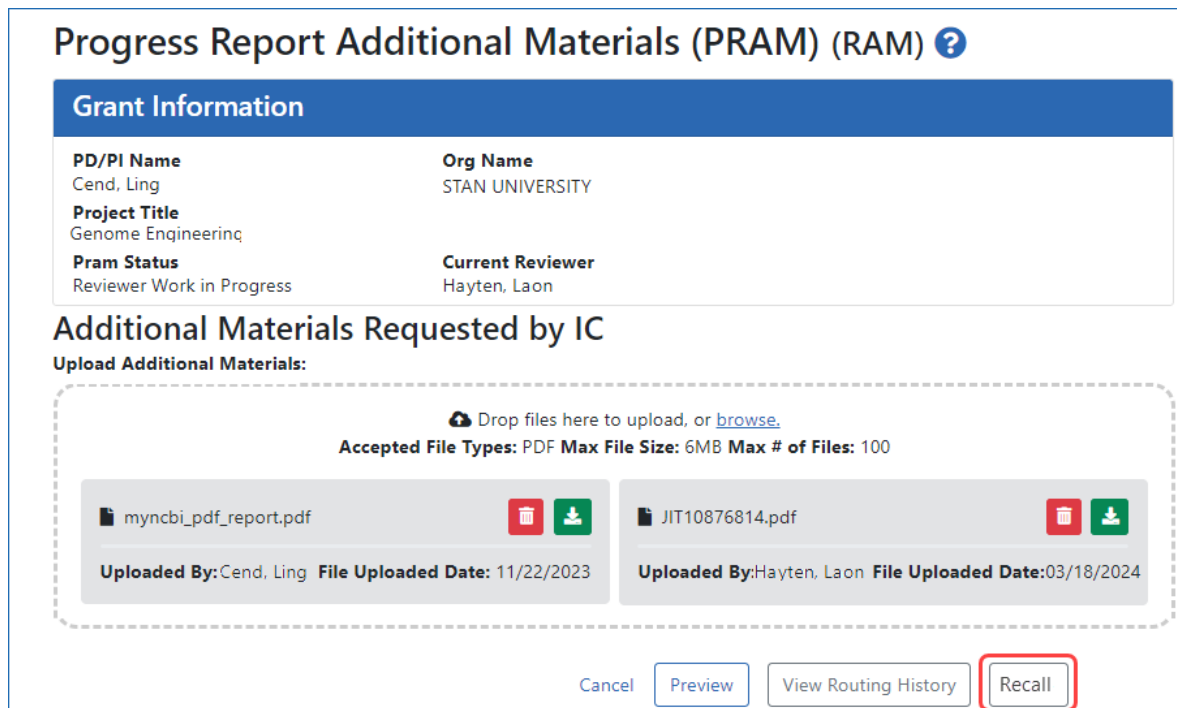

Figure 82 Recall Button for Agency Requested PRAM

A message displays on the screen indicating: *The PRAM has been successfully recalled. You have been set as the Current PRAM Reviewer.*

NOTE: Only items which have not already been submitted can be recalled. If prior Agency Requested PRAM submissions to the Agency exist, these attachments are not included in the recall.

The status of the PRAM is updated to *PD/PI Work in Progress* if recalled by the PI or *Reviewer Work in Progress* if recalled by the SO; the reviewer from whom the PRAM is recalled receives an email about the action; and the PRAM routing audit history is updated to reflect the action.

Additionally, the ability to remove or add uploaded files is restored and the **Route** button is enabled, providing the current reviewer the ability to update the PRAM and route it again.

5.14.3 Submit Agency Requested PRAM

When the Agency Requested Progress Report Additional Materials (PRAM) is in *Reviewer Work in Progress* status, the Signing Official (SO) can submit it to the Agency. PD/Pis may also submit the information if they have been delegated *Submit Progress Report* authority by the SO.

To submit the PRAM:

1. Access the **Status** screen in eRA Commons.
2. Enter the appropriate query parameters to locate the award and select the **Search** button. The *Status Result – General Search* screen displays with the matching information.
3. From the **Action** column, select the link for **Agency Requested PRAM**.

Application/Award ID	Grants.gov Tracking #	Proposal Title	PD/PI Name	Application Status	Project Period Start	Project Period End	Budget Period Start	Budget Period End
5R35HG010101-04	RPPR	Towards...	Cend, Ling	Pending	09/01/2020	11/30/2025	12/19/2023	12/18/2024

Figure 83 Agency Requested PRAM Link for SO

The *Progress Report Additional Materials (PRAM)* screen displays. The screen displays **Grant Information** on top and the files uploaded by the PD/PI in the **Additional Materials Requested by IC** portion at the bottom.

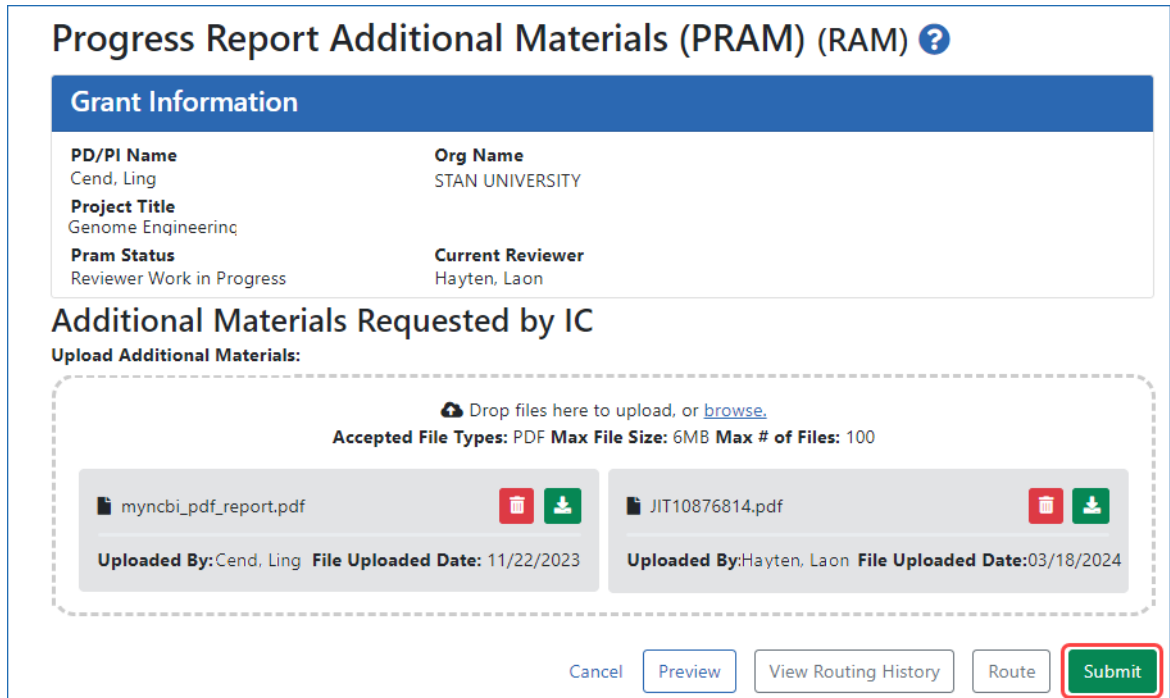

4. *Optional:* Drag and drop the file(s) in the "**Drop Files Here...**" area, or click the **browse** link and choose file(s) from your drive. The drop files area specifies how many files and what file types are allowed. For uploaded files, you can:

- Click the **Download** icon  and the file is opened or downloaded by the browser.

- Click the **Delete** icon  to remove the file.

Before submitting, the SO also may **Preview** the PRAM as a PDF, **Route** it to another reviewer (or back to the PD/PI), and **View Routing History**. Select any of the appropriate buttons to perform these actions. Follow the steps below to continue submitting the PRAM.

5. Select the **Submit** button.

Submit PRAM to Agency

PD/PI Assurance

In submitting these Progress Report additional materials, the SO (or PD/PI with delegated authority), certifies that the awardee organization is in compliance with the terms and conditions specified in the Notice of Award and Grants Policy Statement, and verifies the accuracy and validity of all administrative, fiscal, and scientific information in the progress report. The SO (or PD/PI with delegated authority) further certifies that the awardee organization will be accountable for the appropriate use of any funds awarded and for the performance of the grant-supported project or activities resulting from the progress report. Deliberate withholding, falsification, or misrepresentation of information could result in administrative actions such as withdrawal of a progress report, suspension and/or termination of an award, debarment of individuals, as well as possible criminal penalties. The awardee institution may be liable for the reimbursement of funds associated with any inappropriate or fraudulent conduct of the project activity.

Figure 86 Agency Requested PRAM Submitted to Agency

NIH RPPR Instruction Guide

When PRAM is submitted to the Agency, an email notification is sent to the PD/PI (Contact PI) on the award, the submitting SO, the SO assigned to the RPPR, and AO assigned to the RPPR.

Once the IC Requested PRAM is submitted, the **Preview** button remains on the PRAM screen to provide a preview of the latest PRAM submission; however, the ability to view or delete the individual attachments is removed. The ability to upload and submit additional attachments remains until the award is issued. Follow the steps provided in the *Initiate Agency Requested PRAM* section to upload additional files (starting with Step 3).

NOTE: If multiple PRAM submissions were completed, selecting the **Preview** button only provides a preview of the latest PRAM submission. To view all submissions as one document, access the *Status Information* screen for the award and select the PRAM link. For more information, refer to the next section, [View Agency Requested PRAM from Status Information](#).

5.14.4 View Agency Requested PRAM from Status Information

After submitting Agency Requested PRAM, Commons users with access to the award information may view the PRAM via the *Status Information* screen. The *Status Information* is accessed by selecting the **Application/Award ID** link from *Status Result – General Search* (SOs) and *Status Result – List of Applications/Awards* (PIs) screens.

From the *Status Information* screen, select the hyperlink in the area marked **Progress Report Additional Material (PRAM)** in the **Other Relevant Documents** section.

Figure 89 Status Information with PRAM Link

The Progress Report Additional Materials file opens as a PDF document. The file is formatted to provide an information header section for each PRAM submission followed by the attached documents provided during that submission. If multiple submissions of Agency Requested PRAM were completed, the additional materials are separated in the document with the most recent submission displayed first followed by earlier submissions in reverse chronological order. Information in the document can be navigated using the provided bookmarks on the left.

Figure 90 PDF of Multiple Submitted PRAM

6 Instructions for RPPR Sections A–I

The instructions in chapter 6 apply to the following awards: D71, DP1, DP5, G08, G11, G13, P40, R00, R01, R03, R18, R21, R33, R34, R36, R37, R56, RC1, RC2, RL1, S21, S22, SC1,

SC2, SC3, U1B, UC2, UH1, UH2, and UH3; and also to the following NIH multi-year funded awards, including: C06, DP2, DP3, DP4, R15, R55, RC3, RC4, RF1, UA5, UC4, UC6, UF1.

Note that AHRQ has not yet implemented the RPPR for any AHRQ multi-year funded awards.

Many of these instructions apply to other awards, but there may be exceptions (items that are not applicable, replace, or are in addition) for awards not listed above. Refer to the table in chapter 7 [Supplemental Instructions for Specific Grant RPPR Types](#), and follow the appropriate instruction for the applicable activity code of other awards. Activity codes listed in Multi-Project RPPRs and Single-Project RPPRs with Complicated Structure that are issued under the Streamlined Non-competing Award Process (SNAP) will complete the RPPR as described in this section. The electronic RPPR display is dynamic and shows the appropriate questions and instructions based on the activity code and SNAP status of the award.

Agency-specific reporting requirements and instructions are denoted by the HHS logo displayed to the left of the requirement or instruction, as illustrated here.

Not Applicable next to a particular item indicates that item does not apply to the particular kind of award, and the item should be ignored.

Unless otherwise specified, references to *competing application instructions* means the SF424 (R&R) Application Guides (<https://grants.nih.gov/grants-process/write-application/how-to-apply-application-guide>).

The RPPR may not be used for prior approval requests, with the exception of requesting prior approval for a reduction in the level of effort of the PD/PI or other senior/key personnel named in the Notice of Award under D.2 of the RPPR. All other prior approval requests must be submitted directly to the Grants Management Officer of the awarding component in accord with the Grants Policy Statement, 8.1.2.

IMPORTANT: Do Not Include Personal Identifiable Information (PII) Or Protected Health Information (PHI) In the RPPR

Sensitive PII (e.g., Social Security Number, personal financial information, Alien Registration Number) and PHI (e.g., personal medical conditions) require strict handling due to the increased risk to an individual if the data is compromised. Documents containing sensitive PII or PHI **must not** be included in the RPPR.

NIH GRANTS ONLY: Additional information on this topic can be found in this [FAQ](#) or by contacting your [IC Privacy Coordinator](#).

6.1 Section A – Cover Page

The RPPR section A. Cover Page includes information about the award, PD/PI, organization, and project/reporting/budget periods. Much of this information is pre-populated from data in eRA systems, but certain fields are editable.

The addresses, emails and phone numbers are pre-populated from the Commons Profile. To update contact information as displayed, go to the Commons Profile and save the changes there.

To select a Signing Official and Administrative Official, choose a name from the associated drop-down box. The SO and AO may be the same individual. The SO need not be the SO that submits the RPPR.

If there is a change to the Contact PD/PI (Multiple-PD/PI awards only), select the **Yes** radio button and enter the Commons ID of the new Contact PD/PI in the associated field. The change in Contact PD/PI does not take effect until the agency accepts the report and issues a NoA. The Contact PD/PI must have a

NIH RPPR Instruction Guide

PD/PI role in the eRA Commons and must be associated with the recipient organization. The RPPR is not an appropriate vehicle for a prior approval request to change, add, or delete PD/PIs.

The Recipient ID field allows the recipient to record an internal tracking number or identifier for its own use. It is not a mandatory field and the awarding agency will disregard the information.

NOTE: As of April 4, 2022, the Unique Entity Identifier (UEI) replaced the Dun & Bradstreet (DUNS) number as the official entity identifier required for an organization to apply for and receive federal funding from NIH and other federal agencies. (See NIH Guide Notice [NOT-OD-21-170.](#)) The UEI, a 12-character alpha numeric identifier, is issued as part of the [System for Award Management \(SAM\)](#) registration process.

Figure 91 Section A, cover page

6.2 Section B – Accomplishments

The RPPR section B. Accomplishments allows the agency to assess whether satisfactory progress has been made during the reporting period.

PD/PIs are reminded that the recipient is required to obtain prior written approval from the awarding agency grants official whenever there are significant changes in the project or its direction. See agency-specific instructions for submission of these requests.

B.1 What are the major goals of the project?

List the major goals of the project as stated in the approved application or as approved by the agency. If the application lists milestones/target dates for important activities or phases of the project, identify these dates and show actual completion dates or the percentage of completion.

Generally, the goals will not change from one reporting period to the next. However, if the awarding agency approved changes to the goals during the reporting period, list the revised goals and objectives. Also explain any significant changes in approach or methods from the agency approved application or plan.

Goals are equivalent to *specific aims*. Significant changes in objectives and scope require prior approval of the agency (e.g., NIH Grants Policy Statement, 8.1.2).

NOTE: The specific aims must be provided in the initial RPPR (i.e., first non-competing type 5 submission). In subsequent RPPRs this section will pre-populate with the aims/goals previously entered and may be amended by answering **Yes** to question B.1.a.

B.1.a Have the major goals changed since the initial competing award or previous report?

Select **Yes** if the major goals/specific aims have changed since the initial competing award or previous report, and provide a revised description of major goals/specific aims. Remember that written prior approval from the awarding agency grants official is required for significant changes in the project or its direction. The RPPR is not an appropriate vehicle to request such a change.

The first year that an RPPR is submitted any revised goals should be entered into the text box for B.1. In subsequent years, if the user selects **Yes** the text box under B.1.a for entering revised major goals will be provided.

▼ B.1 What are the major goals of the project?

List the major goals of the project as stated in the approved application or as approved by the agency. If the application lists milestones/target dates for important activities or phases of the project, identify these dates and show actual completion dates or the percentage of completion.

Generally, the goals will not change from one reporting period to the next. However, if the awarding agency approved changes to the goals during the reporting period, list the revised goals and objectives. Also explain any significant changes in approach or methods from the agency approved application or plan.

🔗 "Goals" are equivalent to "specific aims." Significant changes in objectives and scope require prior approval of the agency (e.g., NIH Grants Policy Statement, 8.1.2).

List the major goals below

8000 characters remaining

🔗 B.1.a Have the major goals changed since the initial competing award or previous report? Yes No

Figure 92 RPPR Section B. Accomplishments – Question B1

B.2 What was accomplished under these goals?

For this reporting period describe: 1) major activities; 2) specific objectives; 3) significant results, including major findings, developments, or conclusions (both positive and negative); and 4) key outcomes or other achievements. Include a discussion of stated goals not met. As the project progresses, the emphasis in reporting in this section should shift from reporting activities to reporting accomplishments. (Note: If citing references in this section, please provide a full citation. List all products from this reporting period in section C.)

Goals are equivalent to *specific aims*. In the response, emphasize the significance of the findings to the scientific field. Include the approaches taken to ensure robust and unbiased results. For most NIH awards, the response should not exceed 2 pages.

B.3 For this reporting period, is there one or more Revision/Supplement associated with this award for which reporting is required?

If yes, identify the Revision(s)/Supplements(s) by grant number (e.g., 3R01CA098765-01S1) or title and describe the specific aims and accomplishments for each Revision/Supplement funded during this reporting period. Include any supplements to promote re-entry, or other similar supplements to support addition of an individual or a discrete project.

The NoA will indicate any reporting requirements. Be advised that the NoA incorporates requirements of the NOFO that may also include reporting requirements.

Select the **Add/New** button to add the data to the table.

▼ B.2 What was accomplished under these goals?

For this reporting period describe:

1. major activities
2. specific objectives
3. significant results (including) major findings, developments, or conclusions (both positive and negative)
4. key outcomes or other achievements

Include a discussion of stated goals not met. As the project progresses, the emphasis in reporting in this section should shift from reporting activities to reporting accomplishments.

🔗 Goals are equivalent to specific aims. In the response, emphasize the significance of the findings to the scientific field. Include the approaches taken to ensure robust and unbiased results. For most NIH awards the response should not exceed 2 pages.

Max File Count: 1 Accepted File Types: PDF Max File Size: 6MB

▼ 🔗 B.3 Competitive Revisions/Administrative Supplements

For this reporting period, is there one or more Revision/Supplement associated with this award for which reporting is required?

Yes No

If yes, identify the Revision(s) by grant number (e.g., 3R01CA098765-01S1) or title and describe the specific aims for each Revision. If the Revision is associated with a specific component, identify the component.

[+ Add/New](#)

Figure 93 RPPR Section B. Accomplishments – Questions B2 & B3

For SBIR/STTR Awards specific aims and accomplishments are equivalent to specific aims and/or milestones.

B.4 What opportunities for training and professional development has the project provided?

If the research is not intended to provide training and professional development opportunities or there is nothing significant to report during the reporting period, select **Nothing to Report**.

Describe opportunities for training and professional development provided to anyone who worked on the project or anyone who was involved in the activities supported by the project. *Training* activities are those in which individuals with advanced professional skills and experience assist others in attaining greater proficiency. Training activities may include, for example, courses or one-on-one work with a mentor. *Professional development* activities result in increased knowledge or skill in one’s area of expertise and may include workshops, conferences, seminars, study groups, and individual study.

Include participation in conferences, workshops, and seminars not listed under major activities.

For all projects reporting graduate students and/or postdoctoral participants in Section D., describe whether your organization has established Individual Development Plans (IDPs) for those participants. Do not include the actual IDP, instead include information to describe how IDPs are used, if they are used, to help manage the training for those individuals. **This information is not required for AHRQ recipients.**

For T, F, K, R25, R13, D43 and other awards or award components designed to provide training and professional development opportunities, a response is required. Follow the instructions found in the Supplemental Instructions for Training, Education, and Career RPPRs. Do not reiterate what is reported under Accomplishments. Limit the response to this reporting period.

▼ B.4 What opportunities for training and professional development has the project provided?

If the research is not intended to provide training and professional development opportunities or there is nothing significant to report during this reporting period, select "Nothing to Report."

Describe opportunities for training and professional development provided to anyone who worked on the project or anyone who was involved in the activities supported by the project. "Training" activities are those in which individuals with advanced professional skills and experience assist others in attaining greater proficiency. B.5 How have results been disseminated to communities of interest?

Describe how the results have been disseminated to communities of interest. Include any outreach activities that have been undertaken to reach members of communities who are not usually aware of these research activities, for the purpose of enhancing public understanding and increasing interest in learning and careers in science, technology, and the humanities.

Reporting the routine dissemination of information (e.g., websites, press releases) is not required. For awards not designed to disseminate information to the public or conduct similar outreach activities, a response is not required and the recipient should select **Nothing to Report**. A detailed response is only required for awards or award components that are designed to disseminate information to the public or conduct similar outreach activities. Note that scientific publications and the sharing of research resources will be reported under *Products*.

Figure 96 RPPR Section B. Accomplishments – Question B6

NIH RPPR Instruction Guide

For SBIR/STTR Awards progress reports should include a one-page abstract describing the research plan. For Fast-Track and Phase II, as necessary, an updated commercialization plan should also be included.

6.3 Section C – Products

The RPPR section C. Products allows agencies to assess and report both publications and other products to Congress, communities of interest, and the public.

The product types listed in Sections C.1 – C. 5 below are not mutually exclusive. Please select one primary product type under which to provide a description for the product, and assign additional product types, if applicable. Limit the response to this reporting period.

C.1 Publications.

Are there publications or manuscripts accepted for publication in a journal or other publication (e.g., book, one-time publication, monograph, preprint) during the reporting period resulting directly from the award?

What to Report

Recipients must report publications in section C.1 if: (1) the publication was accepted for publication or made public during the initial reporting period and the period since the last progress report was submitted and (2) the publication directly arises from the award (e.g., the award supported trainees or personnel activity that contributed to the publication, such as authorship, consulting with authors, preparing manuscripts, running analyses reported in the publication). Publications listed in other parts of the RPPR will not be tracked as award products.

Publications can include preprints, which are complete and public draft of a scientific document. Preprints are typically un-reviewed versions of peer-reviewed journal articles. Publications that are not peer-reviewed are not covered by the NIH Public Access Policy. See [Interim Research Products FAQs](#) for more information.

To claim an interim research product as a product of an NIH award, the NIH expects that the recipient has:

- Made the product publicly available. To maximize the impact of an interim research product, the NIH strongly encourages recipients to select a Creative Commons Attribution ([CC-BY](#)) license or dedicate their work to the [public domain](#).
- In the text of the document:
 - Acknowledged NIH funding in accordance with [NIH Grants Policy Statement Chapter 8.2.1](#)
 - Clearly stated that the work is not peer-reviewed
 - Declared any competing interests, as an author would do for any journal article

Publications that [fall under the NIH Public Access Policy \(NOT-OD-25-047\)](#) and are non-compliant must be reported. NIH recipients are responsible for public access compliance of all the publications listed in section C1.

Generally, it takes weeks to bring non-compliant publications into compliance; PD/PIs are advised to do so as soon as possible to ensure their award is renewed in a timely manner. For more information, see [Manage Compliance with the NIH Public Access Policy in My NCBI](#) and the NIH Public Access [website](#).

When an award's only contribution to a publication is non-personnel resources (e.g., materials, equipment, data), applicants should not list the paper in section C. The recipient is neither responsible

NIH RPPR Instruction Guide

for providing a full listing of these publications, nor for ensuring compliance of these publications with the public access policy. Recipients submitting an RPPR may list these papers in Section B.2 which requests a description of accomplishments, including other achievements. These publications will not count against the section B.2's two-page limit and will not be tracked as a product of this award.

How to Report

If there are publications to report select **Yes** and ensure that the **Associate with this RPPR** box is checked as appropriate. If there are no publications to report select **No**. The tables draw information from the PD/PI's My NCBI account.

Note that the publication data in these tables is dynamic until the progress report is submitted to the agency. Any change to the data occurring in PubMed, PubMed Central, the PD/PI's My Bibliography account, or in the compliance status of a publication, will refresh upon saving the C.1 Products section, or opening the RPPR in another session. When the progress report is submitted to the agency, the publication data is frozen in the progress report.

Table 1: All Publications Associated with this Project in My NCBI

The first table, **All Publications Associated with this Project in My NCBI**, lists all publications that are in the PD/PI's My Bibliography collection, are associated with this award, and have not been reported in previous electronic progress reports for this award.

The first column **Associate with this RPPR** is automatically checked. Leaving the box checked upon submission does the following: (1) associates the publication with this progress report; (2) results in the publication being displayed in RePORTER; and (3) makes the award-publication association in My NCBI permanent and the association will be reported in PubMed. Unchecking the box does the following: (1) disassociates the publication with this progress report, and (2) upon submission of the RPPR to NIH, removes the award-publication association in My NCBI.

The second column, **NIH Public Access Compliance**, indicates the current compliance status with the NIH Public Access Policy. This information is from My NCBI.

AHRQ recipients should refer to NOT-HS-16-008 (<https://grants.nih.gov/grants/guide/notice-files/not-hs-16-008.html>) for AHRQ's Policy for Public Access to AHRQ-Funded Scientific Publications.

Table 2: Publications Not Associated with this Project in My NCBI

The second table, **Publications not associated with this project in My NCBI**, lists all other publications that are listed in the PD/PI's My Bibliography collection with no association to this award. Checking **Associate with this RPPR** box will associate a publication with the award both in the progress report and in My NCBI.

Refreshing this screen (i.e., clicking the **Save** button) will also move the newly associated publications from this table to the first table. Similarly, publications disassociated in the first table will appear in this table when the screen is refreshed.

Table 3: Publications Previously Reported for this Project

The final table, **Publications previously reported for this project**, only lists publications reported in a previous electronic progress report for this award. Recipients are responsible for ensuring that these publications comply with the Public Access policy even if they were provisionally compliant (listed as *in Process*) when previously reported.

NIH RPPR Instruction Guide

Submitting an RPPR with Noncompliant Publications

▼ C.1 Publications

Are there publications or manuscripts accepted for publication in a journal or other publication (e.g., book, one-time publication, monograph, or preprint) during the reporting period resulting directly from this award? Yes No

▼ All publications associated with this project in My NCBI

NIH Manuscript Submission System Status: Available

Note: Citations marked with a gold lock icon are associated with funding via NIHMS and cannot be removed from this RPPR. If your award did not support this paper, contact the [NIHMS help desk](#). Additional information and instructions are also available at the FAQ found here: "[This award did not support this research.](#)"

If yes, select from the table below to affiliate publications with this progress report.
If you need to login to My NCBI account please use this link: [My NCBI](#)

Filter Table < v >

Filter Table < v >

Associate with this RPPR	Public Access Compliance ^	Citation
Nothing Reported		

Figure 97 RPPR Section C. Products – Question C1

Publications that [fall under the NIH Public Access Policy \(NOT-OD-25-047\)](#) and are non-compliant still must be reported. When non-compliant papers are reported, the system will generate an automated email to the PD/PI (with cc to the AO and SO) requesting that the recipient provide evidence of compliance or an explanation by a specified due date two weeks prior to the next budget start date.

Responding to Non-compliance Notifications

To bring a publication into compliance, please follow the submission instructions developed by PubMed Central (<https://pmc.ncbi.nlm.nih.gov/about/submission-methods/>). NIH cannot accept anything other than compliance with the policy except in the rarest of circumstances, such as a death of the sole author.

The recipient must respond to this non-compliance notification either via an email to the GMS and PO, or may respond via the Progress Report Additional Materials (**PRAM**) link found on the eRA Commons Status page. The simplest way to provide evidence of compliance is to generate a My NCBI PDF report (https://www.ncbi.nlm.nih.gov/books/NBK53595/#mybibliography.Creating_an_Award_Complia) of the formerly non-compliant publications. The **PRAM** link provides a text box in which the recipient may respond through the eRA Commons and link to attach the My NCBI PDF report. The recipient will be able to view the PRAM in the grant folder. See the topic in this document titled [Public Access Progress Report Additional Materials \(PRAM\)](#) for more information.

My NCBI Management

PD/PIs can log in to their [My NCBI account](#). PD/PIs that do not have a My NCBI account can create one by simply logging in to My NCBI with their eRA Commons credentials, which will automatically create a My NCBI account. Any changes made to their My Bibliography collection will be reflected in the RPPR once the screen is refreshed (i.e., by clicking the **Save** button). For more information on My NCBI, see [My NCBI Help](#).

C.2 Website(s) or other internet site(s).

List the URL for any Internet site(s) that disseminates the results of the research activities. A short description of each site should be provided. It is not necessary to include the publications already specified above.

A description is only required for awards designed to create or maintain one or more websites. If the website disseminates a product that falls into one or more of the other product categories, please click the **New Web/Internet Site** button and select the appropriate category(ies) in the popup that appears (select multiple categories, if appropriate, by holding down the *Ctrl* or *Shift* button while selecting the categories). Limit the response to this reporting period. For awards not designed to create or maintain one or more websites, select **Nothing to Report**.

C.3 Technologies or techniques.

Identify technologies or techniques that have resulted from the research activities. Describe the technologies or techniques and how they are being shared.

PD/PIs are required to report all technologies or techniques that arise from their NIH award in this section. If there are technologies or techniques to report, select **Yes** and enter a short description. If the technology or technique falls into one or more of the product categories, please click the **New Technology/Technique** button and select the appropriate category(ies) in the popup that appears (select multiple categories, if appropriate, by holding down the **Ctrl** or **Shift** button while selecting the categories). If there are no technologies or techniques to report select **Nothing to Report**. Limit the response to this reporting period.

NIH RPPR Instruction Guide

▼ C.2 Website(s) or other Internet site(s)

List the URL for any Internet site(s) that disseminates the results of the research activities. A short description of each site should be provided. It is not necessary to include the publications already specified above.

A description is only required for awards designed to create or maintain one or more websites. If the website disseminates a product that falls into other product categories, please select the appropriate category(ies) from the pull-down menu (select multiple categories by holding down the Ctrl button while selecting the categories). Limit the response to this reporting period. For awards not designed to create or maintain one or more websites, select "Nothing to Report".

Figure 98 RPPR Section C. Products – Questions C2 & C3

C.4 Inventions, patent applications and/or licenses.

Have inventions, patent applications and/or licenses resulted from the award during this reporting period?

If yes, has this information been previously provided to the PHS or to the official responsible for patent matters at the grantee organization?

Reporting of inventions through iEdison is mandatory.

C.5 Other products and resource sharing.

C.5.a Other Products

Identify any other significant products that were developed under this project.

For SBIR/STTR Awards commercial technologies will be addressed under Impact.

PD/PIs are required to report all products that arise from their NIH award in section C. If there are other products to report not covered in Sections C1 – C4, click the **New Product** button, then choose the appropriate product category(ies) in the popup that appears (select multiple categories, if appropriate, by holding down the Ctrl or Shift button while selecting the categories). If there is more than one product to report, click the **New Product** button again to add an additional product. Limit the response to this reporting period.

NIH RPPR Instruction Guide

Please assign products reported in Sections C.3 Technologies and Techniques and C.5a Other Products to the following categories. Please choose as many categories as applicable for each of the product(s) reported. If the product(s) has been reported or shared through a publication, please include the full reference and/or PubMed ID in the product description.

Product Categories:

- 1) Audio or video
- 2) Data or Databases
- 3) Research Material
- 4) Educational aids or curricula
- 5) Evaluation Instruments
- 6) Instruments or equipment
- 7) Models
- 8) Physical collections
- 9) Protocols
- 10) Software
- 11) Survey Instruments
- 12) Interventions (e.g., clinical or educational)
- 13) New Business Creation
- 14) Other

The Other category can include interim research products, which are complete, public research products that are not final. Do not report interim versions of these products unless they are complete drafts and public.

For example, if a recipient made a draft of their survey public, it would be an interim research product/ listed under product category 11. If the draft was not public, or was missing key questions, do not report it.

Citations for interim products must include the Digital Object Identifier and the Object type (e.g. preprint, protocol) in the citation. Also list any information about the document version (e.g. most recent date modified), and if relevant, the date the product was cited. For more information, see the [Interim Research Product FAQs](#) .

Example: Bar DZ, Atkatsk K, Tavarez U, Erdos MR, Gruenbaum Y, Collins FS. Biotinylation by antibody recognition- A novel method for proximity labeling. BioRxiv 069187 [**Preprint**]. August 11, 2016 [cited 2017 Jan 12]. Available from:<https://doi.org/10.1101/069187>.

Specifically, to claim an interim research product as a product of an NIH award, the NIH expects that the recipient will:

- Make the product publicly available. To maximize the impact of an interim research product, the NIH strongly encourages recipients to select a Creative Commons Attribution (CC-BY) license or dedicate their work to the [public domain](#).
- In the text of the document:
 - Acknowledge NIH funding in accordance with [NIH Grants Policy Statement Chapter 8.2.1](#)
 - Clearly state that the work is not peer-reviewed

NIH RPPR Instruction Guide

- Declare any competing interests, as an author would do for any journal article

C.5.b Resource Sharing

PD/PIs and recipient organizations are expected to make the results and accomplishments of their activities available to the research community and to the public at large. For additional information on NIH Sharing Policies and Related Guidance on NIH-Funded Research Resources see [Scientific Data Sharing: Policies and Access to Data](#).

If the initial research plan addressed, or the terms of award require, a formal plan for sharing final research data, model organisms, Genome Wide Association Studies data, or other such project-specific data, describe the progress in implementing that plan. For sharing model organisms, include information on the number of requests received and number of requests fulfilled during this reporting period. If the sharing plan is fully implemented, provide a final statement on data sharing.

For NIH recipients:

NIH recipients subject to the 2023 NIH Data Management and Sharing Policy must report activities related to their approved Data Management and Sharing (DMS) Plan in C.5.c. Data Management and Sharing. See [NIH Grants Policy Statement 8.2.3.1](#) and the [NIH Scientific Data Sharing](#) website for additional information. These recipients must only report on activities related to a Resource Sharing Plan in C.5.b when applicable (i.e., sharing model organisms or research tools).

▼ C.4 Inventions, patent applications, and/or licenses

Have inventions, patent applications and/or licenses resulted from the award during this reporting period? Yes No

If yes, has this information been previously provided to the PHS or to the official responsible for patent matters at the grantee organization? Yes No

Reporting of inventions through [iEdison](#) is strongly encouraged.

▼ C.5 Other products and resource sharing

C.5.a Other Products

Identify any other significant products that were developed under the overall award. Report other products and resources resulting from an individual component under that component.

PD/PIs are required to report all products that arise from their NIH award in section C. If there are other products to report not covered in Sections C1 - C4, select the "+ New Product" button to describe the product and choose the appropriate product category(ies) from the Category list (select multiple categories by holding down the Ctrl or Shift buttons while selecting the categories). If there is more than one product to report, select "New product" again to include additional products. URL(s) for Internet site(s) can be used in the Other products text box. Limit the response to this reporting period.

Figure 99 RPPR Section C. Products – Questions C4 & C5.a and C5.b

C.5.c Data Management and Sharing

Question C.5.c is only for NIH recipients subject to the 2023 NIH Data Management and Sharing Policy. Refer to the table in chapter 7 “Supplemental Instructions for Specific Grant RPPR Types”, and follow the appropriate instruction for the applicable activity code of the award. See [NIH Grants Policy Statement 8.2.3.1](#) and the [NIH Scientific Data Sharing](#) website for additional information.

Question C.5.c will automatically indicate if the award is Applicable, or Not Applicable to the 2023 NIH Data Management and Sharing Policy based on the award designation that automatically coded in the system. Contact the NIH Grants Management Specialist on the most recent Notice of Award with any questions about the applicability of the 2023 NIH Data management and Sharing Policy to the Notice of Award (NoA).

Describe activities related to the approved Data Management and Sharing Plan; see [NIH Data Management and Sharing Policy](#) website.. For each Data Type identified in the approved DMS Plan, provide the following information, as applicable:

- Data Type
- Has data been generated to date? (Y/N) *
- Has the data been shared (i.e., made available for use by others)? (Y/N) *
- If data has NOT been shared, what is the status of data sharing (e.g., being prepared for submission, submitted to repository, not yet expected to be shared)
- Repository
- Unique Identifiers/Digital Object Identifier (DOI)

**If data has not been generated and/or shared as outlined in the approved Plan, describe why, and identify any corrective actions that have or will be taken to comply with the approved plan.*

Provide information on all activities related to the approved Data Management and Sharing (DMS) Plan in section C.5.c. Select the **Add DMSP Information** button, then enter the requested information for each Data Type as noted above. If there is more than one Data Type to report, select the **Add DMSP Information** button again to add an additional Data Type. Limit the response to this reporting period.

Are significant prospective changes to the Data Management and Sharing Plan being requested for the coming year (e.g., change in repository, change in timeline, or change in scientific direction)?

Select “No Change” if there are no changes being required for the coming year.

If yes, enter description of the change(s) and upload revised Data Management and Sharing Plan for approval.

Enter the description of the change(s) being requested. Include the effective date of the requested change(s), the rationale and justification for the requested change(s) and describe how the revised DMS Plan impacts the budget for the coming and future budget period(s). Note: This is not a supplement request.

Upload the revised DMS Plan as a PDF file. The file must be named “DMS Plan Revision” (without quotations).

C.5.c Data Management and Sharing

Describe activities related to the approved Data Management and Sharing Plan (DMSP). For each Data Type identified in the approved DMS Plan, provide the following information, as applicable:

Applicable Not Applicable + Add DMSP Information

6.4 Section D – Participants

The RPPR Section D. allows the agency to know who has worked on the project (or may be working in the upcoming budget period) to gauge and report performance in promoting partnerships and collaborations.

D. Participants ?

Remember to save all your changes before leaving the page.

For the Biographical Sketch Common Form, NIH Biographical Sketch Supplement, and Current and Pending (Other) Support Common Form DO NOT flatten once certified and downloaded from SciEncv.

All other files must be flattened PDF files for successful submission. This ensures that PDFs cannot be edited following submission. [Instructions for flattening PDFs](#)

eRA Commons User ID:
 A Commons ID is required for: (1) all Senior/Key Personnel (see [NOT-OD-21-109](#)); (2) all individuals with a postdoctoral, graduate or undergraduate role (see [NOT-OD-13-097](#)) and (3) all individuals required to provide a Biographical Sketch Common Form and/or Current and Pending (Other) Support Common Form. For all other project personnel with an established Commons ID, it should be provided.

- Commons IDs can be created by contacting the signing official of their organization.
- Individuals with these roles on a project are required to complete their Commons Personal Profile.
- Individuals with a Graduate Student role must enter at least one degree, and those with a Postdoctoral role must enter a doctoral degree. Degrees can be entered under the individual's Personal Profile found after they log into Commons.

Expand/Collapse All

D.1 What individuals have worked on the project? List of Participants

Provide or update the information for individuals who have worked during the reporting period or may be working on the project during the upcoming budget period:

- Program director(s)/principal investigator(s) (PDs/Pis);
- Each person who has worked at least one person month per year on the project during the reporting period, regardless of the source of compensation;
- All individuals required to submit a Biographical Sketch Common Form and/or Current and Pending (Other) Support Common Form in the RPPR:
 - New Senior/Key Personnel;
 - Senior/Key Personnel with changes in active Current and Pending (Other) Support since the last reporting period;
 - New Other Significant Contributors.

Do not report/include:

- Personnel for whom a PHS 2271 Appointment form has been submitted through xTrain;
- Existing Other Significant Contributors;
- Existing Personnel (other than the PD/PI) that worked less than 1.0 person month on the project.

For Final and Interim RPPRs, recipients should only report on the individuals/staff that worked on the project during the last budget period minus any approved no-cost extensions.

Provide the name, Degree, and identify the role the person played in the project. Show the most senior role in which the person has worked on the project for any significant length of time. For example, if an undergraduate student graduates, enters graduate school, and continues to work on the project, show that person as a graduate student.

- Individuals with a [postdoctoral-like role](#) should be identified as Postdoctoral Scholar, Fellow, or Other Postdoctoral Position.
- For Other Significant Contributors new to this project, select "Other" and specify "OSC".

Person Months Effort for each individual in D.1 is retrospective for the prior reporting period and should be 1.0 or greater and rounded to the nearest one-tenth (i.e., one decimal place) of a person month that the individual worked on the project (unless otherwise noted in the RPPR Instructions).

For more information on calculating person months refer to [Frequently Asked Questions \(FAQs\) - Usage of Person Months](#)

Required fields are marked with an *.

Figure 101 RPPR Section D. Participants – Question D1

D.1 What individuals have worked on the project?

Provide or update the information for individuals who have worked during the reporting period or may be working on the project during the upcoming budget period:

- (1) Program director(s)/principal investigator(s) (PDs/Pis);
- (2) Each person who has worked at least one person month per year on the project during the reporting period, regardless of the source of compensation;
- (3) All individuals required to submit a Biographical Sketch Common Form and/or Current and Pending (Other) Support Common Form in the RPPR:
 - a. New Senior/Key Personnel;
 - b. Senior/Key Personnel with changes in active Current and Pending (Other) Support since the last reporting period;
 - c. New Other Significant Contributors.

NIH RPPR Instruction Guide

Do not report/include:

- (1) Personnel for whom a PHS 2271 Appointment form has been submitted through xTrain;
- (2) Existing Other Significant Contributors;
- (3) Existing Personnel (other than the PD/PI) that worked less than 1.0 person month on the project.

For Final and Interim RPPRs, recipients should only report on the individuals/staff that worked on the project during the last budget period minus any approved no-cost extensions.

Individual Certification Reminders:

Individuals serving as senior/key personnel must certify annually to their participation or non-participation in a Malign Foreign Talent Recruitment Program (MFTRP). See [NOT-OD-26-018: NIH's Implementation of Common Forms for Biographical Sketch and Current and Pending \(Other\) Support for Due Dates on or after January 25, 2026](#).

See instructions in Section G.1, Special Notice of Award and Funding Opportunity Announcement Reporting Requirements, for specific details on how to meet this requirement.

Required fields are marked with an *** in the User Interface (UI)**

Commons ID: Entering the eRA Commons User ID allows selection of “Populate from Profile” which will partially populate the individual’s information. Those with an Administrator role in the eRA Commons may search for a user’s Commons ID by following the instructions at: [Search for Commons User Accounts](#)

A Commons ID is required for: (1) all Senior/Key Personnel (see [NOT-OD-21-109](#)); (2) all individuals with a postdoctoral, graduate or undergraduate role (see [NOT-OD-13-097](#)) and (3) all individuals required to provide a Biographical Sketch Common Form and/or Current and Pending (Other) Support Common Form. For all other project personnel with an established Commons ID, it should be provided.

ORCID: Provide the Open Researcher and Contributor ID (ORCID) of the person who worked on the project. Individuals required to submit a Biographical Sketch Common Form and/or Current and Pending (Other) Support Common Form in the RPPR should ensure that the ORCID provided aligns with the ORCID linked to the eRA Commons User ID.

Name: Provide the name of the person who worked on the project.

Degree(s): Provide the degree of the person who worked on the project.

Supplement Support: This is no longer required for NIH. “Not Applicable” is prepopulated for all personnel and should not be adjusted.

Project Role: Identify the role the person played in the project. This should be the most senior role in which the person has worked on the project for any significant length of time. For example, if an undergraduate student graduates, enters graduate school, and continues to work on the project, show that person as a graduate student.

NIH RPPR Instruction Guide

PD/PI names and information from their Commons Profile(s) will be prepopulated. To update the PD/PI information as displayed, go to the Commons Profile and save the changes there. For all other personnel, select from a dropdown menu of the following options:

- Co-Investigator
- Faculty
- Postdoctoral Scholar, Fellow or Other Postdoctoral Position
- Technician
- Staff Scientist (doctoral level)
- Statistician
- Graduate Student (research assistant)
- Non-Student Research Assistant
- Undergraduate Student
- High School Student
- Consultant
- Other (specify via text entry)

Individuals with a postdoctoral-like role should be identified as Postdoctoral Scholar, Fellow, or Other Postdoctoral Position.

For Other Significant Contributors new to this project, select “Other” and specify “OSC.”

Person Months: The metric for expressing the effort (amount of time) devoted to a specific project. A person month equals approximately 160 hours or 8.3% of annualized effort). The effort is based on the type of appointment of the individual with the organization; e.g., calendar year, academic year, and/or summer term; and the organization's definition of such. For instance, some organizations define the academic year as a 9-month appointment while others define it as a 10-month appointment.

Effort for each individual in D.1 is retrospective for the prior reporting period and should be 1.0 or greater and rounded to the nearest one-tenth (i.e., one decimal place) of a person month that the individual worked on the project.

Include effort for the following individuals:

- (1) PD/PI - Effort must be between 0.1 and 12.0. For measurable effort less than 0.05, round up to 0.1. Effort cannot be zero (0.0) unless allowed by policy such as in the case of Institutional Training Grants.
- (2) Each person who has worked at least one person month on the project during the reporting period, regardless of the source of compensation - Effort must be between 1.0 and 12.0 and cannot be zero (0.0).
- (3) All individuals required to submit a Biographical Sketch Common Form and/or Current and Pending (Other) Support Common Form in the RPPR:
 - a. New Senior/Key Personnel - Effort must be between 0.1 and 12.0. For measurable effort less than 0.05, round up to 0.1. Effort cannot be zero (0.0) unless individual is being added/promoted as Senior/Key Personnel during the next budget period, in which case, effort should be entered as zero (0.0).

NIH RPPR Instruction Guide

- b. Senior/Key Personnel with changes in active Current and Pending (Other) Support since the last reporting period - Effort must be between 1.0 and 12.0, rounded to the nearest one-tenth and cannot be zero (0.0).
- c. New Other Significant Contributors - Effort must be entered as zero (0.0).

For more information on calculating person months refer to [Frequently Asked Questions \(FAQs\) - Usage of Person Months](#)

Senior/Key Personnel (Y/N):

Is this participant considered Senior/Key Personnel?

If yes, please answer the questions concerning “New Senior/Key Personnel” and “Changes in Current and Pending (Other) Support”; If no, please answer the question concerning (New Other Significant Contributors”.

Senior/Key Personnel?*

i For a definition of Senior/Key Personnel See the NIH Grants Policy Statement [Section 1.2 Definition of Terms](#)

Yes
 No

New Senior/Key Personnel *

Is this Senior/Key Person contributing measurable effort and:

(1) new to the project since the last reporting period
(2) currently participating on the project but was elevated to a Senior/Key Role during the last reporting period
(3) will be new to the project for the next reporting period; or
(4) currently participating on the project but will be elevated to a Senior/Key Role during the next reporting period?

Yes
 No

Figure 102 Senior/Key Personnel section of D.1

Senior/key personnel are defined as the PD/PI and other individuals identified by the recipient organization as individuals who contribute to the scientific development or execution of a project in a substantive, measurable way, whether or not they receive salaries or compensation under the grant. Typically, these individuals have doctoral or other professional degrees, although individuals at the masters or baccalaureate level may be considered senior/key personnel if their involvement meets this definition. Consultants and those with a postdoctoral role also may be considered senior/key personnel if they meet this definition. Other Significant Contributors are not considered Senior/Key Personnel.

New Senior/Key Personnel.

Is this Senior/Key Person contributing measurable effort and:

- (1) new to the project since the last reporting period;***
- (2) currently participating on the project but was elevated to a Senior/Key Role during the last reporting period;***
- (3) will be new to the project for the next reporting period; or***
- (4) currently participating on the project but will be elevated to a Senior/Key Role during the next***

reporting period?

If yes, upload a Biographical Sketch Common Form/NIH Biographical Sketch Supplement, Current and Pending (Other) Support Common Form and Supplemental Documentation for this individual.

Submit this documentation using the required forms and instructions found in [SciENcv: Science Experts Network Curriculum Vitae](#). For additional information on the Common Forms see our [Frequently Asked Questions \(FAQs\) - Common Forms for Biographical Sketch and Current and Pending \(Other\) Support](#).

New Other Significant Contributors.

Is this participant a new Other Significant Contributor:

- (1) new to the project since the last reporting period; or
(2) will be new to the project for the next reporting period?*

Other Significant Contributors are individuals who have committed to contribute to the scientific development or execution of the project but are not committing any specified measurable effort (i.e., person months) to the project.

If yes, upload a Biographical Sketch Common Form/NIH Biographical Sketch Supplement for this individual.

NIH RPPR Instruction Guide

Is the individual's primary affiliation with a foreign organization?

Check **No** if the individual's primary affiliation is with a foreign organization but the individual is working on this award solely while in the U.S.

If **Yes**, provide the name of the organization and country. Select the **Add Participant** button to add the data to the table.

Is the individual's primary affiliation with a foreign organization? *

Select "no" if the individual's primary affiliation is with a foreign organization but the individual is working on this award solely while in the U.S.

Yes

No

Figure 106 Is the individual affiliated with a foreign organization question

D.1 Personnel Updates

D.2.a Level of effort.

Will there be, in the next budget period, either (1) a reduction of 25% or more in the level of effort from what was approved by the agency for the PD/PI(s) or other senior/key personnel designated in the Notice of Award, or (2) a reduction in level of effort below the minimum amount of effort required by the Notice of Award?

D.2.a Level of Effort

Will there be, in the next budget period, either

1. a reduction of 25% or more in the level of effort from what was approved by the agency for the PD/PI(s) or other senior/key personnel designated in the Notice of Award, or
2. a reduction in the level of effort below the minimum amount of effort required by the Notice of Award?

Yes No

Reductions are cumulative, i.e., the 25% threshold may be reached by two or more successive reductions that total 25% or more. Once agency approval has been given for a significant change in the level of effort, then all subsequent reductions are measured against the approved adjusted level. Selecting "yes" constitutes a prior approval request to the agency and the issuance of a subsequent year of funding constitutes agency approval of the request.

If yes, provide an explanation below

700 characters remaining

Figure 107 D.2.a Level of Effort section

Reductions are cumulative, i.e., the 25% threshold may be reached by two or more successive reductions that total 25% or more. Once agency approval has been given for a significant change in the level of effort, then all subsequent reductions are measured against the approved adjusted level. Selecting **Yes** constitutes a prior approval request to the agency and the issuance of a subsequent year of funding constitutes approval of the request.

D.2.b, D.2.c and D.2.d have been merged into D.1 for each individual participant.

D.2.e Will there be a change in the MPI Leadership Plan for the next budget period?

Change in status of PD/PI requires prior approval of the agency (as per [NIH Grants Policy Statement, 8.1.2.6](#)). In accordance with the [NIH Grants Policy Statement, 9.5](#), revision of the Leadership Plan during the project period may be accomplished through a joint decision of the PD/PIs and reported in the RPPR. Prior approval of a change in the MPI Leadership Plan is not required.

Figure 108 D.2.e Multi-PI (MPI) Leadership Plan section

If yes, upload a revised MPI Leadership Plan that includes a description of the change(s).

All multiple PD/PI awards have a Leadership Plan that describes the roles and areas of responsibility of the named PD/PIs, the process for making decisions concerning scientific directions, allocation of resources, disputes that may arise, and other information related to the management of the proposed team science project. If there has been any change in the governance and/or organizational structure of the Leadership Plan, provide a description, including communication plans and procedures for resolving conflicts, and any changes to the administrative, technical, and scientific responsibilities of the PD/PIs. If the progress report includes a change in the Contact PD/PI (*Cover Page, A.1*) address this change and the impact, if any, the change has on the administrative, technical, and scientific responsibilities of the PD/PIs. A request to change from a multiple PD/PI model to a single PD/PI model, or a change in the number or makeup of the PD/PIs on a multiple PD/PI award, requires the prior approval of the GMO. The progress report is not the appropriate vehicle to request such a change.

6.5 Section E – Impact

The RPPR Section E Impact will be used to describe ways in which the work, findings, and specific products of the project have had an impact during this reporting period.

E.1 Not Applicable for most awards. See chapter 7 Supplemental Instructions.**E.2 What is the impact on physical, institutional, or information resources that form infrastructure?**

Describe ways, if any, in which the project made an impact, or is likely to make an impact, on physical, institutional, and information resources that form infrastructure, including:

- physical resources (such as facilities, laboratories, or instruments);
- institutional resources (such as establishment or sustenance of societies or organizations);
or
- information resources, electronic means for accessing such resources or for scientific communication, or the like.

If the award or award component(s) is not intended to support physical, institutional, or information resources that form infrastructure, select **Nothing to Report**.

E.3 Not Applicable for most awards. See chapter 7 Supplemental Instructions.

This section is applicable to SBIR/STTR Awards. See [Supplemental Instructions for Specific Grant RPPR Types](#).

E.4 What dollar amount of the award's budget is being spent in foreign country(ies)?

For domestic recipients provide the dollar amount obligated to first-tier subawards to foreign entities for this reporting period. For foreign recipients provide the dollar amount of the award, excluding all first-tier subawards to U.S. entities, for this reporting period.

Dollars provided should reflect total costs.

If more than one foreign country, identify the distribution between the foreign countries.

Report only cumulative first-tier subawards dollars by country. Do not report foreign travel, purchases, etc., unless part of a first-tier subaward to a foreign country.

Select the **Add Amount** button to add the data to the table.

Figure 110 RPPR Section F. Changes – Questions F1 & F2

F.3 Significant changes to human subjects, vertebrate animals, biohazards, and/or select agents.

Describe significant deviations, unexpected outcomes, or changes in approved protocols for human subjects, vertebrate animals, biohazards and/or select agents during this reporting period.

Remember that significant changes in objectives and scope require prior approval of the agency (e.g., NIH Grants Policy Statement, 8.1.2.). If there are changes in any of the following areas, check the appropriate box and provide a description of the changes.

F.3.a Human Subjects

If human subject studies are or will be different from the previous submission, include a description and explanation of how the studies differ and provide new or revised Protection of Human Subjects Section and Inclusion of Women, Minorities, and Children sections as described in the competing application instructions. Additional or modified inclusion enrollment reports may also be necessary and should be provided by clicking the Human Subjects link in Section. G.4 of the RPPR to make necessary updates in the Human Subjects System (HSS).

F.3.b Vertebrate Animals

If there are or will be significant changes to the uses of vertebrate animals from the previous submission, provide a description of the changes. Examples of changes considered to be significant include, but are not limited to, changing animal species, changing from noninvasive to invasive procedures, new project/performance site(s) where animals will be used, etc. If studies involving live vertebrate animals are planned and were not part of the originally proposed research design, provide a new or revised Vertebrate Animal Section as described in the competing application instructions.

F.3.c Biohazards

If the use of biohazards is or will be different from that in the previous submission, provide a description and explanation of the difference(s).

F.3.d Select Agents

If the possession, use, or transfer of Select Agents is or will be different from that proposed in the previous submission, including any change in the select agent research location and/or the required level of biocontainment, provide a description and explanation of the differences. If the use of Select Agents was proposed in the previous submission but has not been approved by regulatory authorities, provide an explanation. If studies involving Select Agents are planned and were not part of the originally proposed research design, provide a description of the proposed use, possession, transfer, and research location as described in the competing application instructions.

Figure 111 RPPR Section F Changes- Question F3

6.7 Section G – Special Reporting Requirements

The RPPR Section G Special Reporting Requirements address agency-specific award terms and conditions, as well as any award specific reporting requirements.

G.1 Special Notice of Award Terms and Notice of Funding Opportunity Reporting Requirements

Address any special reporting requirements specified in the award terms and conditions in the Notice of Award (NoA) or Notice of Funding Opportunity (NOFO).

For NIH RPPRs submitted on or after January 25, 2026, individuals serving as senior/key personnel must certify annually to their participation or non-participation in a Malign Foreign Talent Recruitment Program (MFTRP) by uploading a certification statement in Section G.1 as a flattened PDF.

The certification statement language must align with the statement within the Common Forms for Biosketch and Current and Pending (Other) Support, and state: *I [insert name] certify that, at the time of submission, I am not a party to a malign foreign talent recruitment program.*

The file for each senior/key person must be named ‘MFTRPcert_[Name].pdf’ without quotations, where ‘[Name]’ is the name of the senior/key person. See [NOT-OD-26-018](#) for more information.

For Ruth L. Kirschstein National Research Service Award (NRSA) Institutional Training Awards an attachment must be provided that specifies the number of trainees who used childcare costs in the reporting period. Follow the instructions found in the Supplemental Instructions for Training RPPRs.

NIH requires SBIR/STTR grant recipients to submit the Life Cycle Certifications within the Interim and Final RPPR in this section. Forms must be uploaded directly and SBIR/STTR recipients should not select the “Nothing to Report” box in this section. The I-RPPR or F-RPPR will not be accepted unless all completed Life Cycle Certification(s) are received. Life Cycle Certification forms are available for SBIR and STTR applicants and recipients in fillable format at: <https://grants.nih.gov/grants-process/write-application/forms-directory?filter=small-business>.

NIH recipients only:

Have there been any changes that require the submission of an updated [SBIR/STTR Foreign Disclosure Form](#)?

Note: Updated SBIR/STTR Foreign Disclosure Forms must be submitted via the [Foreign Disclosure Request for Additional Materials \(RAM\)](#) feature in eRA Commons.

NIH requires all SBIR/STTR grant recipients to address whether there have been any changes that require the submission of an updated [Required Disclosures of Foreign Affiliations or Relationships to Foreign Countries form](#) (“SBIR/STTR Foreign Disclosure Form”) as part of the Annual, Interim, and Final RPPR in this section. See [NIH Foreign Disclosure and Risk Management](#) website for more information on required disclosures. The SBIR/STTR Foreign Disclosure Form is available for SBIR and STTR recipients in fillable format at: <https://grants.nih.gov/grants-process/write-application/forms-directory/required-disclosures-foreign-affiliations-or-relationships-foreign-countries>

If changes are indicated, recipients must submit an updated SBIR/STTR Foreign Disclosure Form via the “Foreign Disclosure Request for Additional Materials (RAM)” feature in eRA Commons if they have not already done so.

Updated SBIR/STTR Foreign Disclosure Forms must have all questions addressed and the form signed. The completed form must be submitted as a flattened PDF using the Foreign Disclosure RAM feature in eRA Commons. See eRA Commons Online Help for [SBIR/STTR Foreign Disclosure Form—Request for Additional Materials](#).

G.4 Human Subjects.

NIH recipients only:

In RPPR, for question G.4, click the **Human Subjects** link:

▼ G.4 Human Subjects

Please click on the Human Subjects link below to update the Human Subjects and Clinical Trials Information Form(s) for this project, including the inclusion enrollment report(s). Be sure to submit updates before submitting the RPPR [Click here](#) for complete instructions about this requirement.

[Human Subjects](#)

Figure 114 Human Subjects Link

Clicking the **Human Subjects** link opens the Human Subjects System (HSS), shown below:

Figure 115 HSCT Post Submission tab in ASSIST (for Human Subjects)

If conducting NIH-defined clinical research, reporting the cumulative enrollment of subjects and the distribution by sex, race, and ethnicity is required, as defined in the [competing application instructions](#). If there are details or concerns related to inclusion enrollment progress, or if the cumulative enrollment data does not reflect the planned enrollment by sex, race, and/or ethnicity, the reasons for this should be addressed in Section F.3.a of the RPPR.

Update the inclusion enrollment with the total cumulative enrollment data collected to-date on the inclusion enrollment report(s) for each study record. If the last competing application was submitted for due dates January 25, 2019 or later, recipients must update enrollment data by submitting deidentified individual-level participant data using the spreadsheet [template \(downloadable here\)](#) available in the Human Subjects System (HSS). See the [Inclusion Across the Lifespan policy page](#) for more information. Recipients should follow instructions in the [HSS online help](#) to [edit studies](#) as appropriate.

Recipients can edit the inclusion enrollment record(s) in the Human Subjects System using the [“How Do I Edit Studies?”](#) instructions in the [HSS Online Help](#).

Recipients may have more than one inclusion enrollment report. Each inclusion enrollment report must have a unique title. If new clinical studies have started and planned enrollment was not previously provided, create a new Planned Enrollment record in the Human Subjects System. Inclusion enrollment data updates must be submitted in the Human Subjects System prior to submitting the RPPR. Recipients will receive a warning if inclusion enrollment data are not updated prior to submitting the RPPR.

AHRQ recipients only: If inclusion enrollment reporting is required, download and complete the [Cumulative Inclusion Enrollment Report](#), and upload it in Section G.4. If inclusion enrollment reporting is not required, select “Nothing to Report.”

G.4 Human Subjects

G.4.a Does the project involve human subjects? Yes No

Is the research exempt from Federal regulations? Yes No

Does this project involve a clinical trial? Yes No

If yes, is this an NIH-defined Phase III Clinical Trial? Yes No

G.4.b Inclusion Enrollment Data
 Inclusion Enrollment Report
 If inclusion enrollment reporting is required, download and complete the Cumulative Enrollment Report, and upload it in Section G.4.b. If inclusion enrollment reporting is not required, select "Nothing to Report."

G.4.c ClinicalTrials.gov

Does this project include one or more applicable clinical trials that must be registered in ClinicalTrials.gov under FDAAA?
 Yes No

Figure 116 Question G.4 for AHRQ Recipients Only

Guidance for Collecting and Reporting Inclusion Data: Below are instructions for how to collect and report data on the basis of sex, race, age, and ethnicity with additional guidance for handling subpopulations, non-U.S. populations, changes to planned enrollment data, and NIH-defined Phase III clinical trials.

For questions about the NIH policies for inclusion, please refer to the [NIH Inclusion Policies for Human Subjects](#) website or contact the program officer.

Standards for Collecting Data from Study Participants: The [Office of Management and Budget \(OMB\) Directive No. 15](#) defines minimum standards for maintaining, collecting and presenting data on ethnicity and race for all Federal (including NIH) reporting purposes. The categories in this classification are social-political constructs and should not be interpreted as being anthropological in nature. The standards were revised in 1997 and now include two ethnic categories: Hispanic or Latino, and Not Hispanic or Latino. There are five racial categories: American Indian or Alaska Native, Asian, Black or African American, Native Hawaiian or Other Pacific Islander, and White. Reports of data on ethnicity and race should use these categories. The definitions below apply for the ethnic and racial categories.

Ethnic Categories:

Hispanic or Latino: A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race. The term, “Spanish origin,” can be used in addition to “Hispanic or Latino”. **Not Hispanic or Latino**

Racial Categories:

American Indian or Alaska Native: A person having origins in any of the original peoples of North, Central, or South America and maintains tribal affiliation or community.

Asian: A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

Black or African American: A person having origins in any of the black racial groups of Africa. Terms such as “Haitian” or “Negro” can be used in addition to “Black or African American.”

Native Hawaiian or Other Pacific Islander: A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.

White: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

Reporting Data on Race and Ethnicity: NIH is required to use the above standards and definitions for race and ethnicity to allow comparisons to other federal databases, especially the census and national health databases. Federal agencies shall not present data on detailed categories if doing so would compromise data quality or confidentiality standards.

When collecting data on ethnicity and race, as well as sex/gender, use the categories listed to obtain the data from individuals on the basis of self-identification. Participants should be asked to identify their ethnicity and their race. The OMB recommends collecting this information using two separate questions, with ethnicity information collected first followed by race, with the option to select more than one racial designation (<https://www.govinfo.gov/content/pkg/FR-1997-10-30/pdf/97-28653.pdf>). **The NIH inclusion enrollment format is not designed for use as a data collection instrument.** Collect the data using instruments prepared for the study, and use that information to complete the NIH inclusion enrollment form(s). Study participants who self-identify with more than one of the racial categories should be reported in the aggregate in the "More Than One Race" category.

Collecting and Reporting Data on Subpopulations: Each ethnic/racial group contains subpopulations that are delimited by geographic origins, national origins, and/or cultural differences. It is recognized that there are different ways of defining and reporting racial and ethnic subpopulation data. The subpopulation to which an individual is assigned depends on self-reporting of specific origins and/or cultural heritage. Attention to subpopulations also applies to individuals who self-identify with more than one ethnicity or race. These ethnic/racial combinations may have biomedical, behavioral, and/or social-cultural implications related to the scientific question under study. The collection of greater detail is encouraged, e.g., on ethnic/racial subpopulations; however, any collection that uses more detail needs to be organized in such a way that the additional categories can be aggregated into the OMB categories for reporting data on ethnicity, race, and more than one race. Investigators who have data on subpopulations are encouraged to provide that information in the Comments field of the inclusion enrollment forms and/or in the text of their progress report.

Collecting and Reporting Data on Non-U.S. Populations: If conducting NIH-defined clinical research outside of the United States, design culturally appropriate data collection instruments that allow participants to self-identify their ethnic and/or racial affiliation in a way that is meaningful in the cultural and scientific contexts of the study. However, investigators will need to use the OMB-defined categories for reporting sex/gender, race and ethnicity to NIH (see definitions for each ethnic and racial category above), which will allow for completion of the inclusion enrollment form(s). Since OMB categories reference world-based geographic origin, this should facilitate completion of the form(s). **Enrollment of participants at non-U.S. sites should be reported to NIH on a separate inclusion enrollment form from that for reporting participants at U.S. sites, even if they are part of the same study.** For additional guidance and FAQs related to this topic, please refer to:

<https://grants.nih.gov/policy-and-compliance/policy-topics/inclusion> or contact the program officer.

Reporting Data on Age: Recipients who submitted the last competing application January 25, 2019 or later must include deidentified data on sex/gender, race, ethnicity and age at enrollment, for each study participant. Age may be reported in units ranging from minutes to years. Data must be provided in .csv format using the [template](#) provided. See [tip sheet](#) and [video](#) for additional details.

Changes to Planned Enrollment: If there are changes from the planned enrollment originally approved for funding, contact the program officer to discuss updating/revising the planned enrollment, address the change in Section F.3.a of the RPPR, and revise the existing Planned Enrollment for that study by clicking the Human Subjects link to update the record in the Human Subjects System.

Reporting Data on NIH-defined Phase III Clinical Trials: If conducting an NIH-defined Phase III Clinical Trial, report on the cumulative enrollment (as described above) and indicate in Section F.3.a if any data analysis has begun for the trial. If analysis has begun or data have been published, report any progress made in evaluating potential differences on the basis of sex, racial, and/or ethnicity.

Additional Instructions for Clinical Trials:

Studies involving clinical trials must provide the Clinicaltrials.gov identifier (NCT) in Section 1 of the PHS Human Subjects and Clinical Trials Information Form within 21 days of enrollment of the first participant. Recipients may use the “populate” button to bring forward data from Clinicaltrials.gov once the NCT is entered. See the [HSS Online Help](#) for additional information about using this feature.

SECTION 1 - BASIC INFORMATION

* 1.1. Study Title (each study title must be unique)

* 1.2. Is this Study Exempt from Federal Regulations? Yes No

1.3. Exemption Number 1 2 3 4 5 6 7 8

* 1.4. Clinical Trial Questionnaire
If the answers to all four questions below are yes, this study meets the definition of a Clinical Trial.

1.4.a. Does the study involve human participants? Yes No

1.4.b. Are the participants prospectively assigned to an intervention? Yes No

1.4.c. Is the study designed to evaluate the effect of the intervention on the participants? Yes No

1.4.d. Is the effect that will be evaluated a health-related biomedical or behavioral outcome? Yes No

1.5. Provide the ClinicalTrials.gov Identifier (e.g., NCT87654321) for this trial, if applicable
Click the Populate button to retrieve data from ClinicalTrials.gov registration once Identifier is entered.

←

Figure 117 Section 1: Basic Information of HSCT Tab in ASSIST with Populate Button

See [Requirements for Registering & Reporting NIH-funded Clinical Trials for information about the policy requiring reporting in ClinicalTrials.gov](#). If the grant number was entered into [ClinicalTrials.gov](#), the study record identifier (NCT number) may be readily identified by using the ClinicalTrials.gov search filters and entering the grant number in the Study IDs field.

NOTE: Recipients will receive an error preventing submission of an RPPR if there are studies involving clinical trials associated with the RPPR where the registration is due under FDAAA and/or [NIH Policy on Dissemination of NIH-Funded Clinical Trial Information](#) (e.g., study is 21 days after enrollment of the first participant) and no NCT has been entered into the Human Subject Clinical Trial (HSCT) form. To address this error the recipient will need to either provide the NCT number issued by [ClinicalTrials.gov](#), or provide the registration receipt that is received upon submission of the trial registration to [ClinicalTrials.gov](#).

To provide the [ClinicalTrials.gov](#) registration receipt, the recipient must upload the receipt to the [other attachments section of the HSCT form \(Section 5.1\)](#) as a PDF document. The file name must be CTgov_Registration_Receipt.pdf.

Recipients must complete Section 6 – Clinical Trial Milestone Plan (shown below) for all studies involving clinical trials. Note: All anticipated dates entered in Section 6 must be future dates. All actual dates must be the current date or a later date.

SECTION 6 - Clinical Trial Milestone Plan

6.1. Study Primary Completion Date	<input type="radio"/> Anticipated <input type="radio"/> Actual
6.2. Study Final Completion Date	<input type="radio"/> Anticipated <input type="radio"/> Actual
6.3. Enrollment and randomization	
Enrollment of the first participant (Study Start Date)	<input type="radio"/> Anticipated <input checked="" type="radio"/> Actual
25% of planned enrollment recruited by	<input type="radio"/> Anticipated <input type="radio"/> Actual
50% of planned enrollment recruited by	<input type="radio"/> Anticipated <input type="radio"/> Actual
75% of planned enrollment recruited by	<input type="radio"/> Anticipated <input type="radio"/> Actual
100% of planned enrollment recruited by	<input type="radio"/> Anticipated <input type="radio"/> Actual
6.4. Completion of primary endpoint data analyses	<input type="radio"/> Anticipated <input type="radio"/> Actual
6.5. Reporting of results in ClinicalTrials.gov	<input type="radio"/> Anticipated <input type="radio"/> Actual
6.6. Is this an applicable clinical trial under FDAAA?	<input type="radio"/> Yes <input type="radio"/> No

Figure 118 Clinical Trial Milestone Plan, which is on the HSCT form in the Human Subjects System (HSS)

6.1 Study Primary Completion Date

Enter the date (MM/DD/YYYY) that the final participant was examined or received an intervention for the purposes of final collection of data for the primary outcome, whether the clinical study concluded according to the pre-specified protocol or was terminated. In the case of clinical studies with more than one primary outcome measure with different completion dates, this term refers to the date on which data collection is completed for all of the primary outcomes. Select whether this date is anticipated or actual. **This date cannot be modified once set to actual.**

6.2 Study Final Completion Date

Enter the date (MM/DD/YYYY) the final participant was examined or received an intervention for purposes of final collection of data for the primary and secondary outcome measures and adverse events (for example, last participant's last visit), whether the clinical study concluded according to the pre-specified protocol or was terminated. Select whether this date is anticipated or actual.

6.3 Enrollment and randomization

Enrollment of the first participant (Study Start Date): Enter the date (MM/DD/YYYY) of the enrollment of the first participant into the study. From the dropdown menu, select whether this date is anticipated or actual. **This date cannot be modified once set to actual.**

25% of planned enrollment recruited by: Enter the date (MM/DD/YYYY) by which 25% of participants were or will be enrolled. Select whether this date is anticipated or actual.

50% of planned enrollment recruited by : Enter the date (MM/DD/YYYY) by which 50% of participants were or will be enrolled. Select whether this date is anticipated or actual.

75% of planned enrollment recruited by : Enter the date (MM/DD/YYYY) by which 75% of participants were or will be enrolled. Select whether this date is anticipated or actual.

100% of planned enrollment recruited by : Enter the date (MM/DD/YYYY) by which 100% of participants were or will be enrolled. Select whether this date is anticipated or actual.

6.4 Completion of primary endpoint analyses

Enter the date (MM/DD/YYYY) by which the primary endpoint analysis was or will be completed. Select whether this date is anticipated or actual.

6.5 Reporting of results in Clinicaltrials.gov

Enter the date (MM/DD/YYYY) by which results were or will be submitted to Clinicaltrials.gov. Results may be submitted but not yet be posted because they are pending quality control (QC) review by the National Library of Medicine (NLM) or the sponsor or investigator is addressing QC review comments provided by NLM. Select whether this date is anticipated or actual.

6.6 Is this an applicable trial under FDAAA?

Indicate whether the trial is an applicable trial is subject to the registration and reporting requirements in Title VIII of the Food and Drug Administration Amendments Act of 2007 (FDAAA) (PL 110-85). See [Requirements for Registering & Reporting NIH-funded Clinical Trials](#) .

NIH RPPR Instruction Guide

NOTE: Clinical Trials Reporting Requirement: Recipients will receive an error preventing submission of an RPPR if there are studies involving clinical trials associated with the RPPR where results are due under FDAAA and/or [NIH Policy on Dissemination of NIH-Funded Clinical Trial Information](#) (e.g., study is one year after the primary completion date) and have not been submitted in [ClinicalTrials.gov](#). To address this error the applicant will need to submit the results to [ClinicalTrials.gov](#). This error can also be addressed by providing the submission receipt for a (1) Good Cause extension request or (2) Certification of Delayed Submission of Results Information from [ClinicalTrials.gov](#).

To provide the [ClinicalTrials.gov](#) Good Cause Extension request submission receipt or Certification of Delayed Submission Results Information from [ClinicalTrials.gov](#), the applicant will need to upload the receipt to [other attachments section of the HSCT form \(Section 5.1\)](#) as a PDF document. The file name must be CTgov_Extension_Receipt.pdf.

Per the 1993 NIH Revitalization Act, PL 103-43, enacted June 10, 1993, and the 21st Century Cures Act, PL 114-255, enacted December 13, 2016, NIH requires entities conducting NIH-defined Phase III Clinical Trials to include results of valid analyses by sex, race, and ethnicity, in addition to submission in [ClinicalTrials.gov](#).

Figure 119 RPPR Section G. Special Reporting Requirements – Question G.4

G.5 Human Subjects Education Requirement.

Are there personnel on this project who are or will be newly involved in the design or conduct of human subjects research?

If yes, provide the following:

- names of individuals,
- title of the human subjects education program completed by each individual, and a one- sentence description of the program.

G.6 Human Embryonic Stem Cell(s).

Does this project involve human embryonic stem cells?

Only hESC lines listed as approved in the [NIH Registry](#) may be used in NIH funded research.

If yes, identify the hESC Registration number(s) from the NIH Registry.

Select the **Add hESC Number** button to add the data to the table.

If there is a change in the use of hESCs provide an explanation.

G.7 Vertebrate Animals

Does this project involve vertebrate animals?

The screenshot shows a digital form with three sections. Section G.5, 'Human Subjects Education Requirement', asks 'Are there personnel on this project who are or will be newly involved in the design or conduct of human subjects research?' with radio buttons for 'Yes' and 'No'. Section G.6, 'Human Embryonic Stem Cells (hESCs)', asks 'Does this project involve human embryonic stem cells?' with radio buttons for 'Yes' (selected) and 'No'. It includes a blue '+ Add hESC Number' button and a text area for explanations with a '700 characters remaining' indicator. Section G.7, 'Vertebrate Animals', asks 'Does the project involve vertebrate animals?' with radio buttons for 'Yes' (selected) and 'No'.

Figure 120 RPPR Section G. Special Reporting Requirements – Questions G5 through G7

G.8 Project/Performance Sites.

If there are changes to the project/performance site(s) displayed, edit as appropriate.

One of the sites indicated must be the identified as the Primary Performance Site. If including a new Project/Performance Site where either human subjects or vertebrate animals will be involved, address the change under F.3.a, or F.3.b. If a Project/Performance Site is engaged in research involving human subjects, the recipient organization is responsible for ensuring that the Project/Performance Site operates under an appropriate Federal Wide Assurance for the protection of human subjects and complies with [45 CFR Part 46](#) and other NIH human subject related policies described in [Research Policy and Policy Notices for Human Subjects website](#) and the [NIH Grants Policy Statement](#).

For research involving live vertebrate animals, the recipient organization must ensure that all Project/Performance Sites hold OLAW-approved Assurances. If the recipient organization does not have an animal program or facilities and the animal work will be conducted at an organization with an Assurance, the recipient must obtain an Assurance from OLAW prior to the involvement of vertebrate animals.

Select the **Add Project/Performance Sites** button to add the data to the table.

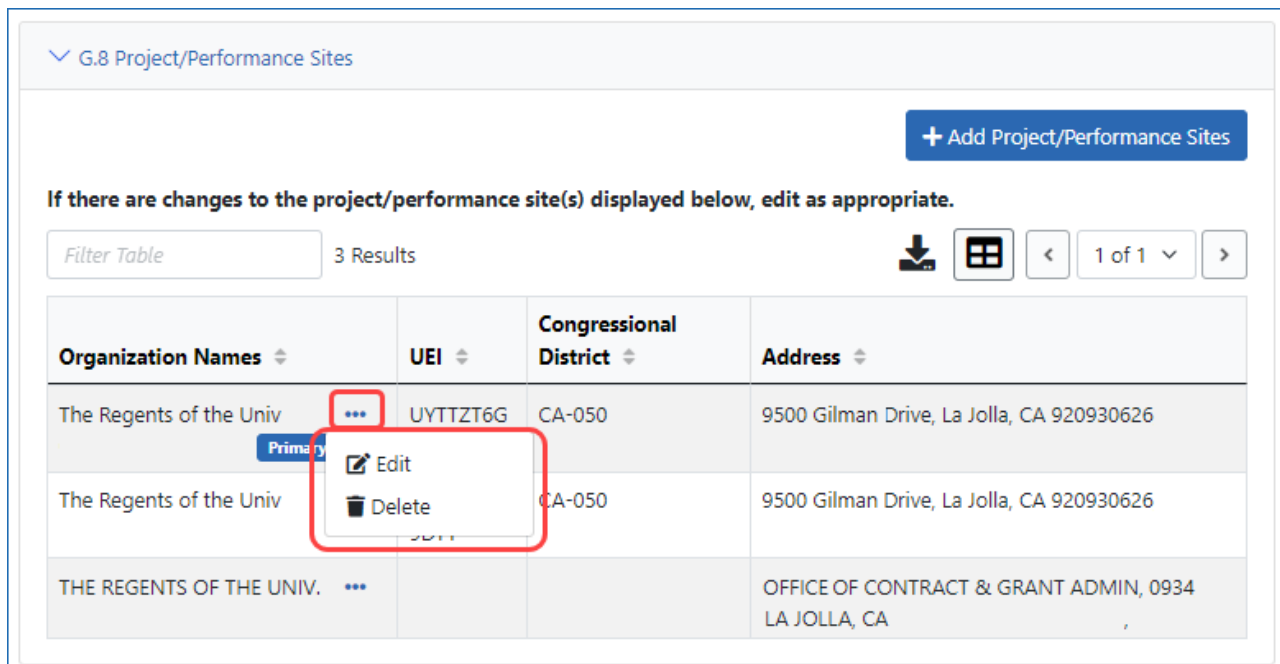

Figure 121 RPPR Section G. Special Reporting Requirements – Question G8

G.9 Foreign component.

Provide the organization name, country, and description of each foreign component.

Foreign component is defined as significant scientific activity that was performed outside of the United States, either by the recipient or by a researcher employed by a foreign organization, whether or not grant funds were expended. The following grant-related activities are significant and must be reported:

- involvement of human subjects or research with live vertebrate animals;
- extensive foreign travel by recipient project staff to collect data, or

NIH RPPR Instruction Guide

conduct surveys or sampling activities; or

- any recipient activity that may have an impact on U.S. foreign policy.

Examples of other grant-related activities that *may* be significant are:

- collaborations with investigators at a foreign site anticipated to result in co-authorship;
- use of facilities or instrumentation at a foreign site; or
- receipt of financial support or resources from a foreign entity.

Foreign travel for consultation does not meet the definition of foreign component.

Select the **Add Foreign Component** button to add the data to the table.

▼ G.9 Foreign Component

"Foreign component" is defined as significant scientific activity that was performed outside of the United States, either by the grantee or by a researcher employed by a foreign organization, whether or not grant funds were expended. The following grant-related activities are significant and must be reported:

- involvement of human subjects or research with live vertebrate animals;
- extensive foreign travel by awardee project staff to collect data, or conduct surveys or sampling activities; or
- any awardee activity that may have an impact on U.S. foreign policy.

Examples of other award-related activities that *may* be significant are:

- collaborations with investigators at a foreign site anticipated to result in co-authorship;
- use of facilities or instrumentation at a foreign site; or
- receipt of financial support or resources from a foreign entity.

Foreign travel for consultation does not meet the definition of foreign component.

No foreign component

or provide the organization name, country, and description of each foreign component

Figure 122 RPPR Section G. Special Reporting Requirements – Question G9

Figure 116 RPPR Section G. Special Reporting Requirements – Question G9

G.10 Estimated unobligated balance.

G.10.a Is it anticipated that an estimated unobligated balance (including prior year carryover) will be greater than 25% of the current year's total approved budget? If yes, provide the estimated unobligated balance.

The *total approved budget* equals the current fiscal year award authorization plus any approved carryover of funds from a prior year(s). The numerator equals the total amount available for carryover and the denominator equals the current year's total approved budget.

AHRQ ONLY: The RPPR is automatically set to “yes” for an AHRQ award because AHRQ recipients **must provide the estimated cumulative total cost dollar amount of any unobligated balance that is anticipated, regardless of whether the percentage of unobligated funds is over or under 25%.** Only if the estimated cumulative total cost dollar amount of the unobligated balance is actually zero should the recipient enter “0” in G.10.a. **For AHRQ awards, the total approved budget equals the current fiscal year award authorization and does NOT include any approved carryover of funds from a prior year(s). In the estimated unobligated balance calculation, the numerator equals the total amount available for carryover and the denominator equals the current fiscal year award authorization.**

G.10.b Provide an explanation for unobligated balance.

AHRQ ONLY: If the estimated unobligated balance exceeds 25% of the current fiscal year award authorization, provide an explanation of why this significant balance remains. If the estimated cumulative total cost dollar amount of the unobligated balance is less than 25% of the current fiscal year award authorization, enter “N/A” in G.10.b.

G.10.c If authorized to carryover the balance, provide a general description of how it is anticipated that the funds will be spent. To determine carryover authorization, see the Notice of Award.

Recipients not authorized to carryover unobligated balances automatically must submit a prior approval request to the awarding IC. See instructions in NIH Grants Policy Statement Section 8.1.2.4 Carryover of Unobligated Balances, or HHS GPS, Part II, Prior Approval Requirements, as applicable.

G.11 Program Income.

Is program income anticipated during the next budget period? If yes, provide the amount and source(s).

Program Income is defined as gross income earned by the recipient organization, a consortium participant, or a contractor under the grant that is directly generated by the grant-supported project or activity or earned as a result of the award. Program income includes, but is not limited to, income from fees for services performed; charges for the use or rental of real property, equipment or supplies acquired under the grant; the sale of commodities or items fabricated under an award; charges for research resources; registration fees for grant-supported conferences, and license fees and royalties on patents and copyrights. Program income from license fees and royalties from copyrighted material, patents, and inventions is exempt from reporting requirements unless otherwise specified in the terms and conditions of award.

Select the **Add Program Income** button to add the data to the table.

G.12 F&A Costs [applicable to SNAP awards only]

Is there a change in performance sites that will affect F&A costs? If yes, provide an explanation.

NIH RPPR Instruction Guide

▼ G.10 Estimated Unobligated Balance

G.10.a Is it anticipated that an estimated unobligated balance (including prior year carryover) will be greater than 25% of the current year's total approved budget?
 Yes No
AHRQ Special Instructions

The "total approved budget" equals the current fiscal year award authorization plus any approved carryover of funds from a prior year(s). The numerator equals the total amount available for carryover and the denominator equals the current year's total approved budget.
If yes, provide the estimated unobligated balance.

6.8 Section H – Budget [Applicable to non-SNAP awards only]

H.1 Budget Form

Select the SF424 Research and Related Budget from the drop down menu and follow the instructions in the [competing application instructions, Section G.300 R&R Budget Form](#), to complete the R&R budget, sections A-L, and the R&R Cumulative Budget, for the remainder of the project period. The budget justification should be uploaded as item L and must include detailed justification for those line items and amounts that represent a significant change from previously recommended levels (e.g., total re-budgeting greater than 25 percent of the total award amount for this budget period).

AHRQ Recipients only: Total costs (direct and indirect) should not exceed the committed level listed on the current NoA for the upcoming budget period. A detailed budget is required because AHRQ does not utilize the NIH SNAP process. If consortia are involved, include a detailed budget for each in H.2.

RPPR | Grant List | Rppr Menu | A. Cover Page | B. Accomplishments | C. Products | D. Participants | E. Impact | F. Changes | G. Special Reporting Req | **H. Budget**

H. Budget ?

H1. Budget Form

For training awards, grantees should select the applicable RPPR budget type (e.g., SF424 (R&R) or PHS 398 Training Budget) from the drop down menu. For a small number of NIH training awards the grantee is required to submit both the SF424 (R&R) and PHS 398 Training Budget; the RPPR will accommodate this.

If completing the SF424 (R&R), follow the instructions in the SF424 (R&R) Application Guide for NIH and Other PHS Agencies, Section I, 4.7 R&R Budget Component, sections A-K. The budget justification should be uploaded as item K, and must include detailed justification for those line items and amounts that represent a significant change from previously recommended levels (e.g., total rebudgeting greater than 25 percent of the total award amount for this budget period).

If completing the PHS 398 Training Budget, follow the instructions in the SF424 (R&R) Application Guide for NIH and Other PHS Agencies, Section I, 8.5 PHS 398 Training Budget Component, items A-F. The budget justification should be uploaded as item F, and must include detailed justification for those line items and amounts that represent a significant change from previously recommended levels (e.g., total rebudgeting greater than 25 percent of the total award amount for this budget period).

6.9 Section I – Outcomes

I.1 What were the outcomes of the award?

This component is used to provide information regarding the cumulative outcomes or findings of the project.

For NIH Section I. Outcomes will be made **publicly available**, thus allowing recipients to provide the general public with a concise summary of the cumulative outcomes or findings of the project at the end of a competitive segment. For NIH awards the length should **not** exceed half a page. In addition, for the interim or final RPPR the summary of outcomes or findings of the award must be written in the following format:

- Is written for the general public in clear, concise, and comprehensible language;
- Is suitable for dissemination to the general public, as the information may be available electronically;
- Does not include proprietary, confidential information or trade secrets

Please refer to the following link for samples of acceptable [project outcomes](#).

Per the 1993 NIH Revitalization Act, PL 103-43, enacted June 10, 1993, and the 21st Century Cures Act, PL 114-255, enacted December 13, 2016, NIH requires entities conducting NIH-defined Phase III Clinical Trials to include results of valid analyses by sex/gender, race, and ethnicity, in addition to submission in ClinicalTrials.gov.

NOTE: This section is only applicable to the Interim and Final RPPR. See [NOT-OD-17-022](#) and [NOT-OD-17-037](#).

Figure 127 Section I. Outcomes

* This section was added based on the updated version of the Federal-wide performance progress reporting format published in the Federal Register on [November 16, 2016](#).

7 Supplemental Instructions for Specific Grant RPPR Types

The *RPPR Instructions* in chapter 6, Sections A–H, apply to the following awards: D71, DP1, DP5, G08, G11, G13, P40, R00, R01, R03, R18, R21, R33, R34, R36, R37, R56, RC1, RC2,

RL1, S21, S22, SC1, SC2, SC3, U1B, UC2, UH1, UH2, UH3, **and** awards listed in Section 7.6 if they issued under SNAP. For all other awards, see Table 1 below and applicable supplemental instructions for specific grant award types that either replace or are in addition to the Instructions for RPPR Sections A–I.

Table 1: Applicable Supplemental Instructions

Applicable Supplemental Instructions	Award Activity Codes
7.1 Individual Career Development (K) Awards	K00, K01, K02, K05, K06, K07, K08, K18, K22, K23, K24, K25, K26, K99, KL1
7.2 Fellowship Awards	F05, F30, F31, F32, F33, F99
7.3 SBIR/STTR Awards	R41, R42, R43, R44, U43, U44, UT1, UT2, SB1, UB1
7.4 Training Awards	K12, KL2, R90, RL9, T15, T32, T34, T35, T37, T90, TL1, TL4, TU2
7.5 Educational Awards	D43, DP7, K30, R13, R25, R38, RL5, T14, T36, U13, U2R
7.6 Multi-Project Awards and Single Project Awards with Complicated Structure	G12, R34, M01, P01, P20, P2C, P30, P41, P42, P50, P51, P60, PL1, PM1, PN1, PN2, R24, R28, RM1, S06, S11, U01, U10, U19, U24, U2C, U34, U41, U42, U45, U54, U56, UC7, UL1, UM1, UM2

Table 1 Applicable Supplemental Instructions

IMPORTANT: Do Not Include Personal Identifiable Information (PII) Or Protected Health Information (PHI) In the RPPR

Sensitive PII (e.g., Social Security Number, personal financial information, Alien Registration Number) and PHI (e.g., personal medical conditions) require strict handling due to the increased risk to an individual if the data is compromised. Documents containing sensitive PII or PHI **must not** be included in the RPPR.

NIH GRANTS ONLY: Additional information on this topic can be found in this [FAQ](#) or by contacting your [IC Privacy Coordinator](#).

7.1 Individual Career Development (K) RPPRs

For Career Development Awards (i.e., K00, K01, K02, K05, K06, K07, K08, K18, K22, K23, K24, K25, K26, K76, K99, and KL1) follow the [Instructions for RPPR Sections A–I](#) in chapter 6, with the exceptions noted below:

B.4 What opportunities for training and professional development has the project provided?

Describe activities such as teaching, clinical care, professional consultation, service on advisory groups, and administrative activities. Indicate percent of time spent in each of these activities and the relationship to the recipient's research career development.

For mentored career development awards to postdoctoral researchers (e.g., K00, K01, K22, K99), indicate whether the organization uses Individual Development Plans (IDPs), and if so, describe how they were used in this reporting period to help manage the career development of the recipient (do not include the actual IDP). **This information is not required for AHRQ recipients.**

For awards that include a requirement to mentor others (e.g., K05 and K24), indicate the percent of time devoted to mentoring activities, individuals mentored during the reporting period, the frequency and kinds of mentoring, financial and other support provided to mentees, and the productivity of the mentoring relationship.

B.6. What do you plan to do for the next reporting period to accomplish the goals?

Provide a timeline for the activities planned for the next year, including plans to apply for subsequent grant support. Recipients of transition awards (e.g., K22, K99) should report on progress in identifying an independent research position. Additionally, recipients charged with mentoring others (e.g., K05, K24) should provide information describing planned mentoring activities and proposed mentees (e.g., backgrounds, interests, professional levels, etc.) sufficient to evaluate the quality of the mentoring.

C.2. Not Applicable.

C.3. Not Applicable.

C.5.c Data Management and Sharing

Applicable for career awards for competing applications submitted on or after January 25, 2023. Not Applicable for K12, KL1, and KM1. See the complete [list of NIH activity codes subject to the DMS Policy](#), [NIH Grants Policy Statement 8.2.3.1](#) and the [NIH Scientific Data Sharing](#) website for additional information.

D.2.e Not Applicable.

E.1 Not Applicable.

E.2 Not Applicable.

E.3 Not Applicable.

F.1 Not Applicable.

G.2 Responsible Conduct of Research

Describe the responsible conduct of research instruction received (or instruction given as a course director, discussion leader, etc., in the case of mid-career or senior career recipients) by formal and/or informal means, during this reporting period. If instruction or participation as a course director/discussion leader occurred in a prior budget period, note the dates of occurrence. Any activities undertaken to individualize instruction appropriate to career stage should be discussed. Address the five components: Format, Subject Matter, Faculty Participation, Duration, and Frequency. Additional detailed guidance on this requirement is found in the competing application instructions.

G.3 Mentor's Report

For mentored K awards, provide a letter signed by the mentor, in PDF format, assessing the recipient's progress and performance during this reporting period, both in research and in terms of development into an independent investigator in the area of the award. Include information on the continued commitment

NIH RPPR Instruction Guide

of the required minimum professional effort by the recipient (for most mentored K recipients this will be nine person months, or 75% effort) to the career development award and the availability of support for the candidate's research project during the next budget segment. For applicable career transition awards (e.g., K22, K99), the mentor should describe the recipient's efforts to transition into a permanent research position and the mentor's contributions to that process. If required to submit letters from more than one mentor, letters should be assembled in one PDF file. For non-mentored K awards, select "Not Applicable."

G.11 Not Applicable.

G.12 Not Applicable.

H. Budget. [Applicable to non-SNAP awards only.]

H.1 Budget Form

Follow the instructions for SF 424 (R&R) for K awards in [SF424 Career Development Instructions, section K-300](#). Base the recipient's salary and fringe benefits request on a full-time, 12-month appointment following the guidelines in the appropriate career award instructions. Support for other personnel and amounts in other budget categories may be requested in accordance with applicable CDA guidelines.

NOTE: If subaward budgets are completed, the system will not calculate the budget line item F.5 for the main budget (see figure below). Total consortium costs for the main budget **MUST** be computed and entered manually into budget line item F.5.

Figure 128 SF 424 R&R Budget Form - Question F.5

H.2 Subaward Budget Form

For awards with subaward/consortium budgets, the recipient may select up to 30 subaward budgets. To complete a detailed budget for a subaward/consortium, follow the competing application instructions [Subaward Budget Attachment\(s\) Form](#).

7.2 Fellowship RPPRs

For Fellowship Awards (i.e., F05, F30, F31, F32, F33, and F99), follow the [Instructions for RPPR Sections A–I](#) in chapter 6, with the exceptions noted below:

B.4 What opportunities for training and professional development has the project provided?

Indicate whether the organization uses Individual Development Plans (IDPs), and if so, describe how they were used in this reporting period to help manage the fellow's training (do not include the actual IDP). **This information is not required for AHRQ recipients.**

B.6 What do you plan to do during the next reporting period to accomplish the goals?

Include any course work and any important modifications to the original plans. Provide a scientific justification for any changes involving research with human subjects or vertebrate animals. A detailed description of such changes must be provided under Changes.

C.2 Not Applicable.

C.3 Not Applicable.

C.4 Not Applicable.

C.5.c Not Applicable.

See [NIH Grants Policy Statement 8.2.3.1](#) and the [NIH Scientific Data Sharing](#) website for additional information.

D.1 What individuals have worked on the project?

Provide or update the following information only for (1) The Fellow (considered the PD/PI) and (2) if applicable, any New Sponsor (considered a New OSC). ***Before the D.1.d New Other Significant Contributors question will appear and allow you to add the Biographical Sketch Common Form/NIH Biographical Sketch Supplement for a New Sponsor, you must first enter them as a participant in the D.1 table.***

Senior/Key Personnel (Y/N):

Is this participant considered Senior/Key Personnel?

The system will automatically indicate the fellow as “Yes” for Senior/Key and any New Sponsor as “No”.

New Senior/Key Personnel: Not Applicable.

Changes in Current and Pending (Other) Support.

Has there been a change in the active Current and Pending (Other) Support of the fellow since the last reporting period?

If yes, upload updated Current and Pending (Other) Support and Supplemental Documentation (as needed) for the fellow. List the project for which the progress report is being submitted and include the effort that will be devoted in the next reporting period.

Submit this documentation using the required forms and instructions found in [SciENCv: Science Experts Network Curriculum Vitae](#). For additional information on the Common Forms see our [Frequently Asked Questions \(FAQs\) - Common Forms for Biographical Sketch and Current and Pending \(Other\) Support](#)

New Other Significant Contributors.

Has there been a change in sponsor for this fellowship?

If yes, upload a Biographical Sketch Common Form/NIH Biographical Sketch Supplement for the new sponsor.

Submit this documentation using the required forms and instructions found in [SciENCv: Science Experts Network Curriculum Vitae](#). For additional information on the Common Forms see our [Frequently Asked Questions \(FAQs\) - Common Forms for Biographical Sketch and Current and Pending \(Other\) Support](#)

G.1 Special Notice of Award Terms and Notice of Funding Opportunity Reporting Requirements

Ruth L. Kirschstein National Research Service Award (NRSA) Individual Fellows (i.e. F30, F31, F32, and F33, as detailed on the [NIH Individual Fellowships](#) website), may request childcare costs in accordance with [NOT-OD-21-074](#). Recipients must upload a PDF named “Childcare_Cost_Request.pdf” (without quotation marks). The attachment must specify the requested childcare costs amount and number of years requested. Applicants are strongly encouraged to request childcare costs for all remaining years that the project will be funded based on the dependent(s)’ age eligibility factor. If childcare costs were previously requested and awarded, recipients must report on their annual RPPR if childcare costs continue to be needed or not.

Recipients are not required to submit supporting documentation with each request. Recipients must maintain all supporting documentation (e.g., proof provider is licensed). NIH reserves the right to request proof at any time.

Refer to [NOT-OD-21-074](#) for additional information. FAQs are available at: https://grants.nih.gov/faqs#/funding_programs_childcare_costs.htm.

AHRQ Only:

AHRQ Fellowship recipients should refer to <https://grants.nih.gov/grants/guide/notice-files/NOT-HS-22-013.html> for additional information.

G.2 Responsible Conduct of Research

Describe the responsible conduct of research instruction received (or instruction given as a course director, discussion leader, etc., in the case of senior fellows) by formal and/or informal means, during this reporting period. If instruction or participation as a course director/discussion leader occurred in a prior budget period, note the dates of occurrence. Any activities undertaken to individualize instruction appropriate to career stage should be discussed. Address the five components: Format, Subject Matter, Faculty Participation, Duration, and Frequency. Additional detailed guidance on this requirement is found in the competing application instructions.

G.3 Sponsor Comments

Provide a letter signed by the sponsor, in PDF format, assessing the progress of the research training (including academic work) and the fellow's accomplishments during this reporting period. For fellowships supporting dual-degree training (e.g. F30) the sponsor should report on the fellow's progress with respect to the proposed dual-degree timeline and whether the fellow is expected to complete the requirements for the research doctoral degree in the upcoming budget period.

7.3 SBIR/STTR RPPRs

For SBIR/STTR Awards (i.e., R41, R42, R43, R44, U43, U44, UT1, UT2, SB1, and UB1), follow the Instructions for RPPR Sections A–I in chapter 6, with the exceptions noted below:

B.2 What was accomplished under these goals?

Goals is equivalent to specific aims and/or milestones.

B.3 Competitive Revisions/Administrative Supplements

For this reporting period, is there one or more Revision/Supplement associated with this award for which reporting is required?

If yes, identify the Revision(s) by grant number (e.g., 3R01CA098765-01S1) or title and describe the specific aims and/or milestones for each Revision. Include any supplements to promote re-entry, or other similar supplements to support addition of an individual or a discrete project.

B.6 What do you plan to do during the next reporting period to accomplish the goals?

Progress reports include a one-page abstract describing the research plan. Fast-Track and Phase II should include an updated commercialization plan, as necessary.

C.5.a Other products

Commercial technologies will be addressed under Impact.

C.5.c Data Management and Sharing

Applicable for SBIR/STTR awards for competing applications submitted on or after January 25, 2023. See [NIH Grants Policy Statement 8.2.3.1](#) and the [NIH Scientific Data Sharing](#) website for additional information.

NIH RPPR Instruction Guide

C.5.c Data Management and Sharing

Describe activities related to the approved Data Management and Sharing Plan (DMSP). For each Data Type identified in the approved DMS Plan, provide the following information, as applicable:

Applicable Not Applicable + Add DMSP Information

Filter Table 5 Results ↓

1 of 1

 >

Data Type ^	Has data been generated to date? ↓	Has the data been shared? ↓	Status of Data Sharing ↓	Repository ↓	Unique Identifiers/Digital Object Identifier ↓
array-derived genotype data ***	Y	Y	Shared	Data Hub	ABC1234
Demographic Data ***	Y	N	Data not yet published will share in future	Not Applicable	Not Applicable
Phenotypic and clinical data ***	N	N	Not yet expected to be shared	Not Applicable	Not Applicable

**If data has not been generated and/or shared as outlined in the approved Plan, describe why, and identify any corrective actions that have or will be taken to comply with the approved plan.*

Description

Figure 129 Question C.5.c Data Management and Sharing

E.1 Not Applicable.

E.3 What is the impact on technology transfer?

Describe ways in which the project made an impact, or is likely to make an impact, on commercial technology or public use, including:

- transfer of results or products to entities in government or industry;
- instances where the research has led to the initiation of a start-up company; or

adoption of new practices.

E.3.a Commercialization Activities.

Report on the status of commercialization activities resulting from the award:

- Nothing to report or select one or more of the following:
- Sales = \$__

NIH RPPR Instruction Guide

- Licensing revenue = \$ _____
- 3rd Party investment since award start (Non-federal) = \$__
- Sale of company
- Sale of technology rights
- Company merger related to product
- Joint venture agreement
- Marketing/Distribution agreement(s)
- Manufacturing agreement(s)
- R&D agreements
- Customer alliance(s)
- Other [60 character limit]

E.3.b FDA Interactions.

Report on interactions with the Food and Drug Administration during the reporting period related to the technology that is the subject of the award:

- Not applicable to this technology or select one or more of the following:
- Discussion with FDA not initiated
- Discussion with the FDA initiated
- Approval in Progress
 - Applied for approval
 - Review ongoing
 - In human clinical trials
 - Other _____
 - Approval Granted: Type _____
 - Not approved

F.1 Not Applicable.

G.1: Special Notice of Award Terms and Notice of Funding Opportunity Reporting Requirements.

NIH requires SBIR/STTR grant recipients to submit the Life Cycle Certifications within the Interim and Final RPPR in this section. Forms must be uploaded directly and SBIR/STTR recipients should not select the “Nothing to Report” box in this section. The I-RPPR or F-RPPR will not be accepted unless all completed Life Cycle Certification(s) are received. Life Cycle Certification forms are available for SBIR and STTR applicants and recipients in fillable format at: <https://grants.nih.gov/grants-process/write-application/forms-directory?filter=small-business> .

NIH recipients only:

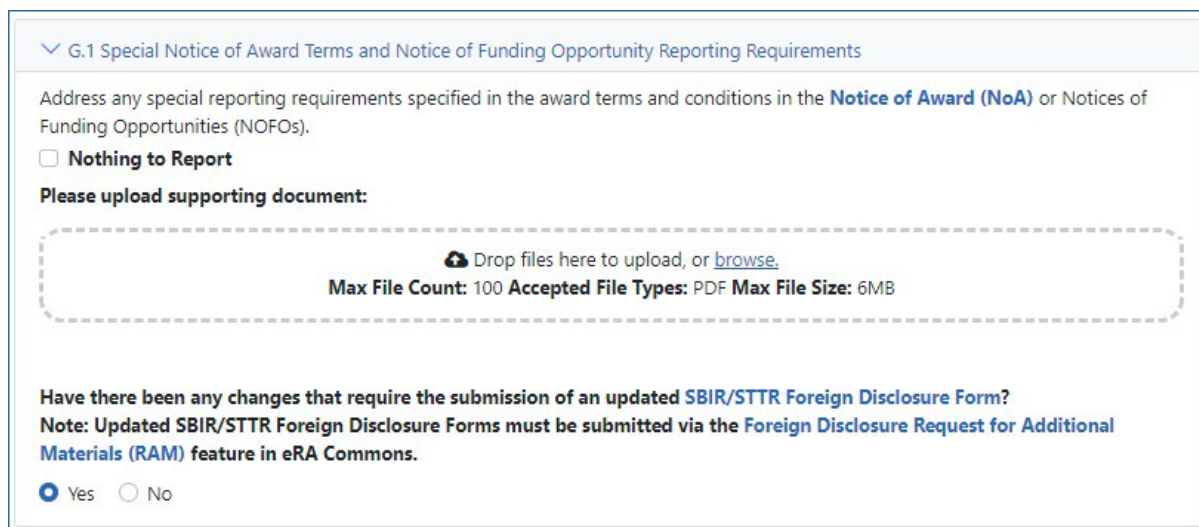

Have there been any changes that require the submission of an updated [SBIR/STTR Foreign Disclosure Form](#)?

NOTE: Updated SBIR/STTR Foreign Disclosure Forms must be submitted via the [Foreign Disclosure Request for Additional Materials \(RAM\)](#) feature in eRA Commons.

 NIH requires SBIR/STTR grant recipients to address whether there have been any changes that require the submission of an updated [Required Disclosures of Foreign Affiliations or Relationships to Foreign Countries form](#) (“SBIR/STTR Foreign Disclosure Form”) as part of the Annual, Interim, and Final RPPR in this section. See [NOT-OD-23-139](#) and [NOT-OD-25-102](#). The SBIR/STTR Foreign Disclosure Form is available for SBIR and STTR recipients in fillable format at: <https://grants.nih.gov/grants-process/write-application/forms-directory/required-disclosures-foreign-affiliations-or-relationships-foreign-countries>

If changes are indicated, recipients must submit an updated SBIR/STTR Foreign Disclosure Form via the “Foreign Disclosure Request for Additional Materials (RAM)” feature in eRA Commons if they have not already done so.

Updated SBIR/STTR Foreign Disclosure Forms must have all questions addressed and the form signed. The completed form must be submitted as a flattened PDF using the Foreign Disclosure RAM feature in eRA Commons. See eRA Commons online help for [SBIR/STTR Foreign Disclosure Form—Request for Additional Materials](#).

▼ G.1 Special Notice of Award Terms and Notice of Funding Opportunity Reporting Requirements

Address any special reporting requirements specified in the award terms and conditions in the [Notice of Award \(NoA\)](#) or Notices of Funding Opportunities (NOFOs).

Nothing to Report

Please upload supporting document:

 Drop files here to upload, or [browse](#).

Max File Count: 100 Accepted File Types: PDF Max File Size: 6MB

Yes No

Figure 130 RPPR Section G.1. SBIR/STTR Foreign Disclosure Form question appears for SBIR/STTR awards only.

G.2 Not Applicable.

G.3 Not Applicable.

7.4 Training RPPRs

For Training Awards (i.e., K12, KL2, R90, RL9, T15, T32, T34, T35, T37, T90, TL1, TL4, and TU2) and multi-year funded training awards (i.e., KM1) follow the Instructions for RPPR Sections A–I in chapter 6, with the exceptions noted below.

AHRQ Recipients only: T32 recipients should consult their AHRQ Program Official for additional requirements.

B.1. What are the major goals of the project?

Provide a description of the training objectives and goals. List the major goals of the project as stated in the approved application or as approved by the agency. If the application lists milestones/target dates for important activities or phases of the project, identify these dates and show actual completion dates or the percentage of completion.

Since the last report or application, describe implementation of training and other specific programmatic objectives, and the recruitment and retention of trainees, including those from diverse groups.

B.4 What opportunities for training and professional development has the project provided?

For all awards, provide a PDF that includes a paragraph for each trainee/scholar appointed to the award summarizing his or her training and progress during the reporting period or period since the last progress report. Include the following information for each trainee/scholar, as applicable:

- Degrees working toward or received
- Mentor(s)
- Description of the trainee/scholar’s research project and progress
- Career development related activities (e.g., individualized coursework or workshops attended)
- Conference presentations
- A description of the trainee/scholar’s role in any planned or published papers resulting from research conducted while supported by this award (e.g., designed or conducted experiment, analyzed data, drafted paper)

Note that full citations of all publications arising from work conducted while the trainee/scholar was supported by the award should not be reported here, as they will be collected in Section C.1.

- Honors, awards, fellowships, and any support received during the period of training (note that support before and after the appointment is reported on Table 8 and should not be reported here)

This description should be sufficient to allow evaluation of the appointees’ progress towards the goals of the training grant.

Indicate whether the organization uses Individual Development Plans (IDPs), and if so, describe how they were used to help manage the training and career development of the trainees/scholars. **This information is not required for AHRQ recipients.**

For T awards, provide updated information in Table 8, reflecting new appointments and other changes

NIH RPPR Instruction Guide

over the initial reporting period or period since the last progress report .

For D43, TU2, T15, T32, T37, T90, U2R, U90, and TL1 awards, include program statistics for doctoral training in Table 8A.

Do not include the following, unless specified as Reporting Requirements in the NOFO:

- Biosketches of current or former trainees/scholars;
- Any sensitive or personally identifiable information, such as photographs or other individual demographic information;
- Actual IDPs or blank IDP forms;
- Promotional material for workshops, seminars, or other events (flyers, agendas, etc.);
- Course syllabi;
- Program brochures.

B.6 What do you plan to do during the next reporting period to accomplish the goals?

Include plans for any modification based on the findings of your internal evaluations.

C.1 Publications

Recipients must report trainee publications associated with the training award in section C.1 of the RPPR if: (1) the publication was accepted for publication or made public during the “the initial reporting period and the period since the last progress report was submitted.; and (2) the publication resulted from work conducted while a trainee was supported by the award (i.e., receiving a stipend or salary from the award). Publications resulting from work the trainee conducted while not actively supported by the training grant should not be reported in section C.1.

Trainee publications must be entered into My Bibliography to display in section C.1 of the RPPR electronic interface. PD/PIs have the option in My NCBI to hide trainee papers for which they were not involved as an author from public display. (See the [My Bibliography guide](#) for instructions on how to hide citations from display for a public collection.) PD/PIs can also create a collection in My NCBI, name the collection, make it public, and generate a public URL to share the collection with others.

C.4 Not Applicable.

C.5.b Not Applicable.

C.5.c Not Applicable.

See [NIH Grants Policy Statement 8.2.3.1](#) and the [NIH Scientific Data Sharing](#) website for additional information.

D.1 What individuals have worked on the project?

In addition to the standard instructions in Section 6.4, please note the following additional instructions for Training RPPRs when adding new training faculty:

For the purpose of the training grant RPPR, New Training Faculty are considered new senior/key personnel. Before the New Senior/Key Personnel question will appear and allow you to add the Biographical Sketch Common Form/NIH Biographical Sketch Supplement, you must first enter them as a participant in the D.1 table and mark them as “Yes” for the question: “Is this participant considered Senior/Key Personnel? (Y/N radio button)”

NIH RPPR Instruction Guide

Do not report/include personnel for whom a PHS 2271 Appointment form has been submitted through xTrain.

New Senior/Key Personnel.

Is this participant new training faculty?

If yes, upload a Biographical Sketch Common Form/NIH Biographical Sketch Supplement, Current and Pending (Other) Support Common Form and Supplemental Documentation for this individual. Submit this documentation using the required forms and instructions found in [SciENcv: Science Experts Network Curriculum Vitae](#). For additional information on the Common Forms see our [Frequently Asked Questions \(FAQs\) - Common Forms for Biographical Sketch and Current and Pending \(Other\) Support](#)

E.1 Not Applicable.

E.2 Not Applicable.

E.3 Not Applicable.

F.1 Changes in approach and reasons for change

Describe changes in the program for the next budget period, including changes in training faculty. Include, as appropriate, the role of external advisory committees, significant new training content, procedures or experiences, and indicate how these aid in strengthening and realizing the objectives and goals of the program.

F.2 Not Applicable.

F.3 Significant changes to Human Subjects, Vertebrate Animals, Biohazards, and/or Select Agents

Complete this section only if the use or care of human subjects, vertebrate animals, biohazards and/or select agents is not reported under another NIH award.

G.1 Special Notice of Award Terms and Notice of Funding Opportunity Reporting Requirements

Ruth L. Kirschstein National Research Service Award (NRSA) Institutional Training Awards supporting full-time pre- and post-doctoral trainees (i.e. T32, TL1, TU2, and T90, as detailed at the [NIH Institutional Training](#) website), will be provided funds to support childcare costs for eligible trainees in accordance with [NOT-OD-25-100](#). Recipients must upload a PDF named “Childcare_Costs.pdf” (without quotation marks). The attachment must specify the number of trainees who used childcare costs in the reporting period.

Recipients are not required to submit supporting documentation. Recipients must maintain all supporting documentation (e.g., proof provider is licensed). NIH reserves the right to request proof at any time.

Refer to NIH Childcare Costs Frequently Asked Questions (FAQs) for additional information, available at: https://grants.nih.gov/faqs#/funding_programs_childcare_costs.htm.

AHRQ Only:

AHRQ Training grant recipients should refer to <https://grants.nih.gov/grants/guide/notice-files/NOT-HS-22-014.html> for additional information.

G.2 Responsible Conduct of Research

Describe the nature of the responsible conduct of research instruction and the extent of trainee (or scholar, in the case of the Institutional Career Development Programs) and faculty participation. Include a description of any enhancements and/or modifications to the five instructional components (Format,

NIH RPPR Instruction Guide

Subject Matter, Faculty Participation, Duration, and Frequency) from the plan described in the competing application. Faculty members who were contributors to formal instruction in responsible conduct of research during the last budget period must be named. Additional detailed guidance on this requirement is found in the competing application instructions.

G.3 Not Applicable

G.6 Human Embryonic Stem Cells (hESCs)

Complete this section only if the use of hESCs is not reported under another NIH award.

G.11 Not Applicable.

G.12 Not Applicable.

H. Budget

For training awards, recipients should select the applicable RPPR budget type (e.g., SF424 (R&R) or PHS 398 Training Budget) from the drop down menu. For a small number of NIH training programs the recipient is required to submit both the SF424 (R&R) and PHS 398 Training Budget; the RPPR will accommodate this.

H.1 Budget Form

If completing the SF424 (R&R), follow the instructions in the competing application instructions [Section G.300 R&R Budget Form](#). The budget justification should be uploaded, and must include detailed justification for those line items and amounts that represent a significant change from previously recommended levels (e.g., total rebudgeting greater than 25 percent of the total award amount for this budget period).

If completing the PHS 398 Training Budget, follow the instructions in the competing application instructions [Section G.330 Training Budget Form](#). The budget justification should be uploaded as item F, and must include detailed justification for those line items and amounts that represent a significant change from previously recommended levels (e.g., total re-budgeting greater than 25 percent of the total award amount for this budget period).

NOTE: If subaward budgets are completed, the system will not calculate the budget line item F.5 for the main budget (see figure below). Total consortium costs for the main budget **MUST** be computed and entered manually into budget line item F.5.

Figure 131 SF 424 R&R Budget Form - Question F.5

H.2 Subaward Budget Form

For awards with subaward/consortium budgets, the recipient may select up to 30 subaward budgets. To complete a detailed budget for a subaward/consortium, follow the competing application instructions, [Section G. 310 R&R Subaward Budget Attachment\(s\) Form](#) (for SF 424 R&R budget formats) or [Section G. 340 PHS 398 Training Subaward Budget Attachment\(s\) Form](#) (for PHS 398 Training budget formats).

7.5 Education RPPRs

For Education Awards (i.e., D43, DP7, K30, R13, R25, R38, RL5, T14, T36, U13, and U2R), follow the Instructions for RPPR Sections A–I in chapter 6, with the exceptions noted below:

B.4 What opportunities for training and professional development has the project provided?

Describe opportunities for training and professional development provided to anyone who worked on the project or anyone who was involved in the activities supported by the project. *Training* activities are those in which individuals with advanced professional skills and experience assist others in attaining greater proficiency. Training activities may include, for example, courses or one-on-one work with a mentor. *Professional development* activities result in increased knowledge or skill in one's area of expertise and may include workshops, conferences, seminars, study groups, and individual study. Include participation in conferences, workshops, and seminars not listed under major activities.

Programs that involve participants should also provide the following information, as applicable:

- If relevant to the goals of the program, indicate whether the organization uses Individual Development Plans (IDPs) for graduate students and postdoctoral researchers, and if so, describe how they were used to help manage the training and career development of participants (do not include actual IDPs). **This information is not required for AHRQ recipients.**
- Recipients with NIH grant awards with the following activity codes are required to provide program statistics for doctoral training in Table 8A: D43 and U2R.

C.3. Not Applicable.

C.4 Not Applicable.

C.5.b Resource Sharing

Generally not applicable. May be applicable for K30 and R38 awards for competing applications submitted on or after January 25, 2023. See the complete [list of NIH activity codes subject to the DMS Policy](#), [NIH Grants Policy Statement 8.2.3.1](#) and the [NIH Scientific Data Sharing](#) website for additional information.

C.5.c Data Management and Sharing

Applicable for K30 and R38 awards for competing applications submitted on or after January 25, 2023. Not Applicable for D43, DP7, R13, R25, RL5, T14, T36, U13, and U2R. See the complete [list of NIH activity codes subject to the DMS Policy](#), [NIH Grants Policy Statement 8.2.3.1](#) and the [NIH Scientific Data Sharing](#) website for additional information.

E.1 What is the impact on the development of human resources?

Describe how the project made an impact or is likely to make an impact on human resource development in science, engineering, and technology. For example, how has the project: 1) provided opportunities for research and teaching in the relevant fields; 2) improved the performance, skills, or attitudes or improve access to or retention in research, teaching, or other related professions; 3) developed and disseminated new educational materials or provided scholarships; or 4) provided exposure to science and technology for practitioners, teachers, young people, or other members of the public?

E.2 Not Applicable.

E.3 Not Applicable

F.1 Changes in approach and reasons for change

Describe changes for the next budget period. Include, as appropriate, the role of external advisory committees, significant new content, procedures or experiences, and indicate how these aid in strengthening and realizing the objectives and goals of the award.

G.2 Responsible Conduct of Research

If required in the NOFO for this award, describe the nature of the responsible conduct of research

NIH RPPR Instruction Guide

instruction and the extent of participant and faculty involvement. Include a description of any enhancements and/or modifications to the five instructional components (Format, Subject Matter, Faculty Participation, Duration, and Frequency) from the plan described in the competing application. Faculty members who were contributors to formal instruction in responsible conduct of research during the last budget period must be named. Additional detailed guidance on this requirement is found in the competing application instructions.

G.3 Not Applicable.

G.12 F&A Costs [Applicable to SNAP awards only.]

7.6 Multi-Project RPPRs and Single-Project RPPRs with Complicated Structure

For the purposes of the RPPR, the following activity codes are always categorized as multiproject awards or single-project awards with complicated structures: G12, M01, P01, P20, P2C, P30, P41, P42, P50, P51, P60, PL1, PM1, PN1, PN2, R24, R28, RM1, S06, S11, U01, U10, U19, U24, U2C, U34, U41, U42, U45, U54, U56, UC7, UL1, UM1, and UM2. These activity codes awards may or may not include multiple components (projects, cores), but they all could potentially include multiple components. For multi-project awards, the recipient will follow the instructions for the overall portion of the RPPR below and for *each* component of the RPPR the recipient will follow the instructions under component instructions in section 7.6.2.

The Instructions for RPPR Sections A–I in chapter 6 are applicable to these activity codes (even if the award does not include multiple components) with the following exceptions.

7.6.1 Overall

B.1 What are the major goals of the project?

Emphasize the synergy, collaboration and integration of major activities of the project. Report the major goals specific to an individual component under that component.

B.2 What was accomplished under these goals?

For this reporting period describe for the overall award: 1) major activities; 2) significant results, including major findings, developments, or conclusions (both positive and negative), and 3) key outcomes or other achievements. Include a discussion of stated goals not met. Report the accomplishments of individual projects and cores under that component.

- ***Is there one or more Revision associated with this award or a project under this award for which reporting is required?***

If the Revision is associated with a specific project or core, identify the component.

B.5 How have the results been disseminated to communities of interest?

If there are individual projects/cores designed to disseminate information or conduct outreach activities, report those activities under that component.

B.6 What do you plan to do during the next reporting period to accomplish the goals?

Report goals and objectives of individual projects or cores under that component.

C.5.a Other products

Identify any other significant products that were developed under the overall project. Report other products and resources resulting from an individual project or core under that component.

C.5.b Resource sharing

Report resource sharing for an individual project or core under that component.

C.5.c Data Management and Sharing

Data Management and Sharing activities are reported at the overall component. Applicable for M01, P01, P20, P2C, P30, P41, P42, P50, P51, P60, PL1, PM1, PN1, PN2, R24, R28, RM1, S06, U01, U10, U19, U24, U2C, U34, U41, U42, U54, U56, UC7, UL1, UM1, and UM2 awards for competing applications submitted on or after January 25, 2023. Not Applicable for G12, S11, and U45. See the complete [list of NIH activity codes subject to the DMS Policy](#), [NIH Grants Policy Statement 8.2.3.1](#) and the [NIH Scientific Data Sharing](#) website for additional information.

D.1 Participants

In addition to the instructions in Section D – Participants, specify the component(s) on which the individual worked by clicking a participant’s three-dot ellipsis icon and clicking **Edit**, which opens a popup. This personnel information is for the entire project. Use the Ctrl key to select multiple components. These instructions also apply for new Senior/Key Personnel, and for new Other Significant Contributors.

D.2 Personnel Updates

Personnel questions (D.2.a (Level of effort) and D.2.e (Will there be a change in the MPI Leadership Plan for the next budget period) are applicable to the entire project.

E.1 Not Applicable.

E.3 Not Applicable.

F.1 Not Applicable.

F.3 Significant changes to Human Subjects, Vertebrate Animals, Biohazards, and/or Select Agents.

If there are changes in any of the following areas, check the appropriate box and provide a description of the changes. If applicable, report the change under the relevant component.

G.2 Not Applicable.

G.3 Not Applicable.

G.12 F&A Costs [Applicable to SNAP awards only.]

H. Budget

For multi-project RPPRs complete the budget for each component and for each subaward; see the section in this document titled, “7.6 Multi-Project RPPRs and Single-Project RPPRs with Complicated Structure“. A summary budget will be system-generated based on the budgets completed for the components and will be included in the final .pdf submitted to the Agency. The composite budget summaries will reflect the direct costs for the recipient. Although the direct and indirect costs for subawards are direct costs to the recipient organizations, these costs will be listed as a separate line item, called “consortium” and will include all consortium costs. The total consortium costs for the summary budget are automatically calculated by the system and reflect the sum of the consortium costs (budget line item F.5 of the project budget) for the project budgets with the recipient organization UEI and the total direct and indirect costs (budget line item I.) for project budgets with a UEI different from that of the recipient organization.

H.1 Budget Form [Single-Project RPPRs with Complicated Structure only]

For Single-Project RPPRs with Complicated Structure , follow the instructions in the competing application instructions [Section G.300 – R&R Budget Form](#). The budget justification should be uploaded as item L, and must include detailed justification for those line items and amounts that represent a significant change from previously recommended levels (e.g., total re-budgeting greater than 25 percent of the total award amount for this budget period).

NOTE: If subaward budgets are completed, the system will not calculate the budget line item F.5 for the main budget (see figure below). Total consortium costs for the main budget **MUST** be computed and entered manually into budget line item F.5.

NIH RPPR Instruction Guide

The screenshot displays the 'F. Other Direct Costs' section of the NIH RPPR Budget Form. It lists ten categories of costs, each with a corresponding input field for the amount requested. The categories are:

- 1. Materials and Supplies (\$)
- 2. Publication Costs (\$)
- 3. Consultant Services (\$)
- 4. ADP/Computer Services (\$)
- 5. Subawards/Consortium/ Contractual Costs (\$)
- 6. Equipment or Facility Rental/User Fees (\$)
- 7. Alterations and Renovations (\$)
- 8. Other Cost (Description and Funds Requested)
- 9. Other Cost (Description and Funds Requested)
- 10. Other Cost (Description and Funds Requested)
- 16. Other Cost (Description and Funds Requested)
- 17. Other Cost (Description and Funds Requested)

Item 5, 'Subawards/Consortium/ Contractual Costs', is highlighted with a red rectangular box. The amount requested for this item is currently set to 0.00. The form also includes a 'Total Other Direct Costs' field at the bottom.

Figure 133 SF 424 R&R Budget Form - Question F.5

H.2 Subaward Budget Form[Single-Project RPPRs with Complicated Structure only]

For awards with subaward/consortium budgets, the recipient may select up to 30 subaward budgets. To complete a detailed budget for a subaward/consortium, follow the instructions for R&R Subaward Budget Attachments Form in Multi-Project Instructions in follow the competing application instructions, [Section G.310 – R&R Subaward Budget Attachment\(s\) Form](#).

7.6.2 Component Instructions

For *each* component, click the **Add Component** button, and complete the instructions. The Instructions for RPPR Sections A–I in chapter 6 are applicable to each individual component with the following exceptions:

A. Provide the title or identifying number of the component.

A.1 Provide the name, email, phone number and address of the PI of the component.

Remember to save all your changes before leaving the page.

Component ID: Admin-5490 Expand/Collapse All

Award Information

Award Number
5P50AR065139-11

Project Title

Figure 134 Sample of Section A. Cover Page for a Component

B.3 Not Applicable.

B.5 How have the results been disseminated to communities of interest?

Reporting the routine dissemination of information (e.g., websites, press releases) is not required. If the Component is not designed to disseminate information to the public or conduct similar outreach activities, select **Nothing to Report**. If the Component is designed to disseminate information or conduct outreach activities, report those activities here. Note that scientific publications and the sharing of research resources will be reported under *Products*.

C.1 Not Applicable.

C.2 Not Applicable.

C.4 Not Applicable.

C.5.c Data Management and Sharing

Data Management and Sharing activities are reported at the overall component. Applicable for M01, P01, P20, P2C, P30, P41, P42, P50, P51, P60, PL1, PM1, PN1, PN2, R24, R28, RM1, S06, U01, U10, U19, U24, U2C, U34, U41, U42, U54, U56, UC7, UL1, UM1, and UM2 awards for competing applications submitted on or after January 25, 2023. Not Applicable for G12, S11, and U45. See the complete [list of NIH activity codes subject to the DMS Policy](#), [NIH Grants Policy Statement 8.2.3.1](#) and the [NIH Scientific Data Sharing](#) website for additional information.

D. Not Applicable.

E.1 Not Applicable.

E.2 Not Applicable.

E.3 What is the impact on technology transfer?

Describe ways in which the component made an impact, or is likely to make an impact, on commercial technology or public use, including:

- transfer of results to entities in government or industry;
- instances where the research has led to the initiation of a start-up company; or adoption of new practices.

G.9 Not Applicable.

G.10 Not Applicable.

G.11 Not Applicable.

G.12 Not Applicable.

H. Budget

H.1 Budget Form [Multi-Project RPPRs only]

When a recipient organization is the lead on the Component, follow the instructions in the [competing application instructions](#), and take note of the “Additional Instructions for Multi-Project” instructions. The budget justification should be uploaded as item L, and must include detailed justification for those line items and amounts that represent a significant change from previously recommended levels (e.g., total re-budgeting greater than 25 percent of the total award amount for this budget period).

When a collaborating organization is the lead on the Component, the information from the collaborating organization should be used to complete the project budget, following the instructions in the [competing application instructions](#)

For a multi-component grant, the component’s UEI and organization name are prepopulated with the recipient organization’s data, but both the **Unique Entity Identifier** and **Organization Name** fields are editable, so you can choose to change them.

NOTE: If subaward budgets are completed, the system will not calculate the budget line item F.5 for the main budget (see figure below). Total consortium costs for the main budget **MUST** be computed and entered manually into budget line item F.5.

H.2 Subaward Budget Form [Multi-Project RPPRs only]

If the component has subaward/consortium budgets, follow the competing application instructions, [Section G.310 – R&R Subaward Budget Attachment\(s\) Form](#).

8 Assurances/Certifications

The list of Assurances, and Certifications, and other Policies to which applicants and recipients must comply, which apply to progress reports submitted to NIH and other PHS agencies, are referenced in the [NIH Grants Policy Statement](#), or the [HHS Grants Policy Statement](#), as applicable.

The policies, assurances and certifications listed may or may not be applicable to the project, program, or type of applicant organization. If unable to certify compliance, provide an explanation and upload it in **G.1 Special Notice of Award Terms and Notice of Funding Opportunity Reporting Requirements**.

Submission of the RPPR to the agency includes the following certification:

In submitting this Progress Report, the SO (or PD/PI with delegated authority), certifies that the awardee organization is in compliance with the terms and conditions specified in the Notice of Award and Awards Policy Statement, and verifies the accuracy and validity of all administrative, fiscal, and scientific information in the progress report. The SO (or PD/PI with delegated authority) further certifies that the awardee organization will be accountable for the appropriate use of any funds awarded and for the performance of the award-supported project or activities resulting from the progress report. Deliberate withholding, falsification, or misrepresentation of information could result in administrative actions such as withdrawal of a progress report, suspension and/or termination of an award, debarment of individuals, as well as possible criminal penalties. The awardee institution may be liable for the reimbursement of funds associated with any inappropriate or fraudulent conduct of the project activity.

9 Government Use of Information Under the Privacy Act

Privacy Act Statement. The NIH maintains application and grant records as part of a system of records as defined by the Privacy Act: NIH 09-25-0036, *Extramural Awards and Chartered Advisory Committees (IMPAC 2)*, *Contract Information (DCIS)*, and *Cooperative Agreement Information*, HHS/NIH: [Federal Register record of the Privacy Act 09-25-0036](#).
